

INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY, AUGUST 18, 2001 - 0630 MDT
NATIONAL PREPAREDNESS LEVEL 5

CURRENT SITUATION:

Three new large fires were reported, one each in Northwest, Northern Rockies, and Western Great Basin Areas. Three large fires reached containment, one each in Northwest, Western Great Basin and Northern California Areas. Initial attack activity was moderate in Southern California, Northwest, and Eastern Great Basin Areas and light elsewhere. Very high to extreme fire indices were reported in California, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, Washington and Wyoming.

NORTHWEST AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage large fires in eastern Washington. Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

r ICICLE COMPLEX, Wenatchee National Forest. A Type 1 Incident Management Team (Melton) has transitioned to the fire. This complex, consisting of the Upper 8 Mile and the Snowflake fires, is 6 miles southwest of Leavenworth, WA. Active fire behavior in timber fuels was observed due to erratic winds. Mandatory evacuation of residences has expanded along Icicle Creek Road.

VIRGINIA LAKE COMPLEX, Colville Agency, BIA. A Type 1 Incident Management Team (Lohrey) is assigned. This complex, comprised of the St Mary's, Goose Lake, and Virginia Lake fires, is 12 miles south of Okanogan, WA. Okanogan County has declared a state of emergency. Evacuation orders have been lifted in some areas though structure protection remains in place. Crews have made good progress with fireline construction.

MONUMENT COMPLEX, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Templeton) is assigned. This complex, comprised of the Birch Creek, Mallory, and twelve other fires, is 3 miles north of Monument, OR. Structures continue to be threatened in many areas around the fire perimeter. A significant burn out operation was successfully completed yesterday.

BREWSTER COMPLEX, Northeast Washington State. A Washington Interagency Incident Management Team (Furlong) is assigned. This complex, consisting of the Indian Dan, Gambol Mill, and eleven other fires, is 5 miles north of Brewster, WA. Road closures remain in effect on the Paradise Hill road. An evacuation order remains in place for residences in Swamp Creek.

r TONASKET COMPLEX, Okanogan National Forest. A Washington Interagency Incident Management Team (Dunton/Andring) is assigned. This complex, comprised of the Cape LaBelle, Windy Ridge, and Bailey Mountain/Action #214 fires, is near Tonasket, WA. Extreme fire behavior with significant spotting was observed. One hundred and fifty structures are threatened.

R BRIDGE CREEK, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Thorpe) is assigned. This fire is 45 miles southwest of La Grande, OR. Burn out operations around residences are nearly complete. Plans are in place to allow residents to return to previously evacuated areas.

OLALLIE LAKE COMPLEX, Mt. Hood National Forest. An Oregon Department of Forestry Incident Management Team (Ostman) is assigned. This fire is near Olallie Lake, OR. Torching and spotting up to *Vt.* mile ahead of the main fire was observed. The fire is moving to the east, driven by strong winds. Structure protection remains in place at the Olallie Lake Resort, and evacuation of the Pacific Crest Trail has been completed.

SPRUCE SPRINGS/DOME COMPLEX, Wenatchee National Forest. A Washington Interagency Incident Management Team (Baarspul/Ariss) is assigned. This complex, comprised of the Dome, Spiral Butte, and Spruce Springs fires, is burning in bug-killed timber 30 miles west of Yakima, WA. A mandatory evacuation order has been issued for the Cowichee Creek and Nasty Creek areas. Residents in the Ahtanum Creek and East Rimrock Lake area along the shore have been issued an voluntary evacuation request. The Dome fire continues to spread east along Cowichee Creek, spotting ahead of the main front.

REX CREEK COMPLEX, Wenatchee National Forest. A Type 2 Incident Management Team (Rios) is assigned. This complex of five fires is 34 miles northwest of Lake Chelan, WA in the Sawtooth Wilderness Area. A mandatory evacuation is in effect for the Flick Creek and Prince Creek areas along the shore of Lake Chelan. The fire burned actively in the Prince Creek Drainage and made major advances up East Fish Creek. Active fire along the shore of Lake Chelan has made it * necessary to move crews into and out of the fire area via water craft, hampering containment efforts.

QUARTZ, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Gilpin) is assigned. This fire is 10 miles southwest of Medford, OR. Crews are constructing direct attack fireline.

MT. LEONA COMPLEX, Colville National Forest. A Type 2 Incident Management Team (Dietrich) is assigned and a Type 1 Incident Management Team (Raley) is on order. This complex, comprised of the Sleepy, Leona, and Buckhorn fires, is burning in decadent stands of timber in Ferry County, WA. The Sleepy fire made major runs yesterday afternoon and will be managed as a separate incident once the Type 1 Team is in place. The Leona fire doubled in size and is within $\frac{1}{2}$ mile of private land. Numerous structures are threatened.

HORSE CREEK, Wallowa-Whitman National Forest. A Type 1 Incident Management Team (Stam) will transition to the fire today. This fire is 7 miles north of Imnaha, OR. Very active fire behavior was observed with frequent crowning and upslope runs with 200 foot flame lengths. The fire has spotted over the Imnaha River.

BIG CREEK, Umatilla National Forest. This fire, burning in the North Fork of the John Day Wilderness Area, is southeast of Ukiah, OR. Some torching and running was observed in stands of timber.

^LAKEVIEW COMPLEX, Fremont National Forest. A Type 1 Incident Management Team (Stutler) is ^{fc} assigned. This complex of fires is in the Lakeview, OR area. The complex consists of the Johnson Creek, South Warner, Mustang, Big Juniper and Horsehead fires. All firelines held and no major problems were encountered during the wind event that occurred yesterday. Acreage change *is* due to remapping using GPS.

WOLF CREEK, Burns District, BLM. A Type 2 Incident Management Team (Kearney) is assigned. This fire, burning in mixed timber, is 40 miles northeast of Burns, OR. Crews have made good progress with mopup.

SHEEPSHEAD, Burns District, BLM. A Type 2 Incident Management Team (Gardner) is assigned. This complex, consisting of the Sheepshead, Potluck and Stonehouse fires, is 75 miles southeast of Burns, OR. Favorable weather conditions allowed crews to construct direct attack fireline on the western perimeter of the Stonehouse fire.

ROCKY ELBOW, Colville Agency, BIA. This fire, burning in grass, brush and scattered timber, is 6 miles west of Inchelium, WA. Crews are constructing fireline around a significant spot fire.

NORTHERN CALIFORNIA AREA LARGE FIRES:

BLUE COMPLEX, Modoc National Forest. A Type 1 Incident Management Team (Gage) is assigned. This complex, comprised of the Blue, Shields and Canyon fires, is 13 miles east of Likely, CA. Evacuations of Blue Lake and Jess Valley remain in effect. Low fire activity allowed crews to make considerable progress with fireline construction. Contingency plans and structure protection are in place for the forecast wind event today.

TROUGH, Mendocino National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This fire, burning in timber and downed fuels in the middle fork drainage of Stony Creek, is 4 miles north of Stoneyford, CA. The fire is now in the Snow Mountain Wilderness with limited access. Resources are in place to protect historic structures in the fire area. Burn out operations are in progress on the north and south flanks.

MODOC COMPLEX, Modoc National Forest. A Type 2 Incident Management Team (Bright) is assigned. This complex, consisting of the Bell, Rock, Butte, Gulch and Kellogg fires, is near Canby, CA. Due to high temperatures, low relative humidity, and dry fuels, the incident is staging initial attack task forces to suppress all new starts with the Modoc National Forest. Mopup and monitoring of existing fires continues.

WESTERN GREAT BASIN AREA LARGE FIRES:

RSPAULDING CANYON, Winnemucca Field Office, BLM. This fire, burning in cheat grass, sagebrush and juniper, is 30 miles southwest of Winnemucca, NV. The fire spread significantly to the south yesterday and air operations were suspended due to extreme fire behavior. Residences, historic outbuildings and a power line are threatened.

CLEAR CREEK COMPLEX, Winnemucca Field Office, BLM. A Type 2 Incident Management Team (Shell) is assigned. This complex, comprised of the Clear Creek, Elbow and Sonoma fires, is 12 miles southeast of Winnemucca, NV. Very little fire activity was observed. Crews continue to improve and hold fireline on all divisions.

UPPER WILLOW, Humboldt-Toiyabe National Forest. A Type 2 Incident Management Team (Saleen) is on order. This fire is 60 miles north of Winnemucca, NV. The fire is burning northeast in the Santa Rosa Range with extreme fire behavior observed. Steep terrain, low fuel moisture and heavy fuel loading are hampering containment efforts.

NORTHERN ROCKIES AREA LARGE FIRES:

LOOKOUT MOUNTAIN, Idaho Department of Lands. A Type 2 Incident Management Team (Specht) is assigned. This fire, burning in alpine fir and brush, is 20 miles north of Coolin, ID. Moderate ground fire with some torching was observed. An historic lookout and wildlife habitat are threatened. Steep, rugged, inaccessible terrain is impeding containment efforts.

WERNER PEAK COMPLEX, Northwestern Land Office, Montana Department of Natural Resources. A Type 2 Incident Management Team (Swope) is assigned. This complex, consisting of the Werner Peak, Mystery Dog, Anice and Cat fires, is 7 miles north of Whitefish, MT. The Moose fire has been added to this complex. Crews have established anchor points and are making good progress with fireline construction.

MONITOR CREEK, Gallatin National Forest. A Type 2 Incident Management Team (Milburn) is assigned. This complex, comprised of the Monitor Creek and Hoppe fires, is 11 miles north of Gardiner, MT. Crews continue with mop-up operations.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	CTD

EASTERN GREAT BASIN LARGE FIRES:

ELK CREEK, Payette National Forest. A Type 2 Incident Management Team (Stanich) is assigned. This fire is 15 miles east of Warren, ID. The fire made a significant run to the northeast. Anchor points have been established and crews are constructing fireline. An area road closure is in effect on the McCall Ranger District.

SNOW CREEK, Lower Snake River District, BLM. This fire, burning in grass, sagebrush and aspen stands, is 18 miles south of Grassmere Station, ID. Little active fire behavior was observed, and crews are mopping up.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	CTD

OUTLOOK:

r *** A RED FLAG WARNING HAS BEEN POSTED IN NORTHEAST CALIFORNIA FOR STRONG SOUTHWEST WINDS AND LOW RELATIVE HUMIDITY ***

*** A FIRE WEATHER WATCH HAS BEEN POSTED IN NORTHWEST NEVADA FOR GUSTY WINDS AND LOW RELATIVE HUMIDITY ***

*** A FIRE WEATHER WATCH HAS BEEN POSTED ON THETAHOE AND ELDORADO NATIONAL FORESTS FOR STRONG SOUTHWEST WINDS AND LOW RELATIVE HUMIDITY ***

*** A FIRE WEATHER WATCH HAS BEEN POSTED IN EASTERN MONTANA FOR AFTERNOON AND EVENING DRY LIGHTNING AND LOW RELATIVE HUMIDITY ***

*** A FIRE WEATHER WATCH HAS BEEN POSTED IN UTAH FOR STRONG, GUSTY WINDS AND A DRY, UNSTABLE AIRMASS OVER THE WESTERN DESERTS AND DESERT MOUNTAIN RANGES ***

Weakening low pressure over the Pacific Northwest will allow a cold front to move across the area resulting in partly cloudy to mostly sunny skies. High temperatures will be in the upper 50's to mid 60's along the coast, in the 70's west of the Cascade Range, and 75 to 85 in the east. Minimum relative humidity will range from 35 to 45 percent in the west and 20 to 30 percent in the east, except 10 to 20 percent in southeast Oregon. Winds will be west at 15 to 25 mph, with gusts to 30 mph in the Columbia River Gorge and Kittitas Valley.

Strong high pressure over Northern California will bring fair to partly cloudy skies. High temperatures will be in the upper 80's to 90's and minimum relative humidity will range from 10 to 20 percent inland. Winds will be southwest to west at 8 to 18 mph, with local gusts from 23 to 30 mph in the afternoon.

High pressure over Western Great Basin will bring sunny skies. A slight chance of thunderstorms is forecast in southern Nevada due to subtropical moisture moving up from the south. High temperatures will be in the mid 80's to mid 90's in the north and 109 to 114 in the south. Minimum relative humidity will range from 5 to 15 percent in Utah and 10 to 25 percent in Idaho. Winds will be west to southwest at 15 to 30 mph, with gusts to 40 mph in Utah.

High pressure will shift east over Utah allowing a cold front to move across Idaho. Mostly sunny to partly cloudy skies with isolated thunderstorms are forecast. High temperatures will be 85 to 95 in the mountains and 90 to 105 at lower elevations. Minimum relative humidity will range from 8 to 22 percent, and winds will be west at 10 to 20 mph.

An approaching cold front moving into Northern Rockies will bring partly cloudy to mostly sunny skies with dry afternoon and evening thunderstorms. High temperatures will be 80 to 95 in the upper elevations and in the mid 90's to 100 at lower elevations and in eastern Montana. Minimum relative humidity will range from 10 to 20 percent, except 7 to 10 percent in eastern Montana. Winds will be southeast to southwest at 10 to 15 mph.
