

**INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, APRIL 25, 2006 – 0800 MDT
NATIONAL PREPAREDNESS LEVEL 2**

CURRENT SITUATION:

Initial attack activity was moderate nationally with 269 new fires reported. Three new large fires were reported, one each in the Southern, Southwest and Eastern Areas. One large fire was contained in the Southern Area. Very high to extreme fire indices were reported in Arizona, New Mexico, Oklahoma, Texas, Colorado, and Kansas.

SOUTHERN AREA INCIDENTS/LARGE FIRES:

WEST TEXAS IA, Texas Forest Service. A Texas State Type 2 Team (Rogers) is assigned in Midland, TX. The Team is assisting local jurisdictions with managing initial and extended attack fires within the 140 million acre fire management response area. No new fires were reported within the management area. Acres, structure losses and costs represent cumulative fire activity for the response area.

WILDCAT, Oklahoma Division of Forestry. This fire is 12 miles southwest of Clayton, OK in hardwood litter. Moderate rates of spread with flame lengths up to six feet were reported.

GARCON-EASTER, Florida Division of Forestry. This fire is five miles south of Bagdad, FL in grass. Minimal fire behavior was observed.

HONEY CREEK, Okmulgee Field Office, Bureau of Indian Affairs. This fire is one mile northeast of Wilson, OK in grass. No new information was reported.

FL SPORTS PARK, Florida Division of Forestry. This fire is near Naples, FL in southern rough. Spotting within the perimeter was reported.

MIR – Merritt Island National Wildlife Refuge

SOUTHWEST AREA INCIDENTS/LARGE FIRES:

SAND, Apache-Sitgreaves National Forest. This fire is 30 miles south of Winslow, AZ in grass and understory. Rough, steep, rocky terrain and inaccessibility are hindering containment efforts. Minimal fire activity was reported.

GORDON, New Mexico State Forestry, Las Vegas District. This fire is 23 miles west of Nara Visa, NM in grass. A residence is threatened. Running fire behavior was observed.

OUTLOOK:

Weather Discussion: A large low pressure system will progress from the central/southern Plains into the Mid-Atlantic states today with significant cooling to follow. Windy conditions are expected behind the cold front over portions of the Midwest and the central/southern Plains; however, scattered showers and cooler temperatures should limit fire potential.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Southern Area Central-south Florida: Partly cloudy.	Upper 80s.	Mid-upper 30%s.	Southerly to 12 mph.
Southwest Area Mostly sunny and dry across Arizona and the western 1/2 of New Mexico. Partly cloudy and cooler central and eastern New Mexico into west Texas.	Low 70s to upper 80s lower elevations and 50s to low 70s higher elevations.	5 to 15%, except 20 to 40% from the New Mexico central mountain chain eastward into west Texas.	South winds 5 to 15 mph from the New Mexico central mountain chain westward through Arizona. Northeast to southeast wind 10 to 20 mph and gusty from the New Mexico central mountain chain eastward into west Texas.
Eastern Area Areas of showers and thunderstorms across southern Missouri, eastern Iowa, Illinois, Indiana, the far southeastern Great Lakes, and the southern Mid-Atlantic states. Scattered showers over the Northeast. Fair elsewhere.	50 to 60 across much of the Eastern Area.	19 to 29% across the western and northern Great Lakes. 50 to 60% across southern Missouri, Illinois, and Indiana as well as the western Mid-Atlantic states. 40 to 50% elsewhere.	Northeast to north winds at 10 to 20 mph over Missouri, southeast Iowa, Illinois, Indiana, and Ohio. Southwest to west at 10 to 20 mph becoming northwest at 15 to 25 mph over the Northeast and northern Mid-Atlantic states. West to northwest winds at 10 to 20 mph over the northern Great Lakes.
Southern California Area Partly to mostly cloudy with scattered showers central California.	45 to 60 mountains. 60 to 70 valleys. 60 to 70 upper deserts. 70 to 80 lower deserts.	20 to 40% deserts, otherwise 50 to 70%.	Southeast to southwest 10 to 20 mph with higher gusts.
Rocky Mountain Area Partly cloudy. Isolated snow showers in the northern Colorado mountains and isolated showers in Kansas and Nebraska.	40s, except 50s in southern and western portions of Colorado.	12 to 22% lower elevations of southwest Colorado. Greater than 25% elsewhere.	Variable 5 to 15 mph, except north 10 to 20 mph in Kansas.
