

INCIDENT MANAGEMENT SITUATION REPORT
 MONDAY, NOVEMBER 8, 1999 - 0530 MST
 NATIONAL PREPAREDNESS LEVEL I

CURRENT SITUATION:

Initial attack activity was minimal in all Geographic Areas. New large fires were reported in the Northwest and Great Basin Areas. Very high to extreme fire indices were reported in California, Idaho, Colorado, Illinois, and Indiana.

NORTHWEST LARGE FIRES:

DEGARMO, Sheldon-Hart National Wildlife Refuge, Fish and Wildlife Service. This fire is located 40 miles northeast of Lakeview, OR. High winds, low relative humidities and the remote location of the fire is causing containment problems.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	EST LOSS	\$\$\$ C-T-D
DEGARMO	OR	SHR	3000	0	11/9	50	1	6	1	0	200K	70K

EASTERN GREAT BASIN LARGE FIRES:

DENNY CREEK, Payette National Forest. This fire is located nine miles south of Riggins, Idaho. No other information was received.

DENNY CREEK	ID	PAF	600	0	UNK	20	0	6	1	0	NR	NR

WESTERN GREAT BASIN LARGE FIRES:

SIGNBOARD, Elko Field Office, BLM. A Type II Incident Management Team (Vorce) is assigned. The fire is located 30 miles east of Jackpot, NV and continued to burn actively due to dry fuels and poor humidity recovery. Aerial retardant drops helped in slowing the fire's advance on the southern flank. The fire is burning in pinion juniper, mountain mahogany, and sage.

TROUT CREEK II, Elko Field Office, BLM. This fire is located 30 miles east of Jackpot, NV and is burning in grass, juniper, and sage. The fire activity was mainly in the interior.

NORTHERN ROCKIES LARGE FIRES:

FRONTIER, Fort Peck Agency, Bureau of Indian Affairs. This fire is located east of Wolf Point, MT. Fire is currently in a monitor and patrol status. No new information was received. This will be the last report unless significant changes occur.

OUTLOOK:

A weakening cold front will cross southern Idaho resulting in much cooler temperatures and a chance for rain showers. It will be mostly cloudy with high temperatures in the 50's and lower 60's with 40's in the mountains.

High pressure will give way to a weakening cold front from the west into Utah, Colorado and Wyoming. Temperatures will continue to be warm ahead of the front with locally gusty winds and low humidities in Wyoming and Colorado. High temperatures will be in the 60's and 70's with 50's in the mountains.

South Dakota will continue to be unseasonably warm under a large ridge of high pressure. The area will be mostly sunny with record and near record temperatures in the mid 70's to the mid 80's.

A large ridge of high pressure over Indiana, Illinois, Ohio and Kentucky will produce continued dry and unseasonably warm temperatures. It will be partly to mostly sunny with high temperatures in the 60's and 70's and near 80 degrees over southern Illinois.

A Pacific cold front will have crossed eastward producing mostly cloudy skies across California except for the extreme south where it will be partly cloudy. Scattered rain showers are expected over the northern and central sections of the state with high elevation snow showers in the Sierra Nevada range. Temperatures will be in the 50's and 60's in the north to the 60's and 70's in the south. The southern deserts will be in the 80's and the Sierra Nevada's will be 30 to 40 degrees.
