

**INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, JANUARY 26, 2001 - 1000 MST
NATIONAL PREPAREDNESS LEVEL I**

CURRENT SITUATION:

Two new large fires were reported in the Southern Area. Initial attack activity continued on a daily basis in the Southern Area. Florida Governor Jeb Bush has ordered the activation of the Florida National Guard aviation resources for incident support.

SOUTHERN AREA LARGE FIRES:

LAKE, Florida State Division of Forestry. This fire is near the Lake-Polk county line. Current threats are to approximately 900 homes and the possible shutdown of I-4 due to smoke.

MNF = National Forests in Mississippi

OUTLOOK:

***** Red Flag Warning is in effect from noon until sunset in Florida due to long durations of relative humidity below 35 percent. *****

High pressure in the South will gradually weaken as it moves east. A cold front will move through the area Saturday with the possibility of light precipitation. Winds will be light becoming more southerly throughout the day.

Daytime high temperatures will be in the 50's for most of the region, except for southern Florida, which will have temperatures in the 70's.

Winter storm warnings have been issued for most of the Pacific West for heavy snowfall in the mountains. The low pressure system will lose some strength as it moves inland. It will split into two pressure centers due to the high remaining in place over the Rocky Mountains. High temperatures will be mainly in the 30's and 40's over the region, and in the 60's in the southern portion.

A storm system will produce snow across most of Iowa and northeast into the Great Lakes. The rest of the Midwest will experience a wintry mix throughout the day. Windy conditions with gusts up to 50 mph will occur across the Great Plains. High temperatures will be in the teens across the upper Midwest, in the 30's and 40's over the Great Plains, and in the 60's and 70's for the southern portion of the region.

High pressure will move into the Northeast just ahead of the storm system in the Midwest. This will bring clear skies to the area and breezy conditions. Daytime high temperatures will range from the mid 30's to the mid 40's.
