

**INCIDENT MANAGEMENT SITUATION REPORT**  
**FRIDAY, SEPTEMBER 2, 2005 – 0530 MDT**  
**NATIONAL PREPAREDNESS LEVEL 4**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 81 fires reported. One new large fire was reported in the Northern Rockies Area. Three large fires were contained, one each in the Eastern Great Basin, Southern California and Western Great Basin Areas. Very high to extreme fire indices were reported in California, Colorado, Idaho, Minnesota, Montana, Nebraska, Nevada, Oregon, South Dakota, Utah, Washington and Wyoming.

A Presidential Disaster Declaration was issued on 8/29 for Hurricane Katrina in Mississippi, Alabama and Louisiana. An Area Command Team (Williams-Rhodes) is providing incident coordination at the Regional Response Coordination Center in Atlanta, GA. for Hurricane Katrina Support. An Area Command Team (Ribar) has been ordered. Numerous resources are being mobilized as part of the relief effort.

**SOUTHERN AREA INCIDENTS / LARGE FIRES:**

HURRICANE KATRINA SUPPORT, Federal Emergency Management Agency. Emergency Support Function #4 is staffed at the Regional Response Coordination Centers in Atlanta, GA and Denton, TX. Four Type 1 Incident Management Teams (Custer, Quesinberry, Pincha-Tulley and Gelobter) are assigned. Custer's Team is working to establish a base camp in Port Allen, LA. Quesinberry's Team is establishing and managing a mobilization center in Meridian, MS. Pincha-Tulley's Team will establish and manage two camps and support the receiving and distribution of relief supplies at Stennis Space Center in MS. Gelobter's Team is assigned at Moss Point, MS. Another Type 1 Incident Management Teams (Cable) has been ordered. A Type 2 Incident Management Team (Lineback) is providing support for the receiving and distribution of supplies and resources at a mobilization center in Pineville, LA. A Planning Team (Terry) is supporting relief efforts at the Long Term Recovery Center in Orlando, FL.

Five Logistics Management Teams have been mobilized; two at Meridian, MS, and one each at Maxwell Air Force Base, Montgomery, AL, Barksdale Air Force Base, LA and Beauregard, LA. A Florida State All Risk Incident Management Team (Hill) has been assigned to Biloxi, MS. The Team is providing logistical support to Florida Urban Search and Rescue teams. A Florida State Incident Management Team (Jones) has established a Logistics Staging Area at Stennis Space Center in MS. The Team is helping with distribution of relief supplies throughout southern Mississippi. A National Park Service All Risk Team has been ordered for Jean Lafitte National Historical Park and Preserve in New Orleans.

**NORTHERN ROCKIES AREA INCIDENTS / LARGE FIRES:**

SEEPAY #2, Flathead Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Cowin) is assigned. This fire is two miles southwest of Perma, MT in timber. A microwave communications site, structures and cultural sites remain threatened. Steep rugged terrain and heavy fuel loading are hampering containment efforts. Active surface fire with isolated single tree torching was observed.

SIGNAL ROCK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. The fire is 17 miles southwest of Philipsburg, MT in timber and is burning on both the Bitterroot and Beaverhead/Deerlodge National Forests. Structures remain threatened. Fire activity increased with crown runs and backing fire observed.

SELWAY-SALMON COMPLEX, Bitterroot National Forest. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the El Capitan, Wapiti, Beaverjack, Reynolds Lake and numerous other fires, is 26 miles southwest of Hamilton, MT in timber. This complex, burning on both the Salmon-Challis and Bitterroot National Forests, is being managed to accomplish resource objectives. A historic ranger station and lookout continues to be threatened. Structure protection remains in place. Magruder road is open to restricted travel. Torching was reported on the majority of the fires with smoldering on the remaining fires.

RED RIVER COMPLEX, Nez Perce National Forest. A transfer of command will occur from a Fire Use Management Team (Weldon) to the local unit today. This lightning-caused Wildland Fire Use (WFU) complex, comprised of the Burnt, Center and eight other fires is 23 miles southeast of Elk City, ID in timber. The complex is being managed to accomplish resource objectives. Magruder road reopened to the public and a closure was initiated around the fire area. Fire activity increased due to lower humidity resulting in torching and crown runs. This will be the last report unless significant activity occurs.

LONG BLACK COMPLEX, Clearwater National Forest. This complex, comprised of the Long Creek and Black Canyon fires, is 38 miles northeast of Pierce, ID in timber. Steep terrain, numerous snags and limited access continue to hamper containment efforts. Fire activity increased due to lower humidity. The Long Creek fire is contained but will continue to be monitored by aircraft.

ROCKIN, Bitterroot National Forest. This fire is 10 miles northwest of Darby, MT in timber. Increased fire activity was observed due to warmer temperatures and lower humidity resulting in torching and crown runs.

BIG SANDS, Clearwater National Forest. This lightning caused Wildland Fire Use (WFU) incident is 15 miles southeast of Powell Ranger Station in timber. This fire is being managed to accomplish resource objectives. Creeping and torching were observed. This will be the last narrative report unless significant activity is reported.

### ROCKY MOUNTAIN INCIDENTS / LARGE FIRES:

BLOWOUT, Western Slope Center, Bureau of Land Management. This fire is located five miles south of Palisade, CO. Residences, structures, cultural resources and a watershed remain threatened. Steep terrain and limited access are hampering containment efforts. Roads into the area remain closed. Significant progress was made securing containment lines. Creeping and smoldering were observed.

### EASTERN GREAT BASIN AREA INCIDENTS / LARGE FIRES:

PATTERSON, Salmon-Challis National Forest. This fire is two miles north of Patterson, ID in timber. Internal creeping, smoldering and torching were observed. No further information was received.

FRANK CHURCH, Payette National Forest. A Wildland Fire Use Team (Hahneberg) has been released. A Type 2 Incident Management Team (Reinarz) is assigned. This lightning-caused Wildland Fire Use (WFU) incident, comprised of the Bear Creek, Root Creek, West Fork/Joe, Missouri Ridge and several other fires is 50 miles northeast of McCall, ID in timber. The fire is being managed to accomplish resource objectives. Commercial property, residences and historical structures remain threatened. Structure protection is in place. Fire behavior remains active.

### OUTLOOK:

**Fire Weather Watches:** For Saturday in p.m. hours due to moderate to strong winds combined with low humidity for areas in and near northeast California.

**Weather Discussion:** Warm and dry conditions will continue over much of the interior West as high pressure continues to build over the Rockies. Windy conditions will begin to develop across portions of the Northwest, eastern California, Nevada, Idaho and western Montana, mainly across ridge tops and favored valley locations. Isolated showers and thunderstorms are possible along the Canadian border with eastern Washington and Idaho. Scattered wet thunderstorms are forecast for the four corners region.

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<b>Northern Rockies</b> A ridge of high pressure will bring warmer and drier conditions. No moisture is expected.	West of divide: 78 to 86. East of divide: 82 to 90. North Dakota: 74 to 82.	West of divide: 19 to 29%. East of divide: 15 to 22%. North Dakota: 30 to 45%.	West of divide: Southwest 10 to 20 mph. East of divide: South 10 to 20 mph. North Dakota: Southeast 10 to 20 mph.
<b>Northern California</b> Mostly sunny, with areas of fog along and near the coast.	From 60s near the ocean to upper 80s to near 100 in warmer inland areas.	From 10 to 22% drier inland areas to 50% plus along the coast.	Morning: light and variable wind Afternoon: South to West/southwest increasing to 5 to 13 mph lower terrain and to 8-18 mph Cascade/Sierras eastward, with peak gusts in 22 to 28 mph range.
<b>Southern California</b> Morning low clouds and fog into the coastal valleys, otherwise mostly sunny.	80 to 95 mountains. 90 to 100 valleys. 95 to 105 upper deserts. 105 to 115 lower deserts.	5 to 15%.	Southeast to southwest 5 to 15 mph.
<b>Eastern Great Basin</b> Mostly sunny area wide. Isolated afternoon mountain thunderstorms over Utah. Breezy.	Idaho, Bridger-Teton: 66 to 80 mountains, 80 to 92 valleys. Northern Utah: 72 to 82 mountains, 82 to 91 valleys. Southern Utah, Arizona Strip: 80 to 92 mountains, 90 to 102 valleys except 100 to 109 Lake Mead area.	Idaho, Bridger-Teton: 15 to 30% mountains, 9 to 18% valleys. Northern Utah: 15 to 20% mountains, 6 to 15% valleys. Southern Utah, Arizona Strip: 18 to 25% mountains, 7 to 18% valleys.	Idaho, Bridger-Teton: Southwest 10 to 20 mph with gusts to 25 mph. Northern Utah: Southwest 10 to 20 mph, upslope 4 to 8 mph Uinta Basin Southern Utah, AZ Strip: Southwest 10 to 20 mph.
<b>Western Great Basin</b> Mostly sunny skies.	North valleys: 80 to 94. South valleys: 84 to 106. Mountains: 72 to 86.	North valleys: 6 to 15%. South valleys: 10 to 18%. Mountains: 12 to 22%.	Southwest 10 to 15 mph. In the north, afternoon gusts 20 to 30 mph.
<b>Southern California</b> Morning low clouds and fog into the coastal valleys, otherwise mostly sunny.	80 to 95 mountains. 90 to 100 valleys. 95 to 105 upper deserts. 105 to 115 lower deserts.	5 to 15%.	Southeast to southwest 5 to 15 mph.

### Standard Fire Orders

The NWCG approved a revision of the Standard Fire Orders, in accordance with their original arrangements. The orders are arranged according to their importance and grouped in logical sequence. Review and consider Standard Fire Orders as a part of every shift.

- Did you receive or request adequate weather briefing, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, local factor?
- Do you have map of the fire? Is topography, type of fuels, direction of the spread defined?
- Fire behavior group deals with what the firefighter will encounter - weather, fire status, fire behavior.
  1. Keep informed on fire weather conditions and forecasts.
  2. Know what your fire is doing at all times.
  3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, size of escape routes and safety zones?
- Discuss the need for lookout, such as extreme fire behavior, fire located out of line-of-sight.
- Discuss importance of the situational awareness.
- Fireline safety group emphasizes personal safety.
  4. Identify escape routes and safety zones and make them known.
  5. Post lookouts when there is possible danger.
  6. Be alert. Keep calm. Think clearly. Act decisively.
- Review importance and means of passing tactical decisions and resource movement.
- Review other factors influencing potential changes in tactics, which could affect control of your forces.
- Organizational Control group is centered around tactical decisions.
  7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
  8. Give clear instructions and insure they are understood.
  9. Maintain control of your forces at all time.
- After you have considered, discussed and acted on the previous nine orders:
  10. Fight fire aggressively, having provided for safety first.
