

**INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, AUGUST 10, 2005 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was moderate nationally with 231 fires reported. Seven new large fires were reported, two each in the Northwest and Northern Rockies Areas, and one each in the Northern California, Southwest and Alaska Areas. Two large fires were contained, one each in the Northern Rockies and Eastern Great Basin Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Idaho, Kansas, Michigan, Minnesota, Montana, Nebraska, Nevada, New Mexico, Oregon, South Dakota, Washington and Wyoming.

NORTHWEST AREA INCIDENTS / LARGE FIRES:

SCHOOL, Umatilla National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This fire is 16 miles south of Pomeroy, WA in timber. Private residences and outbuildings, campgrounds, lookouts, cultural sites and wildlife habitat remain threatened. Structure protection is in place. Steep terrain and rolling debris are hampering containment efforts. Torching and short crown runs were observed.

BLOSSOM COMPLEX, Siskiyou National Forest. A Type 2 Incident Management Team (Paul) is assigned. A unified command has been established between the U.S. Forest Service and the Oregon Department of Forestry. This complex, comprised of the Blossom, Huggins and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. Wildlife habitat and private structures along the Rogue River are threatened. Inaccessible terrain and rolling debris continue to hamper containment efforts. Downhill backing fire and isolated torching were observed.

BURNT BREAD, Washington State Department of Natural Resources – Northeast. A Washington Interagency Incident Management Team (Johnson/Barnett) is assigned. This fire started on private land 17 miles southeast of Tonasket, WA in timber, grass and brush. Steep terrain continues to hamper containment efforts. Interior burning and torching were reported.

EGYPT WELLS COMPLEX, Burns District, Bureau of Land Management. A Type 2 Incident Management Team (Goheen) is assigned. This complex, comprised of the Egypt Wells and Hamilton Ranch fires, is 20 miles northwest of Burns, OR in logging slash, sage and grass. The incident observed frequent spotting and individual tree torching.

DIRTY FACE, Washington State Department of Natural Resources - Southeast. A Washington Interagency Incident Management Team (Furlong/Gormley) is assigned. This fire is 25 miles northwest of Leavenworth, WA in timber. Steep, inaccessible terrain continues to hinder containment efforts. An evacuation notice is in effect for nearby residences. Structure protection remains in place. Private residences, historic sites, a state park and endangered species habitat remain threatened. The fire activity included burning of interior fuels with occasional torching. Successful burn out operations were completed.

MULE PEAK, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (West) is assigned. This fire is 20 miles southeast of La Grande, OR in timber and grass. Endangered species habitat remains threatened. Steep terrain and heavy subalpine fuels continue to impede containment efforts. Fire activity was minimal, with creeping and smoldering reported.

LICK CREEK, Washington State Department of Natural Resources – Southeast. A Washington Interagency Incident Management Team (Berndt/LaFave) is assigned. This fire is six miles north of Cle Elum, WA in logging slash, brush understory, timber and grass. Wildlife habitat remains threatened. Fire activity was minimal, and concentrated in pockets of unburned fuel.

RINEHART ROAD, Oregon Department of Forestry. This fire is 15 miles northeast of La Grande, OR in timber, brush and grass. Private residences and ranches remain threatened. Minimal fire behavior was observed.

TRYON COMPLEX, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Lunde) is assigned. This fire is 20 miles north of Imnaha, OR in timber and grass. Smoky conditions, steep terrain, limited access, are hindering containment efforts. Structure protection is in place. Short runs were observed.

MCLANE, Hanford Reach National Monument. This fire is 20 miles northeast of Richland, WA in brush and hardwood slash. Farm residences and wildlife habitat are threatened. Marshy terrain and dense vegetation are impeding engine access. Running with short range spotting was reported.

GRANITE COMPLEX, Wallowa-Whitman National Forest. A Region 6 Wildland Fire Use Team will assume oversight at 1800 today. This lightning-caused Wildland Fire Use (WFU) incident is 30 miles east of Enterprise, OR in timber and grass. The fire is in monitor status and is being managed to meet resource objectives.

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

BLACKERBY, Maggie Creek Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Larsen) has been ordered. This fire is five miles southeast of Grangeville, ID in timber. Evacuations are in place. The community of Grangeville, structures in the Cove Road area and power lines are threatened. Active fire behavior with extreme rates of spread was observed.

I-90, Lolo National Forest. A Type 1 Incident Management Team (Sandman) is assigned. This fire is one mile south of Alberton, MT in timber, and includes the West Mountain, Tarkio, Fish and Alberton East fires. West Mountain community residents remain evacuated. Private residences, commercial properties and utility corridors remain threatened. Structure protection is in place. River access points remain closed. Steep, rugged terrain continues to impede containment efforts. Uphill crown runs, intermittent spotting and torching were observed.

CHINA TEN, Nez Perce National Forest. A Type 2 Incident Management Team has been ordered. This fire is 15 miles east of Grangeville, ID in beetle killed lodgepole pine and subalpine fir. Short crown runs, isolated torching and spotting were observed.

CAMP 32, Kootenai National Forest. A Type 1 Incident Management Team (Bennett) is assigned. This fire is nine miles southwest of Eureka, MT in timber. Private residences remain threatened. Active surface fire was reported.

PROSPECT, Lolo National Forest. Type 2 Incident Management Team (Cowin) is assigned. This fire is 12 miles south of Superior, MT in timber. Structures and historical sites remain threatened. Poor access and heavy fuels are hindering containment efforts. Torching and short range spotting were reported.

BARECASTLE, Bitterroot National Forest. A Type 2 Incident Management Team (Specht) is assigned. This fire is 20 miles southwest of Darby, MT in timber and grass. Barecone Lookout remains evacuated. Forest road 1303 and Castle Rock Trail remain closed. Steep terrain is impeding containment efforts. Precipitation temporarily moderated fire activity. Isolated torching and creeping were observed. Reduction in acreage is due to more accurate mapping.

ROCKIN, Bitterroot National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire, formerly named Rockin Complex, is 10 miles northwest of Darby, MT in timber. An area closure is in effect for the Rock Creek trailhead and the west end of Lake Como. Residences, Lick Creek Experimental Research and cultural sites are threatened. Narrow canyons, steep, rocky terrain and adverse weather conditions continue to hamper containment efforts. Ground fire with single tree torching was observed.

KELLY POINT, Flathead National Forest. A Fire Use Management Team (Cook) is assigned. This fire will be managed in conjunction with the Limestone Peak fire. The fire is 38 miles southeast of Bigfork, MT in timber. The fire will be managed with a confine suppression strategy. A closure order is in effect for the South Fork of the Flathead River between Big Salmon Creek north to the Meadow Creek Trailhead. Trail closures remain in effect. Black Bear administrative site is threatened; structure protection is in place. Backing fire with intermittent torching and short uphill runs was reported.

LIMESTONE PEAK, Flathead National Forest. A Fire Use Management Team (Cook) is assigned. This fire will be managed in conjunction with the Kelly Point fire using a confine suppression strategy. This fire, located in the Bob Marshall Wilderness, is 41 miles southeast of Bigfork, MT in timber, shrub and grass. Administrative cabin sites remain threatened. Backing fire was reported.

LONG BLACK COMPLEX, Clearwater National Forest. A Type 2 Incident Management Team (Carlson) is assigned. This incident is 38 miles northeast of Pierce, ID in timber. Steep terrain and limited access continue to hamper containment efforts. Interior single tree torching, smoldering and backing fire continue.

FROG POND, Beaverhead/Deerlodge National Forest. This fire is 25 miles southwest of Phillipsburg, MT in timber. No new information was reported. This will be the last report unless new information is received.

ALASKA AREA INCIDENTS / LARGE FIRES:

NULATO #3, Alaska Fire Service, Galena Zone. A Type 2 Incident Management Team (Jandt) is assigned. This fire is four miles northwest of Nulato, AK in black spruce and tundra. Intermittent torching and short uphill runs were reported. Burn out operations was successful.

MISSION CREEK, Alaska Fire Service, Upper Yukon Zone. This fire started on Alaska Native Claims Settlement Act land nine miles west of Eagle, AK in black spruce and tundra. Short runs and backing fire was reported.

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Structures along the Taylor Highway near Liberty and Dome Creeks remained potentially threatened. Upslope runs with 50-foot flame lengths and backing fire and were observed.

GRAYLING CREEK, Anchorage Field Office, Bureau of Land Management. This fire is 15 miles northwest of Anvik, AK in timber. Native allotments, high timber values and Anvik River fisheries are threatened. Structure protection is in place for residences along the Anvik River. Smoky conditions are hampering aviation operations. Extreme fire behavior with crowning and spotting was observed.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

CADAGAN COMPLEX, Salmon-Challis National Forest. Type 2 Incident Management Team (Brunner) is assigned. This complex, comprised of the Hale Gulch and Bear Basin fires, is 15 miles west of North Fork, ID in Douglas fir and heavy dead and downed fuels. Private residences and commercial property remain threatened. Difficult access, rolling materials and steep terrain are hampering containment efforts. Precipitation, cooler temperatures and higher humidity temporarily moderated fire activity. Isolated torching, smoldering and creeping were reported.

RGF- Rio Grande National Forest

OUTLOOK:

Weather Discussion: The upper ridge over the West will begin to weaken today with thunderstorm activity starting to diminish in aerial coverage over the Northwest and Great Basin. Isolated mixed wet and dry thunderstorms remain in the forecast for northern Washington and the extreme northern Idaho panhandle, as well as wet thunderstorms forecast elsewhere. Thunderstorms will continue to be wet across the Southwest. The upper level high pressure ridge over Alaska will hold strong for dry weather and record temperatures.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northern California Sunny, except low clouds and fog in coastal areas.	60s coast, 80s higher terrain, and 90s to 105 interior valleys.	40% or more coastal areas and 12 to 25% inland, except 7 to 15% east of the Cascade-Sierra crest.	Southwest to northwest 5 to 10 mph with gusts to 22 mph coastal areas and east of the Cascade-Sierra crest. Southeast to southwest 3 to 7 mph with gusts to 17 mph elsewhere.
Southern California Morning low clouds and fog coastal areas, otherwise mostly sunny in the morning becoming partly cloudy in the afternoon with scattered showers and thunderstorms over the Southern California mountains and deserts and isolated showers and thunderstorms over the Sierra.	80 to 95 mountains. 90 to 105 valleys. 95 to 105 upper deserts. 95 to 105 lower deserts.	10 to 30% central California and 20 to 40% southern California.	Southeast to southwest 5 to 15 mph.
Western Great Basin Sunny to partly cloudy skies in the northwest. Other areas, isolated to scattered showers and thunderstorms.	North valleys: 86 to 103. South valleys: 90 to 97. Mountains: 72 to 90.	North valleys: 7 to 20%. South valleys: 25 to 35%. Mountains: 15 to 45%.	North: southwest to northwest at 5 to 10 mph with gusts to 25 mph. South: north to northeast 6 to 12 mph with gusts to 20 mph.
Alaska Sunny.	70s and 80s.	25 to 35%.	South to southwest 10 to 15 mph.
Northern Rockies An upper level trough will slowly push southward from Canada bringing cooler temperatures and a chance of isolated thunderstorms along the divide and over the northwest portion of the area.	West of divide: 75 to 85. East of divide: 80 to 90. North Dakota: 80 to 85.	West of divide: 20 to 30%. East of divide: 30 to 40%. North Dakota: 35 to 45%.	West of divide: west 5 to 10 mph with some higher gusts possible. East of divide: northwest 5 to 10 mph. North Dakota: west to southwest 5 to 10 mph.
