

INCIDENT MANAGEMENT SITUATION REPORT
 MONDAY, MAY 13, 1996 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL II

*** SAFETY COMES FIRST ON EVERY FIRE, EVERY TIME ***

CURRENT SITUATION: Initial attack and large fire activity has increased in Alaska and the Western Great Basin Areas. A Type II Incident Management Team was mobilized to a fire in Alaska yesterday. Demobilization of resources continues from the Southwest Area. Resource mobilization through NICC was minimal.

Alaska Large Fires:

KAZAKOF BAY, Alaska State. A Type II Incident Management Team (Wehking) is assigned. The fire is located on Afognak Island near Kazakof Bay in a commercial timber logging area. The Coast Guard has been placed on alert and has moved offshore near the logging camp to facilitate evacuations if necessary. Smokejumpers and logging camp personnel have been successful at keeping the fire out of the log decks.

HIDEN CREEK, Alaska State. This fire is located in a highly visible and heavily used recreation area on the Kenai Peninsula. Heavy bucket work is being done by 3 medium helicopters.

BEAR MOUNTAIN, Alaska State. This very visible fire is close to a residential area near the community of Chugiak. The fire is currently staffed by 8 smokejumpers, 3 overhead and 2 crews. Three additional crews have been ordered.

Alaska has 1 fire in confinement/limited strategy for 2,100 acres.

NR = Not Reported

Western Great Basin Large Fires:

INCIDENT NAME	UNIT	ST	SIZE	%	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC	EST LOST	EST LOSS	EST COST
BRADSHAW	ELD	NV	60	100	---	0	0	0	0	0	NR	NR	
RAINBOW	ELD	NV	100	100	---	0	0	0	0	0	NR	NR	

OUTLOOK: A strong upper level ridge will continue to dominate the weather in the Southwest through Tuesday. It will remain hot and very dry with near record high temperatures in Arizona. An influx of upper level moisture could result in afternoon dry thunderstorms in eastern Arizona and southwest/south-central New Mexico. High temperatures will range from the 80's in the mountains to 113 in the lower Arizona deserts. Afternoon winds out of the southwest will range from 15 to 25 MPH. Nevada will be mostly sunny with near record high temperatures in the south. High temperatures will range from the lower 80's in eastern Nevada to 112 in the southern deserts. Southwesterly winds will range from 15 to 30 MPH

this afternoon. Southern Alaska will be mostly sunny with temperatures in the 50's to 60's. Relative humidities will range from 10% to 30%, and winds will be variable at 10 MPH. The potential for escaped fires will increase in the Southwest with the possibility of dry lightning.
