

INCIDENT MANAGEMENT SITUATION REPORT  
SATURDAY, SEPTEMBER 3, 1994 - 0700 MDT  
NATIONAL PREPAREDNESS LEVEL V

Current Situation: Initial attack activity continued with lightning occurring in several areas of the western U.S. Several large fires in the Eastern Great Basin experienced increased fire activity. Cloud cover and light rain showers aided firefighters on some fires in the Northwest and Northern Rockies. A Type I Incident Management Team and 6 Type I Crews were ordered for the Northern Rockies from California.

The Sixth U.S. Army has been tasked for an eighth battalion of military firefighters for the Eastern Great Basin Area. Mobilization of the NIFC Multi-Agency Training Team is scheduled for 9/5. Training will begin on 9/6.

Colonel Chip Leonard, USA, is the Task Force Commander of two Battalions and three Aviation Units assigned to the Corral Creek and Blackwell fires and the Idaho City Complex. Colonel Joseph Leigh, USA, is the Task Force Commander of one Battalion assigned to the Koozanusa Complex.

Eastern Great Basin Area Large Fires:

An Area Command (Wagenfehr, Area Commander) is in place on the Boise National Forest. The Area Command is responsible for the Idaho City Complex, the Thunderbolt and Star Gulch fires.

CORRAL CREEK, Payette NF. A Type I Incident Management Team (Monahan) and the 14th Engineer Battalion, 555th Engineer Brigade, (Lt. Col. Perrenot, Commander) are assigned. Although predicted winds did not materialize yesterday, the fire continued to be active increasing 1,000 acres. Structures continue to be threatened along French Creek and the Salmon River.

CHICKEN COMPLEX, Payette NF. A Type I Incident Management Team (O'Bannon) is assigned. The fire made major runs on several fronts towards Chamberlain, Warren summit and up Pony Creek. Airtankers were utilized to support the line protecting the town of Warren.

IDAHO CITY COMPLEX, Boise NF. A Type I Incident Management Team (Eddy) is assigned. The 1st Engineer Battalion, 1st Infantry Division, USA (Lt. Col. Bostic, Commander) is assigned. The complex consists of the BANNOCK, BEAR RIVER, RABBIT CREEK and NORTH FORK fires. Extremely low humidities and 25 MPH winds contributed to an 8,000 acre increase in 3 1/2 hours on the east flank of the Rabbit fire. The fire is now burning in the Sawtooth Wilderness. Structure protection is a major concern with continued dry fuels and winds predicted.

BLACKWELL COMPLEX, Payette NF. A Type I Incident Management Team (Harbour) is assigned. Helicopter support is being provided by the 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col. Myles, Commander), the 4th Battalion, 1st Aviation Brigade (Lt. Col. Brodstrum, Commander) and the A/6-158th Aviation Unit, USAR. Predicted high winds did not materialize and fire behavior was moderate.

THUNDERBOLT, Boise NF. A Type I Incident Management Team (Denton) is assigned. The 4th Battalion, 227 Aviation Regiment, 1st Cavalry Division, USA (Lt. Col.

Myles, Commander) is providing helicopter support. High winds caused fire activity to increase, however, all containment lines held with only minor slopovers on the northern flank. Direct line construction has begun in an attempt to contain the fire near the Yellowpine powerline.

STAR GULCH, Boise NF. A Type I Incident Management Team (Richer) is assigned. A significant reduction of hot spots along the perimeter was accomplished, but many still exist on the northwest portion of the fire.

PIONEER COMPLEX, Challis NF. A Type II Incident Management Team (McAtee) is assigned. This complex consists of the PIONEER CREEK, NORTON RIDGE, NORTON LAKE and NORTON LAKE II fires. Predicted winds did not materialize and fire activity was low.

CUDDY POINT, Payette NF. A Type I Incident Management Team (Birch) is assigned. Winds caused the fire to torch and to spot into dead and downed fuels.

Northern Rockies Area Large Fires:

An Area Command (Kitchens, Area Commander) is in place on the Kootenai National Forest. The Area Command is responsible for the following fires: Yaak-Red Dragon Complex, Cabinet Complex, Libby Complex, Trout Creek Complex, High One, Wolf II, and Kooconusa Complexes.

LIBBY COMPLEX, Kootenai NF. A Type I Incident Management Team (Porter) is assigned. The major fires in the complex are: SCENERY, LEIGH CREEK, PARMENTER, CHINA BASIN, MCKAY MTN, QUARTZ and HANGING FLOWER. Good progress continues on line construction and burnout operations of all staffed fires. Light rain showers were received over most of the fire area yesterday morning.

YAAK-RED DRAGON COMPLEX, Kootenai NF. Two Type II Incident Management Teams (Bullis and Hancock) are assigned. The Type I Incident Management Team (Meuchel) will demobilized this morning. The major fires in the complex are: THUNDER HILL, 17 MILE, ZIMMERMAN, PULPIT, STUDEBAKER, FISH FRY, FOWLER, GUNSIGHT, BURNT SHEEP, and PINK MTN. Fireline was expected to be completed on the Pink Mtn fire last night.

KOOCANUSA COMPLEX, Kootenai NF. A Type I Incident Management Team (Lee) and the 3-11 Field Artillery Battalion, I Corps (Lt. Col. Patterson, Commander) are assigned. This complex consists of the CRIPPLE HORSE, MAXINE, 336, FOWLER, and BANFIELD fires. Resources were committed to the Banfield fire for direct line

construction supported by aircraft.

CABINET COMPLEX, Kootenai NF. A Type II Incident Management Team (Groshong) is assigned. This complex consists of the GRAUMBAUER, SPRUCE, SURVEY, DRIFT, WILLARD, and WILL DO fires. Cloud cover kept fire activity moderate.

TROUT CREEK COMPLEX, Kootenai NF. A Type II Incident Management Team (Groshong) is assigned. The major fires in this complex are: PILLICK RIDGE, LOST GIRL, GOAT ROCKS and DEVIL'S DAD. Trout Creek Camp has been disbanded, and the remaining support has been moved to the Cabinet Complex Camp.

POWELL COMPLEX, Clearwater NF. A Type II Incident Management Team (Hodge) is assigned. This complex includes the FREEZEOUT, FERN CREEK, SPONGE, EAST BEAVER, BIG SAND, HIDDEN CREEK, HESLIP RIDGE and GOLD MEADOWS fires. Initial attack continued on 4 recent lightning fires. Currently 23 firefighters and 6 smokejumpers are staffing these fires. One crew is constructing line on the Heslip fire. The complex assumed management of another initial attack fire on the Lochsa RD, 8 smokejumpers are assigned.

DECKARD FLATS, Gallatin NF. This new fire is threatening the community of Jardine, MT. A Type I Incident Management Team (Dougherty) has been ordered. NORTH FORK COMPLEX, Glacier NP. The major fires in the complex are: STARVATION, HOWLING and ADAIR II. Control was completed on all the spot fires on the Starvation fire. Crews completed burnout operations on the Howling fire. Secondary holding lines will be established today.

Northwest Area Large Fires:

An Area Command (Kurth, Area Commander) is in place on the Wallowa-Whitman NF. The Area Command is responsible for all fires on the Forest.

JORDON SPRINGS, Malheur NF. A Type II Incident Management Team (Gilpin) is assigned. One outbuilding of low value has been destroyed. All lines have been connected. The fire continues periodic torching within control lines.

LITTLE MALHEUR COMPLEX, Malheur NF. A Type II Incident Management Team (Andrade) is assigned. This complex consists of the JACKSON, POWER and IRONSIDE fires. The Ironside fire is being managed under unified command with a State Team (Shultes). The Ironside fire is 100% trailed. Burnout plans were cancelled due to light showers.

FREEZEOUT, Wallowa-Whitman NF. A Type I Incident Management Team (Bailey) is assigned. The FREEZEOUT and GRANITE are being managed together. Progress was made on the Freezeout fire. Cooler temperatures, higher humidities and light

winds caused only minor flare-ups and torching. Very light precipitation yesterday morning helped in keeping fire activity low.

TWIN LAKES, Wallowa-Whitman NF. A Type I Incident Management Team (Lieberbach) is assigned. A Cattlemen's Association cabin has been destroyed. The fire increased 3,000 acres, however, fire behavior was not as intense as expected due to lighter winds than predicted.

THOMASON COMPLEX, Wallowa-Whitman NF. A Type II Incident Management Team (Duke) is assigned. This complex is comprised of the VANCE, HOLLOW LOG, GILL RANCH, YANDALL and CAYUSE RIDGE fires. All line has been completed and heavy mop-up is in progress.

WALLOWA COMPLEX, Oregon State. This complex is comprised of the ALDER CREEK, GREEN BASIN, DEEP CREEK and HOWARD CREEK fires. The Alder Creek is the only fire in the complex that isn't contained. Structure protection is being provided for 8 residences along Freezeout Creek.

Outlook: RED FLAG WATCHES are posted for strong winds in eastern Washington, eastern Oregon and central and southwest Montana. An upper level trough of low

pressure will move into the Pacific Northwest and Northern Rockies. Showers and cooler temperatures will spread from Washington and Oregon into Idaho and Montana. Eastern Washington, eastern Oregon and portions of central and southwest Montana will experience strong southwest to west winds. A dry southwesterly flow will cover California and Nevada. Utah will have a few mountain showers and thunderstorms with locally gusty southwest winds. Wyoming will be partly cloudy and locally windy with a few thundershowers. Monsoon moisture will keep scattered showers and thundershowers over much of Arizona, New Mexico and Colorado. The potential exists for increased activity on large fires as well as initial attack fires where red flags are posted. Increased human caused fires are also possible due to the holiday weekend.
