

INCIDENT MANAGEMENT SITUATION REPORT  
 FRIDAY, JUNE 13, 1997 - 0530 MDT  
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION: No new large fires were reported. Northern California reported increased initial attack fire activity. Alaska reported increased acreage on a couple of limited fires. The remainder of the U.S. reported minimal activity. Units in Southern California, Arizona and New Mexico continue to report very high and extreme fire indices. Canada continues to experience significant fire activity. Fires have caused the evacuations of 70 people in Ontario and 1,300 in Quebec.

OUTLOOK:

\*\*\* A FIRE WEATHER WATCH HAS BEEN POSTED FOR \*\*\*  
 \*\*\* STRONG WINDS IN THE CENTRAL MOUNTAINS OF NEW MEXICO. \*\*\*

\*\*\* A FIRE WEATHER WATCH HAS BEEN POSTED FOR ARIZONA BETWEEN 2,000 AND \*\*\*  
 \*\*\* 6,500 FEET DUE TO STRONG WINDS, LOW HUMIDITIES, AND LOW FUEL MOISTURE. \*\*\*

New Mexico will be mostly sunny and windy with a chance of afternoon thunderstorms in the northwest. The rest of the state will be warm and dry. High temperatures in the mountains will be in the 60's and 70's. The valleys will see temperatures in the 70's and 80's with the deserts in the 90's. A low pressure system over the Great Basin will bring strong winds to Arizona, with gusts over 40 MPH. This system will bring a chance of showers and thunderstorms over the north. The rest of the state will be warm and dry. High temperatures will be in the 60's in the mountains and the 90's in the southern deserts. An upper level trough in western Oregon is moving to the southeast. This system will bring widely scattered showers and thunderstorms to California, with breezy and cooler conditions and dropping snow levels to 7-8,000 feet. High temperatures will be in the 60's and lower 70's in the mountains and coast, with 70's and 80's in the valleys. The southern deserts will see the lower 90's. Minnesota and Wisconsin will have cooler and dry conditions except for a chance of afternoon thunderstorms over southern and eastern Wisconsin. High temperatures will be in the lower 70's north, to the lower 80's in the south. Alaska will be partly cloudy with scattered showers and thunderstorms in the central and east.
