

INCIDENT MANAGEMENT SITUATION REPORT  
 FRIDAY, MAY 26, 2000 - 0530 MDT  
 NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

New large fires were reported in the Southwest, Southern California, and Southern Areas. A Type I Incident Management Team was mobilized in the Southern Area. The National Interagency Coordination Center processed orders for helicopters, airtankers, an air attack aircraft, radio equipment, caterers, a shower unit, meteorological equipment, crews, and miscellaneous overhead. Very high to extreme fire indices were reported in Arizona, New Mexico, Texas, California, Colorado, and Kansas.

SOUTHWEST AREA LARGE FIRES:

PUMPKIN, Kaibab National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire, which is 25 miles northeast of Flagstaff, AZ has burned into the Kendrick Wilderness Area. Containment is hampered by low fuel moistures, low relative humidity, steep topography, and strong winds. Threats are to nearby private structures and endangered species habitat.

MANGUM, Kaibab National Forest. This lightning caused fire is located ten miles southwest of Jacob Lake, AZ. Steep terrain and low relative humidities are hampering containment efforts.

OAK POINT, Kaibab National Forest. A Type II Incident Management Team (Joki) has been ordered. The fire is seven miles southwest of Jacob Lake, AZ. The cause of the fire is lightning.

CLOVER, Coconino National Forest. The fire is burning in ponderosa pine 55 miles southeast of Flagstaff, AZ. Erratic winds, low relative humidities, and long range spotting are hindering containment efforts. Crews are improving existing firelines and dropping hazardous snags.

CERRO GRANDE, Bandelier National Park. An Area Command Team (Edrington) and a Type II Incident Management Team (Praytor) are assigned to coordinate mop up and rehabilitation efforts.

CERRO GRANDE	NM	BAP	47650	100	---	694	20	5	7	235	NR	12.8M

SOUTHERN AREA LARGE FIRES:

KINSEY 2, Francis Marion and Sumter National Forests. A Type I Incident Management Team (Melton) has been ordered. This complex of eight fires is burning near Cordesville, SC in long needle pine and southern rough. Two airtankers dropped retardant on the fire. Intense fire behavior and lack of resources are hindering containment.

DM, Florida State Division of Forestry. The fire is burning in swampland and heavy fuels south of Ocala in Sumpter County. Three airtankers and one helicopter are providing air support. The fire was caused by lightning.

CARLTON RESERVE, Florida State Division of Forestry. The fire is ten miles northwest of Port Charlotte, FL. All crews have been released. Florida Division of Forestry aircraft will continue to monitor the fire.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

TAHQUITZ, San Bernardino National Forest. A Type II Incident Management Team (Conklin) has been ordered. This fire is 16 miles east of Hemet, CA. Current threats are to the San Jacinto Wilderness and State Park. The remoteness of the area and heavy fuels are causing control problems.

OUTLOOK:

\*\*\* A FIRE WEATHER WATCH IS POSTED IN NORTHERN NEW MEXICO FOR GUSTY WINDS AND LOW AFTERNOON RELATIVE HUMIDITIES \*\*\*

\*\*\* A FIRE WEATHER WATCH IS POSTED IN WESTERN FLORIDA FOR LOW AFTERNOON RELATIVE HUMIDITIES \*\*\*

Northern and central New Mexico will be partly cloudy with isolated afternoon and evening thunderstorms. Southern New Mexico will be mostly sunny. Winds will be west to northwest at 10 to 25 mph. High temperatures will range from the 70's and 80's in the north to the 90's in the south. Minimum relative humidities will be 15 to 20 percent.

Florida will be partly cloudy with isolated showers and thunderstorms. High temperatures will be 85 to 95. Winds will be southwest to west at 10 to 15 mph. Minimum afternoon relative humidities will be 35 to 45 percent.

Arizona will be mostly sunny. Winds will be west at 10 to 20 mph. High temperatures will be in the 70's and 80's in the north and up to 105 in the deserts. Minimum relative humidities will be 5 to 15 percent.

West Texas will be partly cloudy with isolated thunderstorms. High temperatures will be from the lower 90's to 102. Winds will be south at 5 to 15 mph. Afternoon relative humidities will be around 10 percent.

South Carolina will be partly cloudy with isolated afternoon and evening showers and thunderstorms. Winds will be east at 5 to 10 mph. High temperatures will be in the 80's. Minimum relative humidities will be 35 to 45 percent.
