

INCIDENT MANAGEMENT SITUATION REPORT  
 FRIDAY, MARCH 2, 2001 - 1000 MST  
 NATIONAL PREPAREDNESS LEVEL 1

CURRENT SITUATION:

No new large fires were reported to the National Interagency Coordination Center this past week and four of the large fires in the Southern Area reached containment status. Initial attack activity continued to be reported daily in the Southern Area. A low in the Gulf of Mexico will bring a chance of showers and thunderstorms to Florida through the weekend.

SOUTHERN AREA LARGE FIRES:

BIG BEND, Florida Division of Forestry. Firelines on higher ground have continued to hold.

TORY ISLAND, Florida Division of Forestry. This fire is near Homestead, FL and is being monitored by air.

RED BEACH, Florida Division of Forestry. This fire is in Highlands County, FL.

BAHIA, Florida Division of Forestry. This fire is near Melbourne, FL. The fire is continuing to be monitored.

TALL PINE, Florida Division of Forestry. Crews are monitoring on a routine basis.

LEYRY, Florida Division of Forestry. This fire is being monitored by air.

STAFFORD COMMAND, Florida Division of Forestry. No other information was received.

OUTLOOK:

A weak high pressure system will slowly build into the Southeast over the weekend. Moisture ahead of another low will push into the area early in the week bringing a chance of rain. This low will linger over the southeast into Tuesday before high pressure rebuilds over the area by midweek. Low temperatures will be in the upper 30's and 40's with highs in the 50's to lower 60's. Winds will be from the southwest 10 to 15 mph, shifting northwest by the first of the week.

A cold front moving over the Pacific Northwest will bring precipitation with a chance of light snowfall for the higher elevations. High pressure over the Central Plains will keep the remainder of the West dry and under partly to mostly cloudy skies. High temperatures will be in the 40's over much of the region, 50's in the coastal region, with the Rocky Mountains in the upper 20's to the upper 30's.

In the Midwest the Plains States will be partly cloudy with clearing likely closer to the Canadian border. Eastern Texas will have showers with a possibility of thunderstorms. High temperatures will range from the 30's in the upper Midwest, 40's from the Ohio River Valley to the Texas Panhandle, and the 50's from Kentucky south.

The Northeast can expect a chance of snow showers across the northern states with the rest of the region remaining partly cloudy. High temperatures will range into the teens for northern Maine, in the 20's south to Connecticut, lower 30's and 40's from Pennsylvania into much of New Jersey, and the lower 50's from Maryland into the Virginia's.
