

INCIDENT MANAGEMENT SITUATION REPORT
 MONDAY, JULY 2, 2001 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

Four new large fires were reported, two in Colorado, one in Idaho and one in Texas. Two large fire were contained, one each in Colorado and Nevada. Initial attack activity was moderate in California and the Southwest. Light initial attack activity was reported elsewhere. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Idaho, Kansas, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming.

ALASKA AREA LARGE FIRES:

NORTH SHORE KENAI LAKE, Chugach National Forest. A Type 1 Incident Management Team (Hefner) is assigned. This fire is 12 miles north by northwest of Seward, AK. Moderation of burning conditions allowed for a direct attack strategy to continue in fire suppression actions. Fireline construction on the north and east perimeters, west of structures has been completed. Air support assisted in holding this constructed fireline during peak afternoon burning conditions.

MYSTERY HILLS, Kenai National Wildlife Refuge. A Type 2 Incident Management Team (McElwain) is assigned. This fire is 2 miles north of the Sterling Highway, 45 miles northeast of Soldotna, AK. Fireline construction continues in preparation for burnout operations. Favorable weather conditions have assisted suppression efforts.

FISH CREEK, Fairbanks Area, Alaska Division of Forestry. A Type 2 Incident Management Team (Jandt) is assigned. This fire is 12 miles southeast of Nenana, AK. Fire activity continues on the east side of the fire. Demobilization of resources is occurring.

RED FOX, Tok Area, Alaska Division of Forestry. A Type 2 Incident Management Team (Kechter) is assigned. This fire is burning in mixed hardwoods and black spruce one-and-a-half miles northeast of Tok, AK.

SURVEY LINE, Fort Wainwright, Department of Defense. This fire is approximately 12 miles southwest of Fairbanks, AK. The fire is in a military limited protection area and continues to approach a full protection area.

HTF = Humboldt-Toiyabe National Forest

SOUTHERN AREA LARGE FIRES:

LITTLE POINT CLEAR UNIT, Bon Secour National Wildlife Refuge. This fire is 14 miles west of Gulf Shores, AL. Light precipitation and higher humidity has assisted with containment efforts. Decrease in acreage is due to better mapping.

SISTERS COMPLEX, Sabine National Wildlife Refuge. This complex of fires are eight miles south of Hackberry, LA. The fire continues to burn in tall grass and several years of cured grass accumulation. Active fire behavior was observed throughout the night. Burn out operations continue where access is limited to boats.

COON CREEK 1, Anahuac National Wildlife Refuge. This fire is 35 miles east of Houston, TX. One water control structure was threatened, but burn out operations were successful in mitigating damage to the structure. Variable winds from passing thunderstorms caused some tactical problems.

SAVANNAH SPOT, Aransas National Wildlife Refuge. This fire, burning in heavy oak brush, is 15 miles east of Rockport, TX. Early morning rain and humidity recovery has assisted with containment efforts. Fireline construction has been completed and crews are gridding the fire perimeter for hot spots.

PITCHFORK, Texas State Forest Service. This fire is burning in pinyon pine, juniper and mesquite 100 miles east of Lubbock, TX. No new information was received. This will be the last report unless new information is received.

SOUTHWEST AREA LARGE FIRES:

ROUGH CREEK, Socorro District, New Mexico State Forestry Office. This fire is 30 miles southwest of Lordsburg, NM. No new information was received.

WHITETAIL, Gila National Forest. A Fire Use Management Team (Cook) is assigned. This lightning caused Wildland Fire Use fire is 60 miles northwest of Truth of Consequences, NM. The fire remains active.

BLACK, Gila National Forest. A Fire Use Management Team (Cook) is assigned. This lightning caused Wildland Fire Use fire is 35 miles north of Silver City, NM. The fire remains active on the south end.

ROCKY MOUNTAIN AREA LARGE FIRES:

BEAR SPRINGS, Pinon Canyon Maneuver Site, Department of Defense. This fire is burning in pinyon pine and juniper near La Junta, CO. Spotting caused by gusty winds is hampering containment efforts.

SHEEP CREEK, Grand County. This lightning fire is 15 miles southwest of Kremmling, CO. Moderate fire behavior is assisting containment efforts.

BUTTE ROAD	ID	BOD	300	75	7/2	75	0	7	2	0	NR

OUTLOOK:

High pressure over Kodiak Island and a thermal trough over central interior Alaska will bring partly cloudy skies and a few showers and thunderstorms; more numerous over the interior. High temperatures will be in the 60's and 70's, with minimum relative humidity ranging from 35 to 50 percent. Winds will be southwest to west at 5 to 15 mph.

High pressure centered over the Four Corners and increasing monsoonal moisture will bring partly cloudy skies with scattered showers and thundershowers to the Southwest. High temperatures will be in the 80's in the mountains and 105 to 115 in the deserts. Minimum relative humidity will range from 15 to 30 percent and winds will be variable at 5 to 15 mph.

The high pressure centered over the Four Corners will bring partly cloudy skies and isolated thunderstorms to western Texas, with scattered showers and thundershowers elsewhere. High temperatures will be 90 to 100, with minimum relative humidity ranging from 30 to 45 percent. Winds will be variable at 5 to 15 mph.

The Great Basin and western Colorado will be influenced by high pressure centered over the Four Corners with a southerly flow bringing increasing moisture to the area. Skies will be partly cloudy with isolated dry thunderstorms. High temperatures will be 90 to 105, except near 115 in southern Nevada. Minimum relative humidity will range from 5 to 15 percent. Winds will be south to west at 5 to 15 mph.
