Incident Management Situation Report
Saturday, June 20, 2009 – 0530 MDT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Light (107 new fires)
 New large fires: 1 (*)
 Large fires contained: 3
 Uncontained large fires: 5
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 0

** Uncontained large fires do not include confine/contain incidents. **

Southwest Area (PL 3)

New fires: 4
 New large fires: 1
 Uncontained large fires: 3

Diamond, Gila NF. Transfer of command from IMT 2 (McBratney) back to the local area occurred yesterday. Confine / contain management strategy. Forty-five miles northeast of Silver City, NM. Grass. Moderate fire activity. Last report unless significant activity occurs.

Pasco, Socorro District, New Mexico State Forestry. Forty-two miles south of Animas, NM. Brush and grass. No new information.

Elk Horn, Tucson District, Arizona State Forestry. Twenty-six miles southwest of Three Points, AZ. Brush and grass. Minimal fire activity.

Meason, Gila NF. Confine / contain management strategy. Twenty-six miles north of Mimbres, NM. Hardwood litter. Backing fire. Last report unless significant activity occurs.

Pioneer, Tonto NF. Eight miles south of Globe, AZ. Chaparral. No new information.

FLS – Florida DOF

Predictive Services Discussion: Scattered showers and thunderstorms will spread from the Great Basin into the Rocky Mountains today associated with an upper level storm system. Windy conditions will develop across the southern Great Basin into western Arizona. Scattered wet thunderstorms will develop in the Southwest, mainly in west Texas. Alaska will see continued wet thunderstorms across the interior with showers and cooler conditions moving into the southwest.

Lookouts

Lookouts are often better situated to notice the cumulative changes of fire behavior.

- Fire Order #8 says, “Establish lookouts in potentially hazardous situations.” Should you utilize lookouts at all times?
 - Lookouts should be posted at all times.

- What are you looking for when you are selecting a lookout location?
 - Choose a good vantage point, preferably with a good overview of the entire area where firefighters are located, including escape routes and safety zones.
 - Utilize aircraft if they are available, but only as a complement to established lookouts on the ground. Never rely exclusively on aircraft as your lookout.

- What are the desired qualities, capabilities, knowledge, and responsibilities of a lookout person?
 - Experienced firefighter.
 - Solid knowledge of fire behavior and ability to recognize and monitor other environmental hazards.
 - Good communicator--keeps the crew advised of fire behavior changes, tracks weather trends and relays the information, informs crew of work progress and updates from the latest strategy and tactical briefings.
 - Monitors and accounts for all individuals within his/her assigned area at all times, and will notify others if breaks are needed.

- What is the necessary equipment for a lookout?
 - PPE, radio with extra batteries, compass, binoculars, belt weather kit, IAP, map, food, and water.
