

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, SEPTEMBER 1, 2005 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 4**

CURRENT SITUATION:

Initial attack activity was light nationally with 92 fires reported. Two new large fires were reported, one each in the Rocky Mountain and Northern Rockies Areas. Four large fires were contained, one each in the Northern Rockies, Rocky Mountain, Southern and Western Great Basin Areas. Very high to extreme fire indices were reported in California, Idaho, Montana, Nebraska, Nevada, Oregon, South Dakota, Utah, Washington and Wyoming.

A Presidential Disaster Declaration was issued on 8/27 for Hurricane Katrina in Mississippi, Alabama and Louisiana. An Area Command Team (Williams-Rhodes) is deployed to the Regional Response Coordination Center in Atlanta, GA. for Hurricane Katrina Support. Numerous resources are being mobilized as part of the relief effort. In recognition of current and predicted support levels to Hurricane Katrina, the National Preparedness Level has been elevated from PL-3 to PL-4.

SOUTHERN AREA INCIDENTS / LARGE FIRES:

HURRICANE KATRINA SUPPORT, Federal Emergency Management Agency. Emergency Support Function #4 is staffed at the Regional Response Coordination Centers in Atlanta, GA and Denton, TX. Three Type 1 Incident Management Teams (Custer, Quesinberry and Pincha-Tulley) are assigned. Custer's Team is working to establish a base camp in Port Allen, LA. Quesinberry's Team is assigned to a logistics staging area in Meridian, MS. Pincha-Tulley's Team will establish and manage a base camp at Stennis Space Center in MS. Two additional Type 1 Incident Management Teams (Gelobter and Cable) have been ordered. A Type 2 Incident Management Team (Lineback) is providing mobilization center support at Pineville, LA. A Planning Team is in place at the Long Term Recovery Center in Orlando, FL.

Five Logistics Management Teams have been mobilized; two at Meridian, MS, and one each at Maxwell Air Force Base, Montgomery, AL, Barksdale Air Force Base, LA and Beauregard, LA. A Florida State All Risk Incident Management Team (Hill) has been assigned to Biloxi, MS. The Team is providing logistical support for Florida Urban Search and Rescue teams. A Florida State Incident Management Team (Jones) has established a Logistics Staging Area at Stennis Space Center in MS. The Team is helping with distribution of relief supplies throughout southern Mississippi. A National Park Service All Risk Team has been ordered for Jean Lafitte National Historical Park and Preserve in New Orleans.

OUF - Ouachita National Forest

NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:

SEEPAY #2, Flathead Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Cowin) is assigned. This fire is two miles southwest of Perma, MT in timber. A microwave communications site, structures and cultural sites remain threatened. A structure protection plan is being developed. Torching with short range spotting was reported.

SIGNAL ROCK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. The fire is 17 miles southwest of Philipsburg, MT in timber and is burning on both the Bitterroot and Beaverhead/Deerlodge National Forests. Structures remain threatened. Isolated torching, uphill runs, creeping and backing fire were observed.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the El Capitan, Wapiti, Beaverjack, Reynolds Lake and numerous other fires, is 26 miles southwest of Hamilton, MT in timber. This complex, burning on both the Salmon-Challis and Bitterroot National Forests, is being managed to accomplish resource objectives. A historic ranger station, lookout, and campground remain threatened. Structure protection remains in place. Magruder road will reopen today. Creeping to active surface fire with torching was reported.

RED RIVER COMPLEX, Nez Perce National Forest. A Fire Use Management Team (Weldon) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Burnt, Center and eight other fires is 23 miles southeast of Elk City, ID in timber. The complex is being managed to accomplish resource objectives. Magruder road will reopen with pilot car escort through the fire area. Occasional torching was reported.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain, numerous snags and limited access continue to hamper containment efforts. Smoldering was observed. The Long Creek fire is contained but will continue to be monitored by aircraft.

HAZARD LAKE, Lewis and Clark National Forest. A Fire Use Management Team (Kamrud) is assigned. This lightning-caused Wildland Fire Use (WFU) incident is located 33 miles west of Choteau, MT in timber. This fire is being managed to accomplish resource objectives. Potential threat to private land and a cabin exists. Structure protection is in place. Creeping, smoldering and occasional torching were reported. This will be the last narrative report unless significant activity occurs.

ROCKIN, Bitterroot National Forest. This fire is 10 miles northwest of Darby, MT in timber. Burning in heavy fuels and ground fire was reported. No further information was received.

ROCKY MOUNTAIN INCIDENTS / LARGE FIRES:

WOLVERINE, Routt National Forest. This lightning caused Wildland Fire Use (WFU) incident is 20 miles northeast of Steamboat Springs, CO in timber. This fire is being managed to accomplish resource objectives. Some trails in the Mount Zirkel Wilderness Area remain closed. Torching, spotting and running fire behavior were reported. This will be the last narrative report unless significant activity occurs.

BLOWOUT, Western Slope Center, Grand Junction, Bureau of Land Management. This fire is located five miles south of Palisade, CO. Residences, structures, cultural resources and a watershed are threatened. Steep terrain and limited access are hampering containment efforts. Extreme fire behavior with torching and crowning occurred.

EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

PATTERSON, Salmon-Challis National Forest. This fire is two miles north of Patterson, ID in timber. Creeping, smoldering and torching were observed. No further information was received.

NORTH NEOLA, Uintah and Ouray Agency, Bureau of Indian Affairs. This fire is two miles north of Neola, UT in timber. Minimal fire activity was reported. No further information was received.

FRANK CHURCH, Payette National Forest. A Wildland Fire Use Management Team (Hahnenberg) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root Creek, West Fork/Joe, Missouri Ridge and several other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. Commercial property, residences and historical structures remain threatened. Structure protection is in place. Fire behavior was smoldering and creeping.

OUTLOOK:

Weather Discussion: Warming and drying conditions will move over much of the West as a high pressure ridge builds aloft. Afternoon wet thunderstorms are possible over the higher elevations of Colorado and New Mexico.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northern Rockies A ridge of high pressure will bring warmer and drier conditions. No moisture is expected.	West of Divide to 75-85. East of Divide to 78-87. North Dakota to 70s.	West of Divide 20 to 27%. East of Divide 20 to 28%. North Dakota 30 to 45%.	West of Divide: West 5 to 15 mph. East of Divide: Variable 5 to 10 mph. North Dakota: Northwest 10 to 20 mph.
Northern California Sunny with coastal low clouds and fog.	90s to 102 in warmest inland valleys and 70s to near 90 higher elevations inland.	7 to 17% inland.	Morning: North-East 3 to 10 mph with gusts 25 over exposed ridges from Cascade-Sierra crest west. Local a.m. gusts 40 mph down the Feather River Canyon. Afternoon: Southeast to southwest 4 to 8 mph with gusts 17 to 22 mph.
Southern California Morning low clouds and fog southern California coastal basin, otherwise mostly sunny.	80 to 95 mountains. 85 to 95 valleys. 95 to 100 upper deserts. 105 to 112 lower deserts.	5 to 15% except 25 to 40% coastal basins.	Southeast to southwest 5 to 15 mph.
Eastern Great Basin Mostly sunny area-wide. Isolated afternoon mountain thunderstorms over eastern and southern Utah.	Idaho, Bridger-Teton: 65 to 72 mountains, 72 to 88 valleys. Northern Utah: 67 to 79 mountains, 79 to 89 valleys. Southern Utah, Arizona Strip: 69 to 85 mountains, 85 to 99 valleys except 100 to 109 Lake Mead area.	Idaho, Bridger-Teton: 20 to 28% mountains, 13 to 20% valleys. Northern Utah: 18 to 26% mountains, 15 to 20% valleys. Southern Utah, Arizona Strip: 18 to 28% mountains, 10 to 20% valleys.	Idaho, Bridger-Teton: Upslope/upvalley 3 to 5 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, AZ Strip: Upslope/upvalley 5 to 10 mph.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Rocky Mountain Area Isolated thunderstorms over central and southern Colorado otherwise dry.	80s at lower elevations, with 70s in the mountains.	RH below 20% across western Colorado, central and northeast Wyoming. Higher values elsewhere.	North to northwest winds of 10 to 20 mph across northeast South Dakota. Southeast winds 10 to 20 mph across eastern Colorado and western Kansas. Variable 5 to 15 mph elsewhere.
Northwest Area Mostly sunny	Mostly upper 70s and 80s except locally into the low 90s SW Interior Oregon.	West of Cascades: Mostly 35 to 50% except 20 to 30% southwest interior Oregon. Eastside: Generally 15 to 25% north and 10 to 20% south.	Northwest to north 5 to 15 mph west of Cascades and northeast 5 to 10 mph eastside.
Western Great Basin Sunny skies.	North valleys: 80 to 99. South valleys: 84 to 104. Mountains: 63 to 84.	North valleys: 5 to 15%. South valleys: 8 to 18%. Mountains: 12 to 22%.	Southwest 5 to 10 mph with afternoon gusts 15 to 20 mph.

http://www.nifc.gov/sixminutes/dsp_sixminutes.php

SAFENET

SAFENET is a form, and process, that provides a method for reporting unsafe situations on, or off, the fireline. The information provided on the form will help collect important, safety-related data to determine long-term trends and problem areas. A SAFENET may be filled out at any time to report a valid concern about unsafe situations in fire operations, as well as document corrective action.

- Discuss the methods for filing a SAFENET.
 - Electronically (Access site through NIFC web site)
 - By hardcopy (self-addressed, stamped forms available through the cache system).
 - By phone (1-800-670-3938)

- Discuss advantages of filing a SAFENET through your supervisor versus sending it yourself.
 - Increase the chances of finding an immediate solution.
 - Keeps supervisor "in the loop."

- Discuss using SAFENET in situations other than fire.
 - Prescribed fire
 - All-risk
 - Training

- Where does a SAFENET go, and what response can you expect?
 - SAFENETs are received and stored in a database in Boise. After a SAFENET is received, the names are removed. It is then given a document number and posted to the web.
 - Every new SAFENET is then forwarded to the affected agencies designated list of contacts, which usually includes the National or Regional Safety Officer.
 - It is each agency's responsibility to insure that corrective actions are taken.

- Corrective actions can be filed by anyone at any time. They are automatically attached to the individual SAFENET on the database.

- Discuss using SAFENET to monitor safety issues other firefighters may be having.
