

**National Interagency Coordination Center
Incident Management Situation Report
Monday, July 23, 2012 – 0530 MT
National Preparedness Level 3**

National Fire Activity

| | |
|-------------------------------|--------------------------|
| Initial attack activity: | Moderate (234 new fires) |
| New large fires: | 11 (*) |
| Large fires contained: | 4 |
| Uncontained large fires: ** | 32 |
| Area Command Teams committed: | 0 |
| NIMOs committed: | 0 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 5 |

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Four MAFFS C-130 aircraft and support personnel from the 302nd Airlift Wing, Colorado Springs (US Air Force Reserve) and the 146th Airlift Wing, Channel Islands (California Air National Guard), are supporting wildland fire suppression operations out of Boise, ID.

Rocky Mountain Area (PL 4)

| | |
|--------------------------|----|
| New fires: | 63 |
| New large fires: | 4 |
| Uncontained large fires: | 15 |
| Type 1 IMTs committed: | 1 |
| Type 2 IMTs committed: | 4 |

Myrtle, Black Hills NF. IMT 1 (Hahnenberg). One mile east of Pringle, SD. Timber and hardwood litter. Active fire behavior with group tree torching. Structures threatened. Road closures and evacuations in effect.

* **Seminole**, Rawlins Field Office, BLM. IMT 2 (Heintz). Thirty miles northeast of Rawlins, WY. Pinyon pine, juniper and brush. Active fire behavior with spotting and crowning. Structures threatened. Evacuations in effect.

* **Air Park**, Southern Ute Agency, BIA. Four miles south of Durango, CO. Juniper and brush. Crown fire with spotting. Numerous structures threatened. Evacuations in effect.

Long Horn Complex (3 fires), Rosebud Agency, BIA. IMT 2 (Lowe). Four miles northwest of St. Francis, SD. Timber, brush and grass. Active fire behavior with group tree torching. Structures threatened. Evacuations in effect.

Fairfield Creek, Nebraska DOF. IMT 2 (Pechota). Two miles south of Norden, NE. Timber and grass. Active fire behavior. Structures threatened. Road closures in effect.

Powell Complex (2 fires), White River Field Office, BLM. IMT 2 (Richardson). Complex includes previously reported Little Duck fire. Nine miles northwest of Meeker, CO. Juniper, sagebrush and grass. Creeping and smoldering.

Brush Creek, White River Field Office, BLM. Thirty miles south of Rangely, CO. Timber. Creeping and smoldering. Structures threatened. Evacuations in effect.

Mossagate, Nebraska NF. Ten miles northwest of Edgemont, SD. Sagebrush and grass. Smoldering.

* **Long Mesa**, Grand Junction Field Office, BLM. Twenty-one miles west of Grand Junction, CO. Juniper, sagebrush and grass. Active fire behavior with torching and short-range spotting.

Conway, Little Snake Field Office, BLM. Fifteen miles southeast of Browns Park, CO. Juniper, sagebrush and grass. Interior torching.

* **Bacon Creek #2**, Campbell County. Fifteen miles northeast of Wright, WY. Juniper, sagebrush and grass. Active fire behavior.

Sawmill Canyon, Wyoming State Forestry. Ten miles northwest of Hartville, WY. Timber. No further information received. Last report unless significant activity occurs.

Predictive Services Discussion: Hot weather will continue across much of the West and central U.S. as high pressure dominates. Scattered showers and thunderstorms will develop over the Rockies, eastern Great Basin and the Southwest. A cold front will move through the Northwest and northern Rockies, bringing slightly cooler conditions. Scattered thunderstorms will develop along the Gulf Coast, and over the Great Lakes and New England.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.html>

Today's discussion is from the
LCES (Lookouts, Communication, Escape Routes,
and Safety Zones) Category.

ESCAPE ROUTES (part 3)

A primary objective of every operational fire plan is to keep firefighters out of entrapment situations. However, firefighters must always be prepared to escape quickly to a safety zone or deployment area. Consider the following during discussion of escape from possible entrapment.

- Have a plan that includes trigger points!
 - **Trigger Point:** An observable event that triggers a pre-determined action.
Example: Temperature reaches 98 Degrees and RH goes into single digits the crew will follow the established escape route to the safety zone.
- Reassess escape routes throughout the operational period.
 - Has access to escape routes become more difficult as the day progresses?
 - Do you have more than one escape route?
 - Are all escape routes clearly marked?
 - Are all firefighters familiar with the escape routes?
- During an escape time will be short. Describe considerations you might make in this situation such as:
 - Maintain control of all critical equipment such as PPE and radio... jettison gear that will not aid in your escape!
 - Maintain contact with all other crewmembers!
- Describe your vision of a good safety zone. How is that different from a deployment area?
- You should always know the location of your escape routes leading to and safety zones and deployment areas.
