

INCIDENT MANAGEMENT SITUATION REPORT
 FRIDAY, AUGUST 28, 1998 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Minor initial attack activity was reported nationally. New large fire activity was reported in Washington and Hawaii. The National Interagency Coordination Center processed orders for mobile showers and catering units, helicopters, equipment and miscellaneous overhead. Very high to extreme indices were reported in Texas, Arizona, Utah, Nevada, California, Oregon, Washington, Idaho, Wyoming and South Dakota.

NORTHWEST LARGE FIRES:

JO JO #3, Yakima Agency, BIA. The fire is located approximately 15 miles east of Kettle Falls. A line around the fire has been completed, but no estimate on containment was given. Difficult terrain and changing winds are presenting concerns. Local structure protection engines are currently providing assistance.

NORTHERN ROCKIES LARGE FIRES:

WEST FORK WILDERNESS FIRES, Bitterroot NF. An Interagency Fire Use Management Team (Wallace) is assigned. All fires showed increased activity with the higher temperatures.

MOOSE COMPLEX, Nez Perce NF. An Interagency Fire Use Management Team (Johnson) is assigned. These fires are located in the Selway-Bitterroot Wilderness. The fires are being managed to enhance the natural ecological condition of the wilderness.

PACK TRAIL	RF	MT	95	100	----	149	4	0	1	0	UNK	645K

EASTERN GREAT BASIN LARGE FIRES:

LAID LOW, Salmon-Challis NF. A Type II Incident Management Team (Carr) is assigned. This fire is burning in an area of heavy bug kill 12 miles northwest of Stanley. Higher temperatures and lower relative humidity contributed to successful burnout operations. Calmer winds helped to limit the fire's spread.

MAIN SALMON COMPLEX, Salmon-Challis NF. An Interagency Fire Use Management Team (O'Brien) is assigned. This complex is 40 miles west northwest of Salmon. The complex consists of 14 fires in the Frank Church River of No Return Wilderness on the Salmon-Challis, Payette, Nez Perce and Bitterroot National Forests. Fire activity increased on many of the fires with the warmer temperatures and lower relative humidity. However, spread was primarily limited to backing ground fire, with occasional torching.

IFD = Idaho Falls District, BLM location.

* Primary ordering office

SOUTHERN CALIFORNIA LARGE FIRES:

MOLOKAI, Hawaii State. The weather has moderated and light rain was received on the upper slopes. Backfiring progressed as planned. Threatened and endangered plants have been fully protected. All residents that were previously evacuated have been allowed to return to their homes.

OUTLOOK:

A FIRE WEATHER WATCH IS POSTED IN EASTERN WASHINGTON FOR HIGH HAINES INDEX AND LOW RELATIVE HUMIDITY. Hot and dry conditions prevail over the western U.S. Isolated, dry thunderstorms are possible in Oregon. Isolated thunderstorms with some precipitation are expected over the mountains of California and Arizona. Scattered, wet thunderstorms are forecast for New Mexico. High temperatures will range from 95 to 120 in the valleys and deserts, with upper 70s to lower 90s in the mountains and Northern Rockies.

NR = NOT REPORTED

UNK = UNKNOWN
