

**INCIDENT MANAGEMENT SITUATION REPORT  
THURSDAY, SEPTEMBER 4, 2003 - 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 5**

**CURRENT SITUATION:**

Initial attack activity nationwide was light. Nationally, 151 new fires were reported. Three new large fires were reported, one in the Northern Rockies Area and two in the Northwest Area. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Montana, Nevada, North Dakota, Oregon, Washington and Wyoming.

**NORTHERN ROCKIES AREA LARGE FIRES:**

An Area Command Team (Mann) is assigned to manage Blackfoot Lake Complex, Wedge Canyon, Robert, Middle Fork Complex, Trapper Creek Complex, Crazy Horse, Rampage Complex, and Little Salmon Creek Complex. An Area Command Team (Ribar) is assigned to manage Mineral-Primm, Fish Creek Complex, Black Mountain 2, Cooney Ridge and Gold 1.

MYRTLE CREEK, Idaho Panhandle National Forest. This fire is in logging slash and timber, five miles northwest of Bonners Ferry, ID. Active fire behavior with numerous runs and torching was observed.

BLACKFOOT LAKE COMPLEX, Flathead National Forest. A Type 1 Incident Management Team (Mortier) is assigned. This incident, comprised of the Beta Lake, Doris Mountain, Lost Johnny, Ball Creek, Wounded Buck, Doe, Wildcat, Upper Lid, Dead Buck, Blackfoot Lake and Mid fires, is in timber, 19 miles east of Kalispell, MT. Fire behavior was limited through late afternoon due to a heavy inversion. Creeping ground fire with isolated torching was observed. Structure protection is in place for 55 residences.

MIDDLE FORK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned. This incident, comprised of the Belton, Center and Harrison fires, is in timber, five miles east of West Glacier, MT. Moderate ground fire with occasional torching was observed. Structure protection is in place for 20 residences.

WEDGE CANYON, Flathead National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is in sub-alpine fir with down fuels, 14 miles northwest of Polebridge, MT. Fire behavior was moderate due to an inversion, however; torching, and short range spotting were observed. Structure protection is in place for 80 residences.

RAMPAGE COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned. This incident, comprised of the Double Mountain 1, Double Mountain 2, Riverview 1, Riverview 2 and Rampage, is in timber, 15 miles southeast of West Glacier, MT. The Double Mountain 1 and 2 fires have grown together. The potential is high for the fire to cross the divide. Moderate surface fire with occasional torching was observed. Structure protection is in place for 127 residences.

ROBERT, Flathead National Forest. A Type 1 Incident Management Team (Cable) is assigned. This fire is in timber, eight miles north of Columbia Falls, MT. Fire behavior was minimal, characterized by slow burning ground fire with occasional torching. Structure protection is in place for 100 residences and six commercial properties.

TRAPPER CREEK COMPLEX, Glacier National Park. A Type 1 Incident Management Team (Cable) is assigned to the Trapper Creek, Paul Bunyan and Trout fires; a Type 2 Incident Management Team (Saleen) is assigned to the Wolf Gun fire. The complex is in mixed conifer with dead and down fuels, 45 miles northeast of Kalispell, MT. Minimal fire activity with short upslope runs was observed. Structure protection is in place for three commercial properties.

CRAZY HORSE, Flathead National Forest. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is in mixed conifer with heavy dead and down fuels, eight miles southwest of Condon, MT. Ground fire with torching and spotting occurred in the Mission Mountains Wilderness. Isolated creeping fire was observed outside the wilderness. A contain/confine strategy using natural barriers is being implemented on the west flank in the Mission Mountains Wilderness.

FISH CREEK COMPLEX, Lolo National Forest. A transfer of command from Stam's Type 1 Incident Management Team to Lohrey's Type 1 Incident Management Team will begin today. U.S. Army Task Force Steel Dragon (2nd Battalion, 82nd Field Artillery Regiment) commanded by Lt. Col. Gregory Schultz, at Fort Hood, TX is assigned. This incident, comprised of the Fish Creek, Thompson Creek, Surveyor Creek, Lower Quartz, Siamese Lake, Indian Creek, Middle Fork Indian Creek, Cedar Log and West Fork Indian Creek fires, is 35 miles west of Missoula, MT. Burn out operations have been completed along the east flank. An inversion over the area through mid-afternoon limited activity to surface fire with occasional torching. Structure protection is in place for 195 residences and one commercial property.

MINERAL-PRIMM, Lolo National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This incident, comprised of the Mineral-Primm, Stuart Peak, Upper Rattlesnake, and Boles Meadows fires, is in timber, 19 miles northeast of Missoula, MT. Warmer temperatures with low relative humidity levels and stronger afternoon winds increased fire activity. Torching, spotting and surface fire have been observed throughout the incident.

COONEY RIDGE, Southwestern Land Office, Montana Department of Natural Resources & Conservation. A Type 2 Incident Management Team (Kechter) is assigned. This incident, comprised of the Cooney Ridge, Gratton Gulch, Gilbert and Strawberry fires, is in timber, 11 miles east of Florence, MT. Slow moving ground fire with isolated torching was observed. Structure protection is in place for 100 residences.

GOLD 1, Bitterroot National Forest. A Type 2 Incident Management Team (Swope) is assigned. This fire is in heavy timber, nine miles northeast of Corvallis, MT. Minimal fire activity with individual and group torching was observed.

LINCOLN COMPLEX, Helena National Forest. A transfer of command from Studebaker's Type 1 Incident Management Team to Hoff's Type 2 Incident Management Team occurred yesterday. This complex, comprised of the Moose-Wasson and Snow-Talon fires, is ten miles west of Lincoln, MT. Active surface fire, multiple tree torching and short range spotting occurred. Structure protection is in place for 20 residences. All evacuation orders have been lifted, with the exception of those in Tom's Gulch.

CATHEDRAL PEAK COMPLEX, Custer National Forest. A Type 2 Incident Management Team (Benes) is assigned. This incident, comprised of the Cathedral Peak, Oliver and Salderbalm fires, is in timber, ten miles south of Nye, MT. Isolated surface fire and occasional torching was observed on steep slopes. Fire continued backing down slope toward the South Fork Stillwater River. Structure protection is in place for 30 residences and one commercial property.

RATHBONE, Gallatin National Forest. A Type 2 Incident Management Team (Walker) is assigned. This fire is in timber, 17 miles northwest of West Yellowstone, MT. Moderate fire behavior with isolated torching and short runs was observed. Highway 191 is open through the fire area with a pilot car.

WINSLOW, Central Land Office, Montana Department of Natural Resources & Conservation. This fire is in timber, five miles southwest of Lakeview, MT. Due to wildfire activity on Red Rock Lake National Wildlife Refuge, portions of the refuge will be temporarily closed to all access including hunting. Minimal fire behavior with isolated torching was observed.

BEAVER LAKE COMPLEX, Clearwater National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This incident, comprised of the Beaver Lake, Siah Lake, Moose Lake, Lily Lakes, Bears Oil, Cayuse, Eagle Creek, Eagle Creek East, Fish, Queen Creek, North Howard and Hopeful 2 fires, is 19 miles southwest of Missoula, MT. North Howard and Lily Lakes fires are contained. Small group torching with minor surface runs was observed.

SLIM'S COMPLEX, Nez Perce National Forest. A transfer of command from Sexton's Type 1 Incident Management Team to a Type 3 organization will occur today. This complex, comprised of the Slim's, Stillman and Poet fires, is 35 miles east of Grangeville, ID. Slow surface spread and torching were observed.

SAPP, Nez Perce National Forest. A transfer of command from Sexton's Type 1 Incident Management Team to a Type 3 organization will occur today. This incident, comprised of the Sapp and Richardson fires, is in timber and grass, 22 miles south/southeast of Elk City, ID. Active surface fire and torching were observed on the Richardson fire. Minimal fire activity was observed on the Sapp fire. Structure protection is in place for two residences.

CAYUSE LAKE COMPLEX, Clearwater National Forest. A Fire Use Management Team (Cones) is assigned. This incident, comprised of 44 fires, is in timber, 41 miles southwest of Lolo, MT. Fire activity increased slightly; some open flame and occasional torching were observed. All fires in this complex are suppression fires under a confinement strategy.

BURNT RIDGE SHEEP CAMP COMPLEX, Lewis and Clark National Forest. A Type 2 Incident Management Team (Larsen) is assigned. This complex, comprised of the Burnt Ridge, Ant Park, Sheep Camp and Pioneer Ridge fires, is 12 miles southeast of Neihart, MT. Fire activity was minimal for the majority of the fire with more activity occurring along the Smith River.

ROUGH DRAW COMPLEX, Gallatin National Forest. This complex, comprised of the Rough Draw, Slippery Rock, Speculator 1, Speculator 2, Elbow, Brundage, Walbrun and Hawley fires, is five miles southeast of Livingston, MT. Isolated smokes and minimal open flame were observed throughout the complex.

CHERRY CREEK COMPLEX, Lolo National Forest. This incident, comprised of the Cherry Creek and Tepee Creek fires, is in lodgepole pine with heavy ground fuels, 12 miles southeast of Thompson Falls, MT. The Tepee fire is 100 percent contained and the Cherry Creek fire is 85 percent contained. The Cherry Creek fire will remain 85 percent contained because 15 percent is inaccessible where control lines cannot be constructed safely. The fire will be contained or controlled when a major precipitation event occurs. Minimal fire activity was observed.

EAST COMPLEX, Yellowstone National Park. This incident, comprised of the East and Grizzly fires, is ten miles east of Fishing Bridge Junction, WY. Activity was minimal with some surface fire and occasional torching.

MOLLMAN, Flathead Agency, Bureau of Indian Affairs. This fire is in timber, five miles southeast of Ronan, MT. No new information was received.

UNION, Yellowstone National Park. This fire is in timber, 35 miles east of Ashton, ID. Fire behavior was minimal. The fire is in monitor status.

## NORTHWEST AREA LARGE FIRES:

**B&B COMPLEX**, Deschutes National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This complex, comprised of the Booth and Bear Butte fires, is in timber with heavy ground fuels, 14 miles west of Sisters, OR. Plume dominated fire behavior and significant runs occurred on the Booth fire west of the Cascades. Containment efforts and natural barriers slowed the spread of the Bear Butte fire. A closure order remains in effect for Willamette National Forest land south of USFS Rd 225 near Marion Forks, east to the wilderness boundary, west to State Highway 22, and south to the junction of State Highway 22 and 20. Structure protection is in place at Camp Pioneer, a Boy Scout camp located at Pine Ridge Lake.

**SQUARE LAKE FIRE**, Okanogan/Wenatchee National Forest. This fire is in continuous old growth forest, mixed conifer, heavy dead and downed fuels, and mixed conifer regeneration, 20 miles west of Leavenworth, WA. Fire behavior consisted of slow backing and isolated torching. Trail and area closures in upper Icicle Creek drainage remain in effect.

**GLACIER PEAK COMPLEX**, Mt. Baker-Snoqualmie National Forest. This incident is in timber, brush and heavy downed fuels, 16 miles southeast of Marblemount, WA. Dome Creek was active. Extreme fire behavior occurred after the inversion lifted. Backing, torching and long narrow runs were observed.

**MOUNT RAINIER COMPLEX**, Mount Rainer National Park. This complex, comprised of the Panther, Redstone and Chenuis fires, is in heavy timber with heavy down fuels, 13 miles northeast of Packwood, WA. The Panther fire was smoldering. Torching, running and spotting was observed on the Redstone fire..

**MINERAL PARK**, Mt Baker-Snoqualmie National Forest. This fire is in heavy timber and second growth, brush and deep duff, 16 miles southeast of Marblemount, WA. The fire ran on south and north slopes of the Middle Fork of the Cascade River.

**HERMAN**, Columbia River Gorge National Scenic Area, Forest Service. This fire is in brush, hardwood slash, grass and timber at the east end of the community of Cascade Locks, OR. The fire was running in grass, and smoldering in duff and heavy fuel. Interstate 84 between Troutdale and Hood River was closed. Residents of Cascade Locks were evacuated.

**NOCA COMPLEX**, North Cascades National Park. This previously reported lightning-caused Wildland Fire Use (WFU) incident, which began on 8/19 is 5 miles north of Diablo, WA. This fire is in timber, five miles north of Diablo, WA.

**NEEDLE**, Okanogan/Wenatchee National Forest. A Type 2 Incident Management Team (Berndt/Andring) is assigned. This fire is in timber, 22 miles northwest of Winthrop, WA. Fast moving ground fire and torching was observed.

## ROCKY MOUNTAIN AREA LARGE FIRES:

NORRIS, Shoshone National Forest. This fire is in timber 35 miles west of Cody, WY, and was previously reported as part of the Blackwater Complex. Ground fire and the consumption of heavy fuels were observed.

BOULDER BASIN 2, Shoshone National Forest. This fire is in grass, sagebrush and timber, 25 miles southwest of Cody, WY. No new information was reported. This will be the last report unless new information is received.

BLACKWATER, Shoshone National Forest. This fire, in timber with a large component of downed beetle killed spruce and fir, is 30 miles west of Cody, WY. It was previously reported as part of the Blackwater Complex. Interior consumption of heavy fuels was observed.

## NORTHERN CALIFORNIA AREA LARGE FIRES:

COD COMPLEX, Tahoe National Forest. A Type 2 Incident Management Team (Wendt) is assigned. This fire, comprised of the Codfish fire and approximately 25 additional lightning fires, is in mixed conifer with heavy dead and down fuels, six miles northeast of Foresthill, CA. Running surface fire, occasional torching, and short range spotting occurred on the Codfish fire. All other fires in the complex have been staffed and contained, or declared out.

## OUTLOOK:

**Weather Discussion:** High pressure will continue to control the weather over most of the western states for one more day, with temperatures staying above normal. However, flow around the western side of the high pressure system will continue to feed moisture into the Northwest Area as well as into central Idaho. This moisture with this system is limited and should spark a mixture of wet and dry thunderstorms.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>NORTHERN ROCKIES AREA</b> Mostly Sunny. A late afternoon dry thunderstorm in Idaho and in northwest Montana	80 to 100	10 to 20%	West of the Divide: Variable less than 6 mph. In the afternoon, West 5 to 15 mph. East of the Divide: west to south 5 to 15 mph.
<b>NORTHWEST AREA</b> Partly sunny. Chance of thunderstorms across much of region.	Highs 85 to 95, but locally to 100 eastern Oregon. Highs 65 to 75 coast.	Still very dry. Most areas 10 to 20%, locally 5 to 10% eastern Oregon.	Light and variable winds becoming north to northwest 5 to 15 mph by afternoon.
<b>EASTERN GREAT BASIN AREA</b> Idaho, Bridger-Teton: Partly cloudy. Slight chance of thunderstorms Snake River south. Utah, Arizona Strip: Partly cloudy. Slight chance of showers and thunderstorms.	Idaho, Bridger-Teton: 65 to 80 mountains, 80 to 94 valleys. Utah and Arizona Strip: 64 to 84 higher elevations, 84 to 98 valleys.	Idaho, Bridger-Teton: 20 to 35% mountains, 12 to 25% valleys. Utah, Arizona Strip: 12 to 25% valleys, 25 to 40% mountains.	Idaho, Bridger-Teton: Upslope/up valley: 3 to 6 mph. Utah, Arizona Strip: Upslope/up valley: 3 to 8 mph.
<b>ROCKY MOUNTAIN AREA</b> Becoming Partly Cloudy with isolated showers and thunderstorms over southern Colorado, otherwise dry.	80 to lower 90s at lower elevations, 65 to 75 in the mountains.	13 to 21% western Colorado, Wyoming and Western South Dakota. 21 to 31% elsewhere.	Variable 5 to 15 mph

<p><b>NORTHERN CALIFORNIA AREA</b> A chance of isolated to scattered showers or thunderstorms in the north in a.m. hours, and from the Cascade/Sierra crest eastward in p.m. hours. Areas of fog near the coast, mainly in the morning hours.</p>	<p>60s and 70s coast and in the higher mountains, with 80s and 90s in lower inland terrain</p>	<p>Inland areas: 16 to 30% in the west. 20 to 38% in the east. 45 to 65% near the coast.</p>	<p>South to west 7 to 17 mph, except brief gusts 20 to 35 mph under or near thunderstorms.</p>
<p><b>SOUTHERN CALIFORNIA AREA</b> Mostly sunny coastal areas. Partly cloudy with a chance of showers and thunderstorms over the mountains and deserts in the afternoon.</p>	<p>70 to 80 in the coastal areas. 80 to 90 in the mountains. 88 to 98 in the valleys. 90s in the upper desert. 102 to 108 low desert.</p>	<p>20 to 35% desert. 20 to 35% mountains. 20 to 35% valleys. 50 to 65% coast.</p>	<p>Southwest 8 to 15 mph.</p>
