

**INCIDENT MANAGEMENT SITUATION REPORT  
SATURDAY, AUGUST 13, 2005 – 0800 MDT  
NATIONAL PREPAREDNESS LEVEL 3**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 183 fires reported. Four new large fires were reported, three in the Southern Area and one in the Northern Rockies Area. Seven large fires were contained, two in the Northwest Area and one each in the Northern Rockies, Eastern Great Basin, Northern California, Southern and Alaska Areas. Very high to extreme fire indices were reported in Alaska, California, Idaho, Kansas, Minnesota, Montana, Nevada, Oregon, Utah and Washington.

**NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:**

BLACKERBY, Maggie Creek Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Larsen) is assigned. This fire is six miles southeast of Grangeville, ID in timber. Private residences, outbuildings, threatened and endangered species habitat and power lines remain threatened. Structure protection measures continue to be implemented. The fire burned actively up both sides of the South Fork of the Clearwater River.

LONG RUGGLES, Craig Mountain Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Blume) is assigned. This fire is 22 miles southwest of Craigmont, ID in timber and brush. Residences and big game winter range habitat are threatened. Steep, rocky terrain and limited access are impeding containment efforts. Slopovers and spot fires were contained. Burn out operations were completed.

CHINA TEN, Nez Perce National Forest. A Type 2 Incident Management Team (Thomas) is assigned. This fire is 15 miles east of Grangeville, ID in beetle killed lodgepole pine and subalpine fir. A Native American cultural area and historic lookout are threatened. Smoky conditions are hindering containment efforts and accurate perimeter assessments. Isolated crown runs, torching and short range spotting were reported.

I-90, Lolo National Forest. A Type 1 Incident Management Team (Sandman) is assigned. This fire is one mile south of Alberton, MT in timber, and includes the West Mountain, Tarkio, Fish and Alberton East fires. West Mountain community residents remain evacuated. Private residences, commercial properties, recreational sites and a major power grid remain threatened. River access points remain closed. Structure protection is in place. Steep, rugged terrain continues to impede containment efforts. Short sustained crown runs, torching and spotting was observed. The incident received some precipitation, moderating fire activity to smoldering in the afternoon.

PROSPECT, Lolo National Forest. A Type 2 Incident Management Team (Cowin) is assigned. This fire is 12 miles south of Superior, MT in timber. Structures and historical sites remain threatened. Poor access and heavy fuels continue to hinder containment efforts. Smoldering with single tree torching was observed. Thunderstorm activity brought minimal precipitation to the incident.

WEST FORK, Nez Perce National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is 26 miles south of Grangeville, ID in Douglas fir and ponderosa pine. Limited access, heavy smoke and steep terrain is hindering containment efforts. Torching, short range spotting and extreme rates of spread were reported.

CB RANCH MUTUAL AID, Bitterroot National Forest. A Type 2 Incident Management Team (Benes) is assigned and will manage this incident in conjunction with the Rockin fire. This fire started on private land one mile east of Darby, MT in timber, sage and grass. Structures along the Bitterroot River are threatened. Torching within interior islands continues.

CEDAR, Clearwater National Forest. This fire is 18 miles northwest of Kooskia, ID in timber. Elk Summit Guard Station and recreational facilities are threatened. Steep and rugged terrain are impeding containment efforts. Active fire behavior with creeping, torching and spotting continues.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. This lightning-caused Wildland Fire Use (WFU) complex, comprised of thirty-seven fires, is 26 miles southwest of Hamilton, MT in timber and grass. This complex now includes the El Capitan and Elk Lake fires, previously reported as separate incidents. The complex is being managed to accomplish resource objectives. Deep Creek campground, Hells Half Acre Lookout and Coopers Flat Ranger Station remain potentially threatened. Short uphill runs and torching were observed. Three fires reported moderate growth.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain, abundant snags and limited access continue to hamper containment efforts. The Black Canyon fire reported active fire behavior with crown runs and isolated torching in the interior. The Long Creek fire continues to creep and smolder. The Long Black fire will be in monitor status.

ROCKIN, Bitterroot National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is 10 miles northwest of Darby, MT in timber. An area closure is in effect for the Rock Creek trailhead and the west end of Lake Como. Residences and cultural sites remain threatened. Narrow canyons, steep, rocky terrain and adverse weather conditions continue to hamper containment efforts. Torching within interior pockets of fuel continues.

LIMESTONE PEAK, Flathead National Forest. A transfer of command from a Fire Use Management Team (Cook) back to the local unit will occur today. This fire is being managed in conjunction with the Kelly Point fire using a confine suppression strategy. This fire, located in the Bob Marshall Wilderness, is 41 miles southeast of Bigfork, MT in timber, shrub and grass. Higher relative humidity and precipitation reduced fire activity to smoldering. Portions of the Silvertip Creek Trail #89 will be reopened to the public.

KELLY POINT, Flathead National Forest. A transfer of command from a Fire Use Management Team (Cook) back to the local unit will occur today. This fire is being managed in conjunction with the Limestone Peak fire. The fire is 38 miles southeast of Bigfork, MT in timber, and will be managed with a confine suppression strategy. The South Fork of the Flathead River between Big Salmon Creek north to the Meadow Creek Trailhead will be opened to float trips. Portions of the Westside and Mid Creek trail will be reopened. Precipitation and higher relative humidity reduced the fire activity to smoldering.

ELK COMPLEX, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Penny, Ridgetop, Ditch Creek and Elk Creek fires, is 30 miles east of Lowell, ID in ponderosa pine and mixed conifer. The complex is being managed to accomplish resource objectives. No new information was reported.

WOUNDED DOE, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) incident is 20 miles northeast of Lowell, ID in lodgepole pine and mixed conifer. The fire is being managed to accomplish resource objectives. No new information was reported.

WYLIES, Nez Perce National Forest. This lightning-caused Wildland Fire Use (WFU) incident is 20 miles northeast of Elk City, ID in subalpine fir. The fire is being managed to accomplish resource objectives. Trail closures are in effect. No new information was reported.

### NORTHWEST AREA INCIDENTS / LARGE FIRES:

SCHOOL, Umatilla National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This fire is 16 miles south of Pomeroy, WA in timber. Steep terrain and rolling debris are hampering containment efforts. Higher relative humidity moderated fire behavior. Increase in acreage is due to successful burn out operations.

**BLOSSOM COMPLEX**, Siskiyou National Forest. A Unified Command has been established between a Type 1 Incident Management Team (Lohrey) and an Oregon Department of Forestry Incident Management Team (Hunt). This complex, comprised of the Blossom, Huggins and Solitude fires, is 25 miles northeast of Gold Beach, OR in timber. Private structures, commercial rafting sites, historic mines and wildlife habitat along the Rogue River remain threatened. A river closure to rafters on the Rogue River has been implemented. Inaccessible terrain and rolling debris continue to impede containment efforts. Slow downhill backing was reported. The Solitude fire has been contained.

**TRYON COMPLEX**, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Lunde) is assigned. This complex, comprised of the Haas Ridge, Tryon and Cherry Creek fires, is 20 miles north of Imnaha, OR in timber and grass. Road closures are in effect. Residences, electrical transmission line, historic resources, grazing allotments and wildlife habitat are threatened. Steep terrain, smoky conditions and limited access are hindering containment efforts. Structure protection measures continue. Active fire behavior was reported.

**HARKER CANYON**, Washington State Department of Natural Resources – Northeast. A Washington Interagency Incident Management Team (Holloway/Reed) is assigned. This fire is nine miles northeast of Davenport, WA in timber, brush and grass. An evacuation order remains in effect. Residences, archaeological sites, outbuildings and recreational facilities in Mill Creek and Harker Canyon are threatened. Burn out operations have been completed. Isolated torching in unburned islands with creeping and smoldering was reported.

**DIRTY FACE**, Washington State Department of Natural Resources - Southeast. A Washington Interagency Incident Management Team (Furlong/Gormley) is assigned. This fire is 25 miles northwest of Leavenworth, WA in timber. Steep, inaccessible terrain continues to hinder containment efforts. An evacuation notice and structure protection measures are in place for nearby residences. Private residences, historic sites, a state park and endangered species habitat remain threatened. Occasional torching in interior islands of unburned fuel was observed.

**LICK CREEK**, Washington State Department of Natural Resources – Southeast. A Washington Interagency Incident Management Team (Berndt/LaFave) is assigned. This fire is eight miles north of Cle Elum, WA in logging slash, brush understory, timber and grass. Minimal fire activity was reported.

**SPRING CREEK**, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Johnson) has been ordered. This fire is 10 miles west of La Grande, OR in timber and grass. The fire activity was characterized by smoldering and creeping.

**GRANITE COMPLEX**, Wallowa-Whitman National Forest. A Wildland Fire Use Team (Cones) has been ordered. This lightning-caused Wildland Fire Use (WFU) incident is 30 miles east of Enterprise, OR in timber and grass. A historic cabin is threatened and structure protection measures are being implemented. The fire is in monitor status and is being managed to meet resource objectives. Moderate to low fire activity with short uphill runs and backing downhill fire was reported.

### ALASKA AREA INCIDENTS / LARGE FIRES:

BOUNDARY CREEK, Alaska Fire Service, Upper Yukon Zone, Bureau of Land Management. This fire started on Alaska Native Claims Settlement Act land six miles southeast of Eagle, AK in black spruce and hardwood litter. A portion of the fire is in Canada. Structures in Dome Creek are threatened. Structure protection measures have been initiated. Running and flanking fire with individual tree torching was observed.

GRAYLING CREEK, Alaska Fire Service, Galena Zone. This fire is 15 miles northwest of Anvik, AK in timber. Native allotments, high timber values and Anvik River fisheries remain threatened. Structure protection is in place for residences along the Anvik River. Smoky conditions halted aviation operations and limited river boat movement. Moderate fire activity was reported.

MISSION CREEK, Alaska Fire Service, Upper Yukon Zone. This fire started on Alaska Native Claims Settlement Act land nine miles west of Eagle, AK in black spruce and tundra. This fire has been placed in monitor status. Smoldering on ridge tops and backing fire was observed.

### EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

CADAGAN COMPLEX, Salmon-Challis National Forest. Type 2 Incident Management Team (Brunner) is assigned. This complex, comprised of the Hale Gulch and Bear Basin fires, is 15 miles west of North Fork, ID in Douglas fir and heavy dead and downed fuels. Private residences and commercial property remain threatened. Difficult access, rolling materials and steep terrain are hampering containment efforts. Smoke is impacting local communities. Intense surface fire with torching, creeping and smoldering was reported.

FRANK CHURCH, Payette National Forest. A Fire Use Management Team (Bonefeld) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, comprised of the Root, Center and Missouri Ridge fires, is 32 miles west of Shoup, ID in timber. The fire is being managed to accomplish resource objectives. Slow to moderate rates of spread with isolated torching and spotting continue.

TFD - Twin Falls District, Bureau of Land Management

### SOUTHERN CALIFORNIA AREA INCIDENTS / LARGE FIRES:

PINYON COMPLEX, Inyo National Forest. This complex, comprised of the Oak Creek, Pinyon and Hogback fires is six miles northwest of Independence, CA in timber and brush. No new information was reported.

COMB COMPLEX, Sequoia & Kings Canyon National Park. A Fire Use Management Team (Clark) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Comb and East Creek fires is 18 miles northeast of Grant Grove, CA in mixed conifer and chaparral. The fire is being managed to accomplish resource objectives. The fire continues to back with isolated pockets of torching reported.

### SOUTHERN AREA INCIDENTS / LARGE FIRES:

MAPLE CREEK, Texas State. This fire started on private land, 15 miles southeast of Clarksville, TX in logging slash. Residences and a campground are threatened. Remote access is hindering containment efforts. Gusting winds caused very active fire behavior.

4010, Texas State. This fire is five miles southeast of Davenport, TX in brush and oak. An exotic game ranch was threatened, and successful structure protection efforts were achieved. Torching and spotting were reported.

REREG COMPLEX, Ouachita National Forest. This complex is eight miles east of Broken Bow, OK in timber. A weight restriction of 20 tons for the Mountain Fork River Bridge is creating long distance detours. No further information was received.

### EASTERN AREA INCIDENTS / LARGE FIRES:

ALPINE LAKE, Superior National Forest. A Type 2 Incident Management Team (Stegmier) is assigned. This fire is 44 miles northeast of Ely, MN in timber. Private structures remain threatened, and structure protection is in place. The fire has spotted to a second island, and gusty winds are hampering containment efforts. Short runs and torching was observed. The interior of the fire continues to burn.

TGU - California Department of Forestry and Fire Protection (CDF), Tehama-Glenn Unit

### OUTLOOK:

**Fire Weather Watch:** For Northeast Winds over the Northeast Interior of Alaska.

**Weather Discussion:** Temperatures will continue to be cool over the Northern Rockies today with a warming trend along the West Coast. Showers and thunderstorms will continue in southern Montana and northern Wyoming. Afternoon scattered wet thunderstorm activity in the Southwest, however coverage will continue to be on the decline. Decrease in afternoon cloud cover over the Southwest will allow temperatures to rival warmest days this week. Offshore flow along the Oregon coast will sustain dry conditions and poor relative humidity recoveries overnight. The upper level high pressure ridge over Alaska will hold strong for continued warm and dry conditions.

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<b>Northern California</b> Sunny. Areas of morning coastal fog or low clouds.	Mostly 80s and 90s with up to near 104 interior valleys.	7 to 20% driest inland areas.	Rather variable across the Geographic Area 3 to 10 mph and locally gusty.
<b>Western Great Basin</b> Mostly sunny skies northern, central and western Nevada. In the southeast, isolated to scattered showers and thunderstorms.	North Valleys: 84 to 96. South Valleys: 90 to 105. Mountains: 74 to 90.	North Valleys: 8 to 18%. South Valleys: 10 to 24%. Mountains: 12 to 30%.	Southwest to northwest 5 to 15 mph, gusts 25 to 35 mph in the northeastern part of Nevada and gusts to 20 or 25 mph elsewhere.
<b>Southern California</b> Morning low clouds and fog coastal areas, otherwise mostly sunny in the morning becoming partly cloudy in the afternoon with isolated showers and thunderstorms over the Sierra, Inyo, and the eastern Deserts.	79 to 90 mountains. 85 to 92 valleys. 95 to 100 upper deserts. 95 to 105 lower deserts.	10 to 30%.	Southeast to southwest 5 to 15 mph.
<b>Eastern Great Basin</b> Mostly sunny regionwide. Isolated showers western Wyoming. Scattered showers and thunderstorms southern Utah mountains.	Idaho, Bridger-Teton: 52 to 66 mountains, 68 to 82 valleys. Northern Utah: 62 to 74 mountains, 74 to 86 valleys. Southern Utah, Arizona Strip: 70 to 82 mountains, 82 to 94 valleys	Idaho, Bridger-Teton: 20 to 30% mountains. 16 to 26% valleys. Northern Utah: 24 to 34% mountains. 12 to 24% valleys. Southern Utah, Arizona Strip: 30 to 50% mountains. 18 to 30% valleys.	Idaho, Bridger-Teton: West 8 to 12 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, Arizona Strip: Upslope/upvalley 5 to 10 mph.
<b>Northern Rockies</b> Much cooler temperatures and higher humidity will be across the Area. Isolated showers western mountains and scattered showers southern Montana will diminish during the afternoon. Record low temps probable.	West of Divide: 70 to 81. East of Divide: 57 to 66 North Dakota: 60 to 66	West of Divide: 25 to 40% East of Divide: 35 to 60% North Dakota: 41 to 58%	West of Divide: NE 5 to 15 mph. East of Divide: NE 5 to 15 mph. North Dakota: NW 10 to 20 mph.
<b>Alaska</b> Sunny and smoky.	70s and 80s.	20 to 35%.	10 to 15 mph except to 20 mph with frequent gusts to 30 mph over the northeast interior.

### **HAZARD MITIGATION THROUGH RISK MANAGEMENT (continued)**

“Risk management doesn’t get in the way of doing the mission – it is the way we do the mission.” The Risk Management Process assists in ensuring that critical factors and risks of the fireline work environment are considered during decision making. Good risk management utilizes a five-step process:

● Step 4—Decision Point (decision to accept or not accept the risk(s) associated with an action):

- Consider whether controls are in place for identified hazards, whether selected tactics are based on expected fire behavior and if instructions have been given and understood.
- Make certain the decision is made at the appropriate level; if not, then elevate to a higher level.
- Reject the action if the risk is unacceptable.

● Step 5—Evaluation:

- Ensure controls are implemented and accomplished to standards.
- Supervise/evaluate effectiveness of controls and decisions. Stay on top of the situation and adjust risk controls as necessary.
- Anticipate consequences of decisions; if controls do not work, determine problem and derive a better solution.
- Adjust actions as the situation changes; maintain situational awareness at all times.
- Maintain feedback line.
