

**National Interagency Coordination Center  
Incident Management Situation Report  
Saturday, June 23, 2012 – 0530 MT  
National Preparedness Level 3**

**National Fire Activity**

Initial attack activity: Light (117 new fires)  
 New large fires: 7 (\*)  
 Large fires contained: 1  
 Uncontained large fires: \*\* 16  
 Area Command Teams committed: 0  
 NIMOs committed: 1  
 Type 1 IMTs committed: 3  
 Type 2 IMTs committed: 5

\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

**Rocky Mountain Area (PL 4)**

New fires: 12  
 New large fires: 1  
 Uncontained large fires: 4  
 NIMOs committed: 1  
 Type 1 IMTs committed: 2  
 Type 2 IMTs committed: 2

**High Park**, Larimer County. IMT 1 (Hahnenberg and Lund). Fifteen miles west of Fort Collins, CO. Timber, brush and grass. Medium duration crown runs with long-range spotting. Subdivisions, communication tower and recreation sites threatened. Evacuations in effect.

**Russels Camp**, Converse County. IMT 2 (Pechota). Thirty miles south of Glenrock, WY. Timber and brush. Moderate fire activity with isolated torching and short-range spotting. Structures threatened.

**Springer**, Pike and San Isabel NF. IMT 2 (Richardson). Three miles southwest of Lake George, CO. Timber. Minimal fire activity. Community of Lake George threatened. Evacuations in effect.

**Little Sand**, San Juan NF. NIMO (Gage). Thirteen miles northwest of Pagosa Springs, CO. Timber. Torching and short-range spotting. Structures threatened. Evacuations in effect.

\* **Weber**, San Juan District, BLM. Six miles south of Mancos, CO. Timber. Crown fire with spotting.

### Alaska Area (PL 2)

New fires: 6  
New large fires: 5  
Uncontained large fires: 1

**Allakaket**, Tanana Zone, BLM. Two miles south of Allakaket, AK. Spruce and tundra. Creeping with isolated group tree torching.

\* **Kucher Creek**, Galena Zone, BLM. Thirty miles north of Ivotuk, AK. Brush and tundra. Active backing fire. Last report unless significant activity occurs.

**Nowitna River**, Tanana Zone, BLM. Previously reported incident. Started on Fish and Wildlife Service land eighty-six miles southeast of Galena, AK. Black spruce and tundra. Single tree torching. Last report unless significant activity occurs.

\* **Knifeblade Ridge**, Galena Zone, BLM. Forty miles northeast of Ivotuk, AK. Brush and tundra. Active backing fire. Last report unless significant activity occurs.

**Melozi**, Tanana Zone, BLM. Previously reported incident. Thirty-five miles south of Hughes, AK. Grass. No further information received. Last report unless significant activity occurs.

\* **Delta Creek #2**, Alaska Fire Service, Military Zone. Seventeen miles southwest of Delta Junction, AK. Brush and grass. Active fire behavior. Last report unless significant activity occurs.

\* **Kiglaik River**, Galena Zone, BLM. Two hundred and seventy miles north of Galena, AK. Tundra and grass. Active fire behavior. Last report unless significant activity occurs.

\* **Kigalik River 2**, Galena Zone, BLM. Two hundred and seventy miles north of Galena, AK. Tundra and grass. Backing fire. Last report unless significant activity occurs.

**Predictive Services Discussion:** Strong winds and low relative humidity will produce critical fire weather conditions across much of the Great Basin, parts of the Southwest, and parts of the central Rockies. Isolated to widely scattered thunderstorms will also contribute to critical conditions across the Southwest and around the Four Corners region. Hot and dry weather will continue over the Southwest, while showers and a few thunderstorms follow a cold front entering the northern Great Basin and northern Rockies. Warm and humid conditions will continue over the Plains, while cooler weather pushes into the East. Scattered heavy rain will continue over Florida. In Alaska, warm conditions will continue over the East with isolated thunderstorms along the Alaska Range.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

**Today's discussion is from the Motorized Operations Category.**

### **ATV - How to Properly Ride and Operate**

Riding an ATV correctly allows the operator to operate and control the machine more easily, and react more quickly to changes in terrain and environment. Proper riding posture includes:

- ✓ head and eyes up, looking forward;
  - ✓ shoulders relaxed, with elbows bent slightly;
  - ✓ hands on the handlebars; knees in toward the gas tank;
  - ✓ feet on the footrests, toes pointing straight ahead;
  - ✓ back should be straight but not tense
- 
- To turn an ATV, keep most of your body weight on the outside foot peg and lean your upper body into the turn. Never lower your foot to the ground for stability—could cause ejection if foot is caught by tire.
  - When climbing hills, shift your body weight forward to keep the front wheel(s) on the ground.
  - If stopped while going uphill, do not apply the rear brake only. Apply equal pressure to both front and rear brakes, but never only to the rear brake. Get off the machine and turn it around to proceed down the hill.
  - When going down hill, keep the engine running and in low gear, apply both front and rear brakes with even pressure and avoid sharp turns. Slide body forward on seat towards gas tank, keeping body weight back by leaning backwards. This will help keep weight on back wheels and lessen potential to flip ATV over forward. Avoid "side hill" situations. When they are unavoidable, lean into the hill.
  - When carrying a load up hill, if possible, place load on the front of the ATV to help keep the front end of the ATV from flipping over. If going down hill, place load on back of ATV to help keep the ATV from flipping over forward. If loads cannot be adjusted, (drip torch mounted on back), try to equalize the load on front and back if possible.
  - Only operate an ATV under the conditions for which you have been trained, qualified for and are experienced in riding.
  - As a last resort to avoid an impending collision, roll off the vehicle and kick yourself free of it.
