OUTLOOK:

Fire Weather Watches: Gusty north to northeast winds and low humidity for the Lake-Napa-Sonoma counties (California Department of Forestry & Fire Protection Units), the Bay Area, the Sacramento Valley and surrounding foothills.

Weather Discussion: A westerly flow across the Pacific Northwest and the Northern Rockies will bring scattered showers to the mountains and areas west of the Cascades. This flow will also bring strong, gusty winds to portions of Montana over and east of the Continental Divide. In California, gusty north to northeast winds will bring warmer temperatures and lower humidity levels, especially in northern California.
