

**INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, JANUARY 19, 2001 - 1000 MST
NATIONAL PREPAREDNESS LEVEL I**

CURRENT SITUATION:

No new large fires were reported this week in the nation. Initial attack activity continued in the Southern Area. Florida may experience red flag conditions this weekend for low relative humidity and windy conditions with the passing of a cold front.

OUTLOOK:

A Pacific storm will bring rain and snow showers to northern California, Oregon and Washington. High temperatures will range from the 30's to 40's in Oregon and Washington to the 60's in the Southwest.

A storm over the South will reach into the Midwest today bringing precipitation from Houston, TX to the Ohio Valley. The rest of the region will experience cloudy conditions. Daytime high temperatures will be from the 20's in Nebraska to the 40's in Texas.

Potentially strong thunderstorms will occur today over Georgia, Alabama, Louisiana, and the Florida Panhandle. Showers should fall over most of the region except for Florida and the southeastern coastline. High temperatures will be in the 40's in Tennessee and northern Mississippi and in the upper 70's to lower 80's in Florida.

The cold front moving through the Great Lakes will combine with the system in the South and will produce showers over most of the region today. Daytime high temperatures will range from the 30's in the north to the 50's and 60's in the Virginias.
