

**National Interagency Coordination Center
Incident Management Situation Report
Sunday, November 14, 2010 – 0800 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Light (24 new fires)
 New large fires: 1 (*)
 Large fires contained: 0
 Uncontained large fires: ** 6
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 0

Nationally, there are 9 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

Southern Area (PL 3)

New fires: 8
 New large fires: 1
 Uncontained large fires: 5

* **Lewis Clark**, Kentucky DOF. Started on private land 12 miles southeast of Hyden, KY. Timber. Running fire with occasional torching.

Arabia Bay, Georgia Forestry Commission. Six miles north of Homerville, GA. Hardwood litter. No new information.

Woodson Chapel, Land Between the Lakes National Recreation Area. Eleven miles southeast of Grand Rivers, KY. Hardwood litter. Road closures in effect. Reduction in acreage due to more accurate mapping. No further information received.

Bob's Rock, Kentucky DOF. Started on private lands two miles east of Cumberland, KY. Hardwood litter. Running fire with torching.

Coy Jackson, Land Between the Lakes National Recreation Area. Ten miles southeast of Canton, KY. Hardwood litter. Interior burning.

Predictive Services Discussion: Offshore winds will continue today along the southern California coastal mountains and valleys with warm temperatures and low relative humidity. Relative humidity will begin to improve across the eastern U.S. with scattered precipitation extending from the eastern Great Lakes to the Gulf Coast.

Today's discussion is from the
Aviation Category.

AIRCRAFT AND PILOT CARDING

Every aircraft and pilot used in support of a Federal wildland fire mission must have a current Aircraft and pilot Card or letter of authorization. The card must be held in the aircraft or with the pilot, and give specific authorization to do the mission being requested.

● These missions could be all, one, or any number of, missions as follows:

- Air attack (Level I, Level II, Level III)
- Reconnaissance
- Fire surveillance
- Water bucket
- Helitorch
- Cargo
- Longline

● Every pilot who flies a properly carded aircraft must possess a current Interagency Airplane or Helicopter Pilot Qualification Card that gives specific authorization to fly the type of mission being requested and for the specific type of aircraft being used for the mission. These missions could be all, or any number of, missions as follows:

- Air attack
- Reconnaissance
- Fire surveillance
- Low-level
- Paracargo
- Mountain/Remote airstrips
- Smokejumper
- Longline

● Before the aircraft and pilot can be used for a specific mission, the aircraft must be specifically listed on a valid and current contract for the type of work being performed and a copy of the contract must be onboard the aircraft.

● Each user of the aircraft and pilot has the authorization to physically inspect the Aircraft Data Card, the Interagency Airplane or Helicopter Pilot Qualification Card, and the contract. If any one of these three are not available for inspection, the mission must be cancelled or at least postponed until the authorizations of the aircraft, pilot, or contract can be determined.

● Pilots have very specific and closely monitored duty time and flight time limitations that users must understand and adhere to:

- 14-hour duty day
- 8 hours flight time per day
- 2 days off in 14 calendar days
- 36 hours cumulative flight hours in any 6 consecutive days
