

INCIDENT MANAGEMENT SITUATION REPORT
Sunday 8/01/93 0900 MDT
Preparedness Level II

ALASKA: Initial attack and large fire activity.

POLE, Southwest Area Forestry, Yukon Delta NWR - 11,550 acres. Type II Team, (Quillin) committed. Containment expected today, 8/1.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: No significant activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Initial attack and large fire activity.

QUINN CANYON, Humboldt NF - 1,900 acres. High temperatures and flare-ups are hampering suppression efforts. Containment expected today, 8/1.

MEADOW, Las Vegas District, BLM - 21,600 acres. Type II Team (McAtee) committed. Contained.

ARGENTA, Battle Mountain District, BLM - 1,200 acres. Contained.

SOUTHWEST: Initial attack and large fire activity.

JACKSON, Safford District, BLM - 1,100 acres. Poor access, high winds and heavy fuels are causing control problems. Containment expected today, 8/1.

HINTON, Safford District, BLM - 120 acres. Contained.

BUG, Arizona State - 450 acres. Type II Team (Hollenshead) committed. Fire is threatening residences, a county park and a communications site. Steep rocky terrain and hot and dry weather conditions are posing control problems. No estimate of containment.

ROCKY MOUNTAIN: Initial attack activity.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Tri-County Flood Team is coordinating emergency actions relating to flooding within the Alexander, Jackson and Union Counties in Illinois.

SOUTHERN: Initial attack and large fire activity.

JUNIPER, Ocala NF - 900 acres. Erratic winds, high temperatures and low relative humidities are hampering control efforts. Containment expected 8/5.

Texas State has a 4,000 acre fire threatening the town of Graham. Spot fires are contributing to control problems. No estimate of containment.

ANALYSIS: Initial attack activity and large fire activity continued in the Southwest, Great Basin and the Southern Areas. The Southwest Area has not received much monsoon moisture yet, however, the relative humidity has increased.

PROGNOSIS: A RED FLAG WATCH is issued for hot weather and northeast breezes for northern California, which will contribute to increased initial attack activity. The west will continue to be mostly sunny and hot with scattered afternoon thunderstorms. Initial attack and large fire potential continues in the Southwest and Great Basin areas. Alaska will be partly cloudy with scattered showers. Partly cloudy with afternoon thundershowers in the Southern Area.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Monday 8/02/93 0530 MDT
Preparedness Level II

ALASKA: Initial attack and large fire activity.

POLE, Southwest Area Forestry, Yukon Delta NWR - 11,550 acres. Type II Team, (Quillin) committed. Containment was expected yesterday, 8/1.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack and large fire activity.

GRANITE, California Desert District, BLM - 350 acres. Contained.

RANCHO, California State - 1,100 acres. Control efforts on the fire are hampered by high temperatures, steep terrain and shifting winds. Current threat is to the Carmel River watershed. No estimate of containment.

NORTHERN ROCKIES: No significant activity.

EASTERN GREAT BASIN: No significant activity.

WESTERN GREAT BASIN: Large fire activity.

QUINN CANYON, Humbolt NF - 1,900 acres. Contained.

SOUTHWEST: Initial attack and large fire activity.

JACKSON, Safford District, BLM - 1,200 acres. Contained.

BUG, Arizona State - 2,300 acres. Type II Team (Hollenshead) committed. A county park, communication site and residences are currently threatened. Hot, dry weather conditions and steep rocky terrain are hampering suppression efforts. No estimate of containment.

EDWARDS, Tonto NF - 1,500 acres. Control problems include steep, inaccessible terrain and high winds. Current threats are to private land and structures. No estimate of containment.

ROCKY MOUNTAIN: Initial attack activity.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Tri-County Flood Team is coordinating emergency actions relating to flooding within the Alexander, Jackson and Union Counties in Illinois.

SOUTHERN: Initial attack and large fire activity.

JUNIPER, Ocala NF - 1,150 acres. The fire was less active due to increased relative humidities and lower winds. Containment expected 8/5.

MING BEND, Texas State - 4,000 acres. Contained.

ANALYSIS: Fire activity in the Southwest Area continued as the monsoonal front has not moved in to bring any relief. Initial attack activity increased in California due to record high temperatures. Colorado initial attack activity increased due to thunderstorms.

PROGNOSIS: Continued warm temperatures and scattered thunderstorms will dominate the Southwest, Great Basin and Rocky Mountain Areas. Initial attack activity will continue to escalate in all areas of the west and in the Southern Area due to the warm, drying conditions.

INCIDENT MANAGEMENT SITUATION REPORT
Tuesday 8/03/93 0530 MDT
Preparedness Level II

ALASKA: Initial attack and large fire activity.

POLE, Southwest Area Forestry, Yukon Delta NWR - 11,550 acres. Type II Team (Quillin) was demobilized yesterday, 8/2. No estimate of containment.

B248, Tanana Zone, Alaska State - 36,000 acres. High winds caused fire to spot across the pipeline corridor and haul road. The spot is estimated to be 250 acres. No estimate of containment.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: No significant activity.

CALIFORNIA SOUTH ZONE: Initial attack and large fire activity.

RANCHO, San Benito-Monterey RU, California State - 5,000 acres. Steep terrain, poor visibility from smoke, high temperatures and low relative humidities are hampering suppression efforts. The Carmel River watershed continues to be threatened. Containment expected today, 8/3.

BALD MOUNTAIN, Inyo NF - 350 acres. The fire burned over Bald Mountain Lookout with no reported structural damage. Current threats are to a recreation area and a private trout farm. Containment expected today, 8/3.

NORTHERN ROCKIES: No significant activity.

EASTERN GREAT BASIN: Initial attack and large fire activity.

BULLDOG, Cedar City District, BLM - 1,000 acres. Contained.

WESTERN GREAT BASIN: No significant activity. SOUTHWEST:

Initial attack and large fire activity.

JAVALINA, Safford District, BLM - 167 acres. Contained.

BUG, Arizona State - 5,676 acres. Type II Team (Hollenshead) committed. The fire continues to threaten a county park, communication site and residences. Hot, dry weather conditions coupled with steep rocky terrain are causing control problems. Containment expected today, 8/3.

EDWARDS, Tonto NF - 2,000 acres. Type II Team (Kahon) committed. High winds and steep inaccessible terrain continue to hinder suppression efforts. No estimate of containment.

ALDER, Tonto NF - 115 acres. Contained.

BLACK MOUNTAIN, Arizona State - 700 acres. Contained.

BONITA CREEK, Safford District, BLM - 160 acres. Contained.

ROCKY MOUNTAIN: Initial attack and large fire activity.

ROATCAP, Montrose District, BLM - 150 acres. Type II Team (Hart) committed. Steep terrain, high winds and inaccessibility are hampering control efforts. Current threat is to a coal mine powerplant and a cow camp. Containment expected today, 8/3.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Tri-County Flood Team is coordinating emergency actions relating to flooding within the Alexander, Jackson and Union Counties in Illinois.

SOUTHERN: Initial attack and large fire activity.

The State of North Carolina has a 958 acre fire burning in Brunswick County. The fire is burning near Highway 211 which has been closed due to smoke. No other information available.

JUNIPER, Ocala NF - 1,150 acres. The fire was less active due to increased relative humidities and lower winds. Containment expected 8/5.

ANALYSIS: Increased fire activity continued in Arizona, California and Colorado due to persisting hot, dry weather conditions and thunderstorm activity. Twelve Type I crews, 8 airtankers, 1 leadplane and 3 Type II helicopters have been mobilized to the Southwest, mainly in support of the fires on the Tonto NF.

PROGNOSIS: A RED FLAG WATCH has been issued for dry thunderstorms and low relative humidity for west-central Nevada, Lake Tahoe and Sierra east slopes. Potential exists for increasing initial and extended attack fires due to continued high temperatures and scattered thunderstorms in the Southwest, Great Basin, southern California and Rocky Mountain Areas.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Wednesday 8/04/93 0530 MDT
Preparedness Level II

ALASKA: Large fire activity.

POLE, Southwest Area Forestry, Yukon Delta NWR - 11,550 acres. No estimate of containment.

B248, Tanana Zone, Alaska State - 36,000 acres. Winds have dissipated and fire received some rain. No estimate of containment.

NORTHWEST: No significant activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack and large fire activity.

RANCHO, San Benito-Monterey RU, California State - 5,000 acres. Contained.

BALD MOUNTAIN, Inyo NF - 350 acres. Contained.

INYO COMPLEX, Inyo NF - 1,000 acres. Contained.

NORTHERN ROCKIES: No significant activity.

EASTERN GREAT BASIN: No significant activity.

WESTERN GREAT BASIN: Initial attack activity.

SOUTHWEST: Initial attack and large fire activity.

BUG, Arizona State - 5,676 acres. Type II Team (Hollenshead) committed. Contained.

EDWARDS, Tonto NF - 3,029 acres. Type II Team (Kahon) committed. Steep rugged terrain coupled with flashy fuels and heavy fuels at higher elevations are hampering suppression efforts. Containment expected today, 8/4.

ROCKY MOUNTAIN: Initial attack and large fire activity.

ROATCAP, Montrose District, BLM - 150 acres. Type II Team (Hart) Contained.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Tri-County Flood Team is coordinating emergency actions relating to flooding within the Alexander, Jackson and Union Counties in Illinois.

SOUTHERN: Initial attack and large fire activity.

SPOOKY TOO, North Carolina State - 800 acres. The fire is located between the small towns of Supply and Southport near Wilmington. State Highway 211 remains closed due to smoke. No estimate of containment.

JUNIPER, Ocala NF - 1,150 acres. Containment expected 8/5.

ANALYSIS: Activity continued in the Southwest Area, California, Colorado and the Great Basin due to persisting hot, dry weather conditions and thunderstorm activity.

PROGNOSIS: Potential continues for increasing initial and extended attack fires due to forecasted scattered thunderstorms coupled with high temperatures in the Southwest, Great Basin, California and Rocky Mountain Areas. Activity in Alaska will moderate due to cooler temperatures and increased clouds and rain. Initial attack activity will continue in the Southern Area, due to high temperatures, and drought conditions in several areas.

INCIDENT MANAGEMENT SITUATION REPORT
Thursday 8/05/93 0530 MDT
Preparedness Level II

ALASKA: Large fire activity.

POLE, Southwest Area Forestry, Yukon Delta NWR - 11,550 acres. No estimate of containment.

B248, Tanana Zone, Alaska State - 36,000 acres. Winds have dissipated and fire received some rain. No estimate of containment.

NORTHWEST: Initial attack and large fire activity.

THREE FINGERS, Vale District, BLM - 1,600 acres. Containment was expected yesterday, 8/4.

CALIFORNIA NORTH ZONE: No significant activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: No significant activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Initial attack and large fire activity.

KINGS RIVER, Winnemucca District, BLM - 400 acres. Poor access and erratic winds are causing control problems. No estimate of containment.

SOUTHWEST: Initial attack and large fire activity.

BEE, Phoenix District BLM - 150 acres. Contained.

EDWARDS, Tonto NF - 3,029 acres. Type II Team (Kahon) committed. Contained.

SPIDER, Arizona State - 500 acres. Contained.

TWEEDY, Arizona Strip District, BLM - 800 acres. Containment expected 8/5.

MIDDLEWELL, Arizona Strip District, BLM - 800 acres. Containment expected 8/5.

BIG WELL, Arizona State - 1,500 acres. Type II team (Moore) committed. The fire is very hard to contain due to shifting winds and rugged terrain. Several power poles caught on fire and a ranch house was being threatened. No estimate of containment.

NEW WATER, Truxton Canyon Agency, BIA - 600 acres. Contained.

ROCKY MOUNTAIN: Initial attack activity.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. River levels are expected to remain high for several days with little fluctuation for the next few days. Flood plain communities are on standby and awaiting developments.

SOUTHERN: Initial attack and large fire activity.

SPOOKY TOO, North Carolina State - 2,500 acres. High winds caused the fire to jump Highway 211. Residences were evacuated, however, none were destroyed. The fire is 90% contained with no estimate of full containment.

JUNIPER, Ocala NF - 1,150 acres. Containment expected 8/7.

ANALYSIS: Increased initial attack activity occurred in the Great Basin and Southwest Area. Four Type II helicopters were mobilized to Great Basin.

PROGNOSIS: Potential continues for initial and extended attack fires due to forecasted scattered thunderstorms coupled with high temperatures in the Southwest, Great Basin, Rocky Mountain Areas and southern California. Activity in Alaska will have areas of light rain with little or no thunderstorm activity. Initial attack activity will continue in the Southern Area, due to high temperatures, and drought conditions in several areas.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Friday 8/06/93 0530 MDT
Preparedness Level II

ALASKA: Large fire activity.

POLE, Southwest Area Forestry, Yukon Delta NWR - 11,550 acres. No estimate of containment.

B248, Tanana Zone, Alaska State - 36,000 acres. Winds have dissipated and fire received some rain. No estimate of containment.

NORTHWEST: Initial attack and large fire activity.

THREE FINGERS, Vale District, BLM - 2,560 acres. Contained.

CALIFORNIA NORTH ZONE: No significant activity.

BIG VALLEY, Lassen-Modoc RU, California State - 300 acres. No estimate of containment.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Initial attack and large fire activity.

KINGS RIVER, Winnemucca District, BLM - 100 acres. Contained.

WILLOW CREEK, Winnemucca District, BLM - 3,500 acres. No estimate of containment.

JUMBLED, Las Vegas District, BLM - 1,000 acres. No estimate of containment.

SOUTHWEST: Initial attack and large fire activity.

PHANTOM, Truxton Canyon Agency, BIA - 200 acres. Controlled.

PAKOON, Arizona Strip District, BLM - 1,000 acres. Containment expected 8/7.

TWEEDY, Arizona Strip District, BLM - 800 acres. Controlled.

MIDDLEWELL, Arizona Strip District, BLM - 800 acres. Controlled.

TRANSWESTERN, Roswell District, BLM - 200 acres. Contained.

BIG WELL, Arizona State - 3,000 acres. The fire received a considerable amount of rain and was turned over to the State on 8/5. Containment expected today, 8/6.

BELMONTE, Phoenix District, BLM - 150 acres. Containment expected today, 8/6.

NELLIE, Phoenix District, BLM - 150 acres. Containment expected today, 8/6.

ROCKY MOUNTAIN: Initial attack activity.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. River levels are expected to remain high for several days with little fluctuation for the next few days.

SOUTHERN: Initial attack and large fire activity.

SPOOKY TOO, North Carolina State - 1,977 acres. Contained.

JUNIPER, Ocala NF - 1,150 acres. Containment expected 8/10.

ANALYSIS: Initial attack activity continued in the Great Basin and Southwest Areas. Demobilization began on project fires in the Southwest as several of them met containment targets. The remainder of the west experienced minimal activity for this time of the year.

PROGNOSIS: Initial attack activity expected to continue in the Southern Area due to high temperatures, and thundershowers. The potential for initial and extended attack fires due to forecasted scattered thunderstorms and high temperatures continues in southern California, the Southwest, Great Basin, and Rocky Mountain Areas. Activity in Alaska should moderate with forecasted light rain with little or no thunderstorm activity.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Saturday 8/07/93 0900 MDT
Preparedness Level II

ALASKA: Large fire activity.

POLE, Southwest Area Forestry, Yukon Delta NWR - 11,550 acres. Contained.

B248, Tanana Zone, Alaska State - 36,000 acres. No estimate of containment.

NORTHWEST: No activity.

CALIFORNIA NORTH ZONE: Large Fire activity.

WIDOW, Lassen-Modoc RU, California State - 830 acres. Previously reported as BIG VALLEY. Containment expected today, 8/7.

CALIFORNIA SOUTH ZONE: Initial attack and large fire activity.

BEE, San Bernardino NF - 440 acres. Containment expected today, 8/7.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: No significant activity.

WESTERN GREAT BASIN: Initial attack and large fire activity.

WILLOW CREEK, Winnemucca District, BLM - 2,500 acres. Contained.

JUMBLED, Las Vegas District, BLM - 1,000 acres. Contained.

SOUTHWEST: Initial attack and large fire activity.

JUNCTION COMPLEX, Phoenix District, BLM - 3,000+ acres. Type II Team (Hollenshead) committed. The fire is threatening homes, one structure destroyed. Steep terrain is hampering control efforts. No estimate of containment.

PAKOON, Arizona Strip District, BLM - 1,125 acres. Containment expected today, 8/7.

BIG WELL, Arizona State - 3,000 acres. Contained.

BELMONTE, Phoenix District, BLM - 150 acres. Contained.

SKELETON, Arizona State - 260 acres. Controlled.

NELLIE, Phoenix District, BLM - 150 acres. Contained.

ROCKY MOUNTAIN: Initial attack activity.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. Levees are holding. The most critical time is the next 48 hours. Evacuation plans are in place.

SOUTHERN: Initial attack and large fire activity.

JUNIPER, Ocala NF - 1,150 acres. Containment expected 8/10.

CENTRAL TEXAS FIRES, Texas State - 20,000+ acres. There are four fires burning in central Texas, no other information available.

ANALYSIS: Initial attack activity continued in the Great Basin, California and Southwest Areas. Demobilization of large incidents continues in the Southwest.

PROGNOSIS: A RED FLAG WATCH has been issued for western Utah for strong winds. Initial attack activity expected to diminish in the Southern Area due to showers and thundershowers. The potential for initial attack fires continues due to forecasted scattered thunderstorms and high temperatures in southern California, the Southwest, Great Basin, and Rocky Mountain Areas. Activity in Alaska should slacken with forecasted rain and showers.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Sunday 8/08/93 0900 MDT
Preparedness Level II

ALASKA: Large fire activity.

B248, Tanana Zone, Alaska State - 36,250 acres. No estimate of containment.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: Initial attack and large fire activity.

WIDOW, Lassen-Modoc RU, California State - 830 acres. Previously reported as BIG VALLEY. Contained.

CALIFORNIA SOUTH ZONE: Initial attack and large fire activity.

BEE, San Bernardino NF - 475 acres. Contained.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Initial attack and large fire activity.

FAIRVIEW, Carson City District, BLM - 350 acres. Containment expected today, 8/8.

SOUTHWEST: Initial attack and large fire activity.

JUNCTION COMPLEX, Phoenix District, BLM - 4,000 acres. Type II Team (Hollenshead) committed. Steep terrain, poor access, high temperatures and gusty winds are hampering control efforts. One residence has been destroyed. Containment expected today, 8/8.

PAKOON, Arizona Strip District, BLM - 1,125 acres. Contained.

ROCKY MOUNTAIN: Initial attack activity.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. Levees are continuing to hold. Evacuation plans are in place. River expected to crest today at 49 feet.

SOUTHERN: Initial attack and large fire activity.

JUNIPER, Ocala NF - 1,150 acres. Containment expected 8/10.

MENARD COUNTY FIRE, Texas State - 13,000 acres. Contained.

ANALYSIS: Initial attack continued in the Great Basin, California and the Southwest Areas as a result of thunderstorm activity. Demobilization of project fires continuing in the Southwest.

PROGNOSIS: Anticipate continued initial attack activity in southern California, the Southwest, Great Basin, and Rocky Mountain Areas due to scattered thunderstorms. Activity in Alaska should decrease as precipitation continues. Initial attack activity is expected to diminish in the Southern Area due to forecasted showers and thunder showers.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, 08/09/93 0530 MDT
Preparedness Level II

ALASKA: Large fire activity.

B248, Tanana Zone, Alaska State - 36,250 acres. No estimate of containment.

NORTHWEST: Initial attack and large fire activity.

SAGE BRUSH, Deschutes NF - 120 acres. Containment expected today, 8/9.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Initial attack and large fire activity.

FAIRVTEW, Carson City District, BLM - 350 acres. Contained.

SOUTHWEST: Initial attack and large fire activity.

JUNCTION COMPLEX, Phoenix District, BLM - 4,000 acres. Type II Team (Hollenshead) committed. Steep terrain, poor access, high temperatures and gusty winds are hampering control efforts. One residence was destroyed. Containment expected today, 8/9.

ROCKY MOUNTAIN: No significant activity.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. Levees are continuing to hold and are being patrolled constantly. Evacuation plans are in place. River levels continue to fluctuate.

SOUTHERN: Initial attack and large fire activity.

JUNIPER, Ocala NF - 1,150 acres. Containment expected 8/10.

SAN SABA, Texas State - 13,120 acres. One mobile home and several outbuildings were lost. Contained.

ANALYSIS: Moderate initial attack activity was experienced in the Great Basin, California, the Southwest and Southern Areas. Demobilization of project fires continued in the Southwest Area.

PROGNOSIS: Scattered, mostly wet afternoon and evening thunderstorms throughout the northwest should allow initial attack to remain at a moderate level. Alaska will continue to receive scattered showers. Initial attack activity is expected to be minimal in the Southern Area with forecasted showers and thundershowers.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Tuesday 8/10/93 0530 MDT
Preparedness Level II

ALASKA: Large fire activity.

B248, Tanana Zone, Alaska State - 36,250 acres. No estimate of containment.

NORTHWEST: Initial attack and large fire activity.

SAGEBRUSH, Deschutes NF - 400 acres. Contained.

TIN PAN PEAK, Oregon State - 100 acres. Fire is located near Grant's Pass, Oregon. No estimate of containment.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack and large fire activity.

OTAY #1, San Diego RU, California State - 1,000 acres. Controlled.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Initial attack and large fire activity.

PASS, Las Vegas District, BLM - 3,000 acres. Contained.

SOUTHWEST: Initial attack and large fire activity.

JUNCTION COMPLEX, Phoenix District, BLM - 4,950 acres. Contained.

ROCKY MOUNTAIN: No significant activity.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. River levels are beginning to fall. The levees are expected to remain under threat until the river level drops to 40 feet.

SOUTHERN: Initial attack and large fire activity.

JUNIPER, Ocala NF - 1,155 acres. Containment expected today, 8/10.

MITCHELL, Sabine NWR - 600 acres. Burnout operation in progress. Containment was expected yesterday, 8/9.

TATES HELL, Florida State - 750 acres. Fire is burning in Tates Hell swamp and is threatening the Apalachicola NF boundary. No estimate of containment.

INTRACOASTAL, Florida State - 924 acres. Contained.

INCIDENT MANAGEMENT SITUATION REPORT
Wednesday 8/11/93 0530 MDT
Preparedness Level II

ALASKA: Large fire activity.

B248, Tanana Zone, Alaska State - 36,250 acres. No estimate of containment.

NORTHWEST: Initial attack and large fire activity.

TIN PAN PEAK, Oregon State - 600 acres. Contained.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: No significant activity.

SOUTHWEST: Initial attack activity.

BLIZZARD, Arizona State - 350 acres. Contained.

ROCKY MOUNTAIN: Initial attack activity.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. River levels continue to recede. The levees are expected to remain under threat until the river level drops to 40 feet.

SOUTHERN: Initial attack and large fire activity.

JUNIPER, Ocala NF - 1,155 acres. Contained.

MITCHELL, Sabine NWR - 1,000 acres. Contained.

TATES HELL, Florida State - 800 acres. No estimate of containment.

NINE POINT ONE, Merritt Island, NWR - 360 acres. No other information available.

ANALYSIS: The Southern Area continued to report initial attack activity. The majority of the western U.S. continued to experience moderate fire activity.

PROGNOSIS: A RED FLAG WARNING has been issued for northwest Arizona for increasing winds and low humidity. Scattered showers and mostly wet thunderstorms will continue for the Great Basin, the Southwest, Rocky Mountain, and Southern Areas. This weather pattern should minimize new starts and aid in the containment of large fires. California will be mostly sunny in the interior with a slight chance of thunderstorms in the southern mountains and deserts.

INCIDENT MANAGEMENT SITUATION REPORT
Thursday 8/12/93 0530 MDT
Preparedness Level II

ALASKA: Large fire activity.

B248, Tanana Zone, Alaska State - 36,250 acres. No estimate of containment.

NORTHWEST: Initial attack and large fire activity.

LOOKUP, Wentachee NF - 116 acres. Type II Team (Murphy/Berndt) committed. The fire is located in the Tumwater Canyon area of the Leavenworth Ranger District. Current threats are to private land and structures. Poor access, steep terrain, and rolling burning debris are hampering suppression efforts. Containment expected 8/13.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: No significant activity.

WESTERN GREAT BASIN: Initial attack activity.

SOUTHWEST: Initial attack activity.

CORNER, Arizona State - 175 acres. Contained.

ROCKY MOUNTAIN: No significant activity.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The river continues to slowly recede. Team continues to provide communications for levee personnel and information to the public about flood related activities.

SOUTHERN: Initial attack and large fire activity.

TATES HELL, Florida State - 800 acres. Controlled.

NINE POINT ONE, Merritt Island, NWR - 540 acres. Contained.

ANALYSIS: Fire activity continued to be scant throughout the western U.S. for this time of year. The Southern Area, on the other hand, continued to experience above normal fire activity.

PROGNOSIS: A RED FLAG WARNING has been issued for Arizona for strong gusty winds and low humidity. Scattered showers and thunderstorms will continue for the Great Basin, Southwest, Rocky Mountain, and Southern Areas. This weather pattern should minimize new starts and aid in the containment of large fires. Northern California will have a slight increase in initial attack activity due to holdover fires from yesterdays lightning activity.

INCIDENT MANAGEMENT SITUATION REPORT
Friday 8/13/93 0530 MDT
Preparedness Level II

ALASKA: Large fire activity.

B248, Tanana Zone, Alaska State - 36,250 acres. Contained.

NORTHWEST: Initial attack and large fire activity.

LOOKUP, Wentachee NF - 166 acres. Type II Team (Murphy/Berndt) committed. Excellent progress was made in spite of steep, rocky terrain, falling snags and rolling rocks. Current threat is to private land and structures. Containment expected today, 8/13.

CALIFORNIA NORTH ZONE: No activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: No significant activity.

WESTERN GREAT BASIN: Initial attack and large fire activity.

BEACON, Las Vegas District, BLM - 1,800 acres. No estimate of containment.

SOUTHWEST: Initial attack and large fire activity.

FOSTER CANYON, Las Cruces District, BLM - 215 acres. Containment was expected yesterday, 8/12.

JAMES, Pima Agency, BIA - 250 acres. Controlled.

ROCKY MOUNTAIN: No significant activity.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. As the river recedes, the Team continues to provide communications and information to the public about flood related activities.

SOUTHERN: Initial attack and large fire activity.

INDIAN CREEK, Texas State - 440 acres. Controlled.

ANALYSIS: Initial attack fire activity was minimal and there was no significant development of large fires for the entire U.S.

PROGNOSIS: The western U.S. will be mostly sunny with isolated thunderstorms. This will result in fewer new fires and will be favorable weather for meeting projected containment dates on large fires.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Saturday 8/14/93 0900 MDT
Preparedness Level II

ALASKA: No significant activity.

NORTHWEST: Initial attack and large fire activity.

LOOKUP, Wentachee NF - 169 acres. Type II Team (Murphy/Berndt) committed. Containment expected today, 8/14.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Initial attack and large fire activity.

BEACON, Las Vegas District, BLM - 3,200 acres. Containment expected today, 8/14.

SOUTHWEST: Initial attack and large fire activity.

FOSTER CANYON, Las Cruces District, BLM - 215 acres. Controlled.

BROWN, Phoenix District, BLM - 150 acres. No estimate of containment.

VACATION, Arizona State - 150 acres. Controlled.

ROCKY MOUNTAIN: Initial attack and large fire activity.

BIG BULL, Craig District, BLM - 200 acres. Containment expected 8/15.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area has established a Receiving and Distribution Center in eastern Kansas.

EASTERN: No activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Team continues to provide communications and information to the public about flood related activities.

SOUTHERN: Initial attack activity.

ANALYSIS: Initial attack activity was minimal and there was no significant development of large fires.

PROGNOSIS: Weather for the western and southern U.S. will be mostly sunny with isolated to scattered showers and thunderstorms. This will be reflected by a general decrease in new fires.

INCIDENT MANAGEMENT SITUATION REPORT
Sunday 8/15/93 0900 MDT Preparedness
Level II

ALASKA: No significant activity.

NORTHWEST: Initial attack and large fire activity.

LOOKUP, Wentachee NF - 169 acres. Contained.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: No activity.

BEACON, Las Vegas District, BLM - 3,200 acres. Controlled.

SOUTHWEST: Initial attack and large fire activity.

BROWN, Phoenix District, BLM - 300 acres. Contained.

ROCKY MOUNTAIN: Initial attack and large fire activity.

BIG BULL, Craig District, BLM - 468 acres. Suppression efforts protected a major pipeline and well pads. Containment expected today, 8/15.

PEEKABOO RIDGE, Craig District, BLM - 200+ acres. The fire was crowning and spotting in heavy fuels in a remote area. Containment expected 8/20.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area continues to support a Receiving and Distribution Center in eastern Kansas.

EASTERN: No activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Team continues to provide communications and information to the public about flood related activities.

SOUTHERN: Initial attack activity.

ANALYSIS: There was very limited initial attack activity scattered across the western and southeastern states, with few escaped fires.

PROGNOSIS: Weather for the western and southern U.S. will be mostly sunny with isolated to scattered showers and thunderstorms. The northwest states will be generally cooler and wetter. This should reflect a general decrease in new fires.

INCIDENT MANAGEMENT SITUATION REPORT
Monday 8/16/93 0530 MDT
Preparedness Level II

ALASKA: No significant activity.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Initial attack activity.

SOUTHWEST: Initial attack activity.

ROCKY MOUNTAIN: Initial attack and large fire activity.

BIG BULL, Craig District, BLM - 468 acres. Contained.

PEEKABOO RIDGE, Craig District, BLM - 200+ acres. Containment expected 8/20.

NW RUBY LEE, Grand Junction District, BLM - 800 acres. Controlled.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area continues to support a Receiving and Distribution Center in eastern Kansas.

EASTERN: No activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Team continues to provide communications and information to the public about flood related activities.

SOUTHERN: Initial attack activity.

ANALYSIS: Initial activity was limited across most of the U.S. as cooler temperatures with scattered showers prevailed in most areas. The majority of activity occurred in the Rocky Mountain Area where there was less precipitation with thunderstorms.

PROGNOSIS: A RED FLAG WARNING has been issued for west central and southwest Utah valleys for strong winds and dry conditions. The western U.S. will be partly cloudy with cooler temperatures and widely scattered thunderstorms. The Southern and Southwest Areas will experience partly cloudy skies with afternoon and evening thundershowers. Moderate fire activity is anticipated for most of the geographic areas.

INCIDENT MANAGEMENT SITUATION REPORT
Tuesday 8/17/93 0530 MDT
Preparedness Level II

ALASKA: No significant activity.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: No significant activity.

SOUTHWEST: Initial attack activity.

ROCKY MOUNTAIN: Initial attack and large fire activity.

WAPITTI, Craig District, BLM - 6,000 acres. Containment expected 8/18.

PEEKABOO RIDGE, Craig District, BLM - 200+ acres. Fire is burning in a remote area with minimal threat to resources or other improvements. Containment expected 8/20.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area continues to support a Receiving and Distribution Center in eastern Kansas.

EASTERN: Initial attack activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Team continues to provide communications and information to the public about flood related activities.

SOUTHERN: Initial attack activity.

ANALYSIS: Fire activity in the western U.S. continued to be less than the average for this time of year. Some areas experienced an increase in initial attack, however, suppression forces were successful in containing most fires at minimal acreage.

PROGNOSIS: The western U.S. will experience a slow warming trend with mostly sunny skies and more moderate winds in the afternoon. Southern Colorado will have widely scattered thunderstorms that may increase their potential for initial attack activity. The Southwest Area and Southern Area will receive scattered afternoon and evening thundershowers.

INCIDENT MANAGEMENT SITUATION REPORT
Wednesday 8/18/93 0530 MDT
Preparedness Level II

ALASKA: No significant activity.

NORTHWEST: No significant activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: No significant activity.

WESTERN GREAT BASIN: No significant activity.

SOUTHWEST: Initial attack activity.

ROCKY MOUNTAIN: Initial attack and large fire activity.

WAPITI, Craig District, BLM - 9,600 acres. Containment expected today, 8/18.

PEEKABOO RIDGE, Craig District, BLM - 250 acres. Fire is burning in a remote area with minimal threat to resources or other improvements. Containment expected 8/20.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area continues to support a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Team continues to provide communications and information to the public about flood related activities.

SOUTHERN: Initial attack activity.

ANALYSIS: Initial attack activity continued in the Rocky Mountain Area. North Zone California experienced an increase in initial attack as a result of hold over fires from lightning. Fire activity in the remainder of the U.S. continued to be minimal.

PROGNOSIS: The Southwest Area will see increasing monsoon moisture with thunderstorms, particularly in New Mexico. Initial attack activity may increase in parts of the Great Basin and Colorado with widely scattered thunderstorms forecast. California will continue to remain warm and dry.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Thursday 8/19/93 0530 MDT
Preparedness Level I

ALASKA: No significant activity.

NORTHWEST: No significant activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: No significant activity.

SOUTHWEST: Initial attack and large fire activity.

ANTARES, Phoenix District, BLM - 700 acres. No estimate of containment.

TELEPHONE, Tonto NF - 135 acres. Contained.

ROCKY MOUNTAIN: Initial attack and large fire activity.

WAPITI PEAK, Craig District, BLM - 9,600 acres. Contained.

PEEKABOO RIDGE, Craig District, BLM - 250 acres. The fire is in a remote area and poses slight threat to resources or improvements. Containment expected 8/20.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area continues to support a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Team continues to provide communications and information to the public about flood related activities.

SOUTHERN: Initial attack and large fire activity.

SPEARS, Merritt Island NWR - 364 acres. Contained.

ANALYSIS: Initial attack activity continued in the Southwest Area, northeast Utah and northwest Colorado. The remainder of the U.S. continued to have little activity.

PROGNOSIS: A RED FLAG WATCH has been issued for strong winds and low relative humidities for valley areas in southwest Utah. This, in conjunction with forecasted scattered thunderstorms for Utah, Nevada and northwest Colorado may lead to increased initial attack activity in the Great Basin and northwest Colorado. California will be cooler, but with a chance for increased initial attack activity over the central to northern Sierras with forecasted scattered thunderstorms.

INCIDENT MANAGEMENT SITUATION REPORT
Friday 8/20/93 0530 MDT
Preparedness Level I

ALASKA: No significant activity.

NORTHWEST: No significant activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Initial attack and large fire activity.

BUNKER, Las Vegas District, BLM - 300+ acres. No estimate of containment.

SOUTHWEST: Initial attack and large fire activity.

ANTARES, Phoenix District, BLM - 700 acres. Contained.

ROCKY MOUNTAIN: Initial attack and large fire activity.

PEEKABOO RIDGE, Craig District, BLM - 250 acres. Containment expected today, 8/20.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area continues to support a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Team continues to provide communications and information to the public about flood related activities.

SOUTHERN: Initial attack and large fire activity.

TRAVIS COUNTY, Texas State - 1,000 acres. Contained.

JOHNSON COUNTY, Texas State - 1,400 acres. Contained.

HILL COUNTY, Texas State - 1,500 acres. No other information available.

ANALYSIS: Minimal initial attack activity continued in most geographic areas. Fire activity in Texas increased; State and Forest Service resources were mobilized to assist the Counties.

PROGNOSIS: Scattered thunderstorms are forecast for Arizona, New Mexico, Utah, Nevada and northern Colorado. This may lead to some initial attack activity in these locations. California will be cooler, with a slight chance for significant activity.

INCIDENT MANAGEMENT SITUATION REPORT
Saturday 8/21/93 0900 MDT
Preparedness Level I

ALASKA: No significant activity.

NORTHWEST: No significant activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

GLENALLEN, Angeles NF - 50 acres. Controlled.

During initial attack on August 20, a Los Angeles County Helitack Crew was burned over, causing 2 fatalities, 2 critically injured and 6 injured. Some shelter deployment did occur. Investigation in progress.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Large fire activity.

BUNKER, Las Vegas District, BLM - 600 acres. Containment expected today, 8/21.

SOUTHWEST: Initial attack and large fire activity.

67AV/RAY, Pima Agency, BIA - 100 acres. Controlled.

PISTOL, Saguaro, NPS - 230 acres. Containment expected today, 8/21.

ROCKY MOUNTAIN: Initial attack and large fire activity.

PEEKABOO RIDGE, Craig District, BLM - 250 acres. Containment was expected yesterday, 8/20.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area continues to support a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Team continues to provide communications and information to the public about flood related activities.

SOUTHERN: Initial attack and large fire activity.

TRAVELERS REST, Ocala NF - 700 acres. Containment expected today, 8/21.

INCIDENT #680, Florida State - 550 acres. Contained.

HILL COUNTY, Texas State - 1,500 acres. No other information available.

ANALYSIS: Initial attack activity continued in most geographic areas, with North Zone and Southern Areas having the most activity. Extremely dry conditions in Florida resulted in escaped fires.

PROGNOSIS: Cooler temperatures and fewer thunderstorms are forecast for most geographic areas, which will result in fewer fires. Initial attack activity expected to continue.

INCIDENT MANAGEMENT SITUATION REPORT
Sunday 8/22/93 0900 MDT
Preparedness Level I

ALASKA: No activity.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: No significant activity.

BUNKER, Las Vegas District, BLM - 3,236 acres. Contained.

SOUTHWEST: Initial attack activity.

PISTOL, Saguaro National Monument, NPS - 230 acres. Contained.

ROCKY MOUNTAIN: No significant activity.

PEEKABOO RIDGE, Craig District, BLM - 250 acres. Controlled.

FLOOD ASSISTANCE, Topeka, Kansas. The Rocky Mountain Area continues to support a Receiving and Distribution Center in eastern Kansas.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Team continues to provide communications and information to the public about flood related activities.

SOUTHERN: Initial attack and large fire activity.

TRAVELERS REST, Osceola NF - 900 acres. Type II Team (Coats) committed. Extremely dry conditions are hampering control efforts. Current threat is to private timber. Containment expected 8/25.

HILL COUNTY, Texas State - 1,500 acres. No other information available.

#680, Florida State - 550 acres. Contained.

ANALYSIS: Initial attack activity continued in most geographic areas. Extremely dry conditions in Florida resulted in large fire activity.

PROGNOSIS: Sunny weather will dominate the western states with no thunderstorms predicted. This weather pattern may result in a decrease of new fires. Partly cloudy skies with scattered thundershowers should foster a continuation of initial attack and large fire activity in the Southern Area.

INCIDENT MANAGEMENT SITUATION REPORT
Monday 8/23/93 0530 MDT
Preparedness Level I

ALASKA: No activity.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: No significant activity.

SOUTHWEST: Initial attack activity.

ROCKY MOUNTAIN: No significant activity.

FLOOD ASSISTANCE, Topeka, Kansas. The mission assignment in Topeka has been completed. Three persons from the Rocky Mountain Area will continue to assist at the distribution center. This will no longer be reported unless significant activity occurs.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Team is providing communications and information to the public about flood related activities.

SOUTHERN: Initial attack and large fire activity.

TRAVELERS REST, Osceola NF - 900 acres. Type II Team (Coats) committed. Efforts are concentrated on keeping the fire out of the main part of Pinhook Swamp. Extreme drought conditions are hampering the suppression effort. Fire continues to threaten private timber. Containment expected 8/25.

DEAR CREEK, Texas State - 600 acres. Contained.

ANALYSIS: Initial attack and large fire activity continued in the Southern Area while the remainder of the U.S. experienced minimal activity.

PROGNOSIS: Mostly sunny skies with warmer temperatures will prevail over most of the western U.S. today with increasing clouds in northern California. The Southern Area, southwestern New Mexico mountains, and the central Colorado Rockies will receive scattered afternoon and evening thundershowers which may curtail fire activity in these areas.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Tuesday 8/24/93 0530 MDT
Preparedness Level I

ALASKA: No activity.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: No significant activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: No significant activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: No significant activity.

SOUTHWEST: Initial attack activity.

ROCKY MOUNTAIN: Initial attack activity.

EASTERN: No significant activity.

FLOOD ASSISTANCE, Shawnee NF - Type II Team (Adams) committed. The Team continues to assist the Tri-County Flood Information Center. As emphasis shifts to recovery, this assistance will transition to local, county and state cooperators, reducing the Forest Service participation. Six Forest Service and one BLM employee are assisting. Plans are to slowly demobilize and retain only sufficient staff to complete the transition.

SOUTHERN: Initial attack and large fire activity.

TRAVELERS REST, Osceola NF - 870 acres. Type II Team (Coats) committed. Swamp fuels and extreme drought conditions continue to hinder containment efforts. The fire is 60% contained with full containment expected 8/25.

ANALYSIS: Most of the U.S. continued to experience minor initial attack activity with few lightning holdover fires being discovered. The Southern Area continues to experience greater than normal fire activity for August.

PROGNOSIS: RED FLAG WATCH for the southwest and west central valleys of Utah for moderate winds and low humidity. The western U.S. will have sunny and warm weather that may result in detection of more holdover fires. Scattered afternoon thunderstorms will be present in southern Arizona, the southern New Mexico mountains, and the Southeastern U.S.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Wednesday 8/25/93 0530 MDT
Preparedness Level I

ALASKA: No significant activity.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: No significant activity.

WESTERN GREAT BASIN: No significant activity.

SOUTHWEST: Initial attack activity.

ROCKY MOUNTAIN: Initial attack activity.

EASTERN: Initial attack activity.

FLOOD ASSISTANCE, Shawnee NF - The Tri-County Flood Information Center was demobilized yesterday, 8/24.

SOUTHERN: Initial attack and large fire activity.

TRAVELERS REST, Osceola NF - 962 acres. Type II Team (Coats) committed. Containment expected today, 8/25.

ANALYSIS: Most Geographic Areas reported limited fire activity with no fires escaping initial attack.

PROGNOSIS: RED FLAG WARNING for northern California for strong northerly winds and decreasing relative humidities. The western and southeastern U.S. will continue to be warm and sunny with widely scattered afternoon thundershowers. Initial attack activity is expected to continue.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Thursday 8/26/93 0530 MDT
Preparedness Level I

ALASKA: No significant activity.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: No significant activity.

WESTERN GREAT BASIN: No significant activity.

SOUTHWEST: No significant activity.

ROCKY MOUNTAIN: Initial attack activity.

EASTERN: No activity.

SOUTHERN: Initial attack and large fire activity.

TRAVELERS REST, Osceola NF - 962 acres. Contained.

ANALYSIS: Very little activity was reported nationally, except in the Southern Area where above normal activity continues.

PROGNOSIS: A RED FLAG WARNING has been issued this morning in northern California for strong northerly winds and low relative humidity. Tropical storm Hilary will supply some high level moisture to southern California and scattered showers and thundershowers to most of Arizona and New Mexico. Only minor activity will be experienced in these areas. Nevada will be sunny. Utah, the Colorado Rockies and the Southeastern U.S. will have scattered thunderstorms. Initial attack activity is expected to continue.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Friday 8/27/93 0530 MDT
Preparedness Level I

ALASKA: No significant activity.

NORTHWEST: Initial attack and large fire activity.

JOHNSON LAKE, Warm Springs Agency, BIA - 300 acres. Containment expected today, 8/27.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack activity.

NORTHERN ROCKIES: Initial attack activity.

EASTERN GREAT BASIN: No significant activity.

WESTERN GREAT BASIN: Initial attack activity.

SOUTHWEST: No activity.

ROCKY MOUNTAIN: Initial attack activity.

EASTERN: No activity.

SOUTHERN: Initial attack activity.

ANALYSIS: Fire activity has moderated due to cooler temperatures and precipitation in several areas.

PROGNOSIS: The remains of tropical storm Hilary will bring widespread showers and thundershowers from the southwest deserts across eastern Utah and most of Colorado, decreasing fire activity in those areas. Southwest Utah and southern Nevada will be partly cloudy with widely scattered afternoon and evening thundershowers. High pressure and dry air will cover northern California and the northern Great Basin. High pressure with moist and unstable air will result in widely scattered thundershowers in the Southern Area.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Saturday 8/28/93 0900 MDT
Preparedness Level I

ALASKA: No significant activity.

NORTHWEST: Initial attack and large fire activity.

JOHNSON LAKE, Warm Springs Agency, BIA - 300 acres. Contained.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack and large fire activity.

OPAL #2, California Desert District, BLM - 2,000 acres. Inaccessible terrain and- gusty winds .-.contributed to control problems. Containment expected today, 8/28.

NORTHERN ROCKIES: Initial attack activity. .

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Initial attack activity.

SOUTHWEST: Initial attack and large fire activity.

COTTONWOOD, Arizona Strip District, BLM - 1,000 acres. No estimate of containment.

ROCKY MOUNTAIN: No activity.

EASTERN: No activity.

SOUTHERN: Initial attack activity.

ANALYSIS: Fire activity has remained moderate in most areas. Gusty winds from thunderstorms have caused some fires to exceed initial attack in southern California, southern Nevada, northwest Arizona.

PROGNOSIS: The remains of tropical storm Hilary will continue to bring widespread showers and thundershowers from the southwest deserts across eastern Utah and into Colorado, decreasing fire activity in those areas. Mostly sunny skies with scattered showers and thundershowers will dominate much of the west. The Southern Area will receive widely scattered thundershowers. Fire activity will remain minimal.

NICC Intelligence Section

INCIDENT MANAGEMENT SITUATION REPORT
Sunday 8/29/93 0900 MDT
Preparedness Level I

ALASKA: No activity.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack and large fire activity.

OPAL #2, California Desert District, BLM - 8,360 acres. Contained.

NORTHERN ROCKIES: No significant activity.

EASTERN GREAT BASIN: Initial attack activity.

WESTERN GREAT BASIN: Initial attack activity.

GRANITE, Humboldt NF - 320 acres. Controlled.

SOUTHWEST: Initial attack and large fire activity.

COTTONWOOD, Arizona Strip District, BLM - 1,200 acres. Containment was expected last night, 8/28.

ROCKY MOUNTAIN: No activity.

EASTERN: No activity.

SOUTHERN: Initial attack and large fire activity.

OTTER, George Washington NF - 200 acres. Contained.

KLETT, Sabine NWR - 450 acres. Poor access and fuel loading are hampering control efforts. Containment expected today, 8/29.

HANKS, Sabine NWR - 150 acres. Containment expected today, 8/29.

ANALYSIS: Fire activity has remained moderate in most areas. Gusty winds from thunderstorms have caused some fires to exceed initial attack in southern California, Nevada, Arizona and Virginia. Containment expectations for fires are being met.

PROGNOSIS: A RED FLAG WATCH for moderate strong north winds has been issued for the northern Sacramento Valley and foothills, which will increase the potential for escaped fires in those areas. Cooler temperatures and scattered showers and thundershowers will dominate much of the west and will help to keep fire activity to a minimum. The Southern Area will have isolated evening thunderstorms in North Carolina. Numerous showers and thunderstorms are forecast for Georgia and northern Florida, which should moderate fire activity there.

INCIDENT MANAGEMENT SITUATION REPORT
Monday 8/30/93 0530 MDT
Preparedness Level I

ALASKA: No activity.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: Initial attack activity.

CALIFORNIA SOUTH ZONE: Initial attack and large fire activity.

CASTLE, California Desert District, BLM - 130 acres. Containment expected today, 8/30.

NORTHERN ROCKIES: No significant activity.

EASTERN GREAT BASIN: No significant activity.

WESTERN GREAT BASIN: Initial attack activity.

SOUTHWEST: Initial attack and large fire activity.

SPRINGS, Phoenix District, BLM - 120 acres. Contained.

COTTONWOOD, Arizona Strip District, BLM - 2,152 acres. Contained.

ROCKY MOUNTAIN: No activity.

EASTERN: No activity.

SOUTHERN: Initial attack and large fire activity.

KLETT, Cameron Prairie NWR - 450 acres. Contained.

HANKS, Sabine NWR - 150 acres. Containment was expected yesterday, 8/29. No new information.

ANALYSIS: Only minimal fire activity was reported in the western states. The Southern Area continues to experience extended attack fires.

PROGNOSIS: A RED FLAG WATCH for strong north winds has been issued for the northern Sacramento Valley and foothills. The predicted winds may cause control problems with any new starts in those areas. Southern and central Nevada and Utah will receive scattered showers and thundershowers with mostly sunny skies in the northern half of both states. Initial attack is expected to remain minimal. The Southern Area will be partly cloudy with afternoon and evening thunderstorms. East Texas continues to register drought conditions after sixty days without moisture. Texas will remain hot and partly cloudy with isolated thunderstorms predicted which may result in more initial attack fires.

INCIDENT MANAGEMENT SITUATION REPORT
Tuesday 8/31/93 0530 MDT
Preparedness Level I

ALASKA: No activity.

NORTHWEST: Initial attack activity.

CALIFORNIA NORTH ZONE: No significant activity.

CALIFORNIA SOUTH ZONE: Initial attack and large fire activity.

CASTLE, California Desert District, BLM - 130 acres. Containment was expected yesterday, 8/30.

RUSSIA, Sequoia NF - 1,500 acres. Containment was expected yesterday, 8/30.

NORTHERN ROCKIES: No significant activity.

EASTERN GREAT BASIN: No significant activity.

WESTERN GREAT BASIN: No significant activity.

SOUTHWEST: Initial attack activity.

ROCKY MOUNTAIN: Initial attack and large fire activity.

Medicine Bow NF and Wyoming State - 190 acres. No other information available.

EASTERN: Initial attack activity.

SOUTHERN: Initial attack and large fire activity.

HANKS, Sabine NWR - 200 acres. Contained.

ANALYSIS: The western U.S. continued to report minimal fire activity. Large fires continue to meet containment targets in the Southern Area. Personnel and equipment have been mobilized to assist FEMA's Washington D.C. office and the Nuclear Regulatory Commission in Philadelphia, PA in anticipation of Hurricane Emily's landfall.

PROGNOSIS: A southerly flow of air will spread monsoon moisture over Utah and Nevada, which should continue to hold fire activity to a minimum. California will experience fair and sunny weather, except for isolated afternoon and evening thunder showers in the Sierra Nevada Mountains. A cold front will extend from the Ohio Valley into central Texas, bringing scattered showers and cooler temperatures. Louisiana will be partly cloudy with scattered afternoon and evening thundershowers. This weather pattern should help to moderate fire potential in both of these areas.
