

INCIDENT MANAGEMENT SITUATION REPORT
 TUESDAY, APRIL 20, 1999 - 1030 MDT
 NATIONAL PREPAREDNESS LEVEL I

CURRENT SITUATION:

Southern Area continues to support both large fires and initial attack activity. Resources remain adequate with the exception of overhead positions. Expect this activity level to increase due to red flag weather conditions in Florida.

SOUTHERN AREA LARGE FIRES:

HICKORY ISLAND, Okefenokee NWR. This fire is burning near Folkston, GA. A very light rain was received on the fire yesterday.

OWL CREEK, National Forests in Florida. Moderate activity continued yesterday. Mop up and line construction continue. Fuels will dry quickly and active burning will continue.

COW HOUSE, National Forests in Florida. A Type I team (Melton) is assigned. This fire is located approximately 20 miles south of Tallahassee. Active fire behavior continues due to low fuel moistures and relative humidities.

NCO FIRE, Price William Forest Park. Gypsy Moth killed snags and 20 mph winds are creating spotting and control problems.

SINGECAT, National Forests in North Carolina. This fire is approximately 30 miles east of Asheville and is burning in steep, pine forest. A 25 acre spot fire hampered control efforts yesterday.

SPA = Spokane Agency

ROCKY MOUNTAIN LARGE FIRES:

EBLER, Craig District BLM. This human caused fire is 25 miles southwest of Meeker, Co. The fire is burning in sagebrush, pinyon and juniper. Control problems include wind and unseasonably dry fuels. A local Type III team is committed.

OUTLOOK:

RED FLAG WARNINGS ARE POSTED THIS AFTERNOON OVER NORTH AND CENTRAL FLORIDA FOR LOW RELATIVE HUMIDITY.

Florida will be mostly sunny and dry today with highs in the upper 70's to near 80 degrees along the coasts and Keys. Highs will be in the lower 80's elsewhere. Wednesday and Thursday will be mostly sunny and dry with highs in the 80's, warming to near 90 on Thursday in the southwest. Friday will be partly cloudy and dry, with highs in the 80's to near 90.

Western Colorado will be mostly cloudy and breezy today with showers over the northern and central mountains. Highs will be in the mid 60's to mid 70's, with 50's to lower 60's in the mountains. Wednesday will be mostly cloudy, cool and breezy with scattered showers at the lower elevations, and numerous showers in the mountains. A chance of showers is forecast Thursday through Friday, with highs in the 40's in the mountains and mid 50's to mid 60's elsewhere.

The southern California coast will be locally windy today during the afternoon and evening hours. Mostly clear conditions are forecast through Wednesday, except for patchy low clouds and dense fog late night and early morning hours. Highs will be in the low 70's along the beaches, to the low to mid 80's in the valleys. Thursday will be mostly clear except for patchy morning low clouds and fog near the coast. Breezy conditions are forecast below the passes and canyons. Highs will range from the upper 60's to lower 70's at the beaches to the upper 70's to mid 80's in the valleys. Friday will be mostly clear with breezy to locally windy conditions below the passes and canyons mainly during the night and morning hours. Highs will range from the mid to upper 70's at the

beaches, to the mid 80's to low 90's in the valleys.

The southern California deserts will be mostly clear through Wednesday with northwest winds 15 to 30 MPH, with stronger gusts during the afternoon and evening hours. Highs today will range from the 80's in the Antelope Valley, to the 90's in the Cacalia Valley. Wednesday will be slightly cooler.
