

**INCIDENT MANAGEMENT SITUATION REPORT  
SUNDAY, AUGUST 27, 2006 – 0800 MDT  
NATIONAL PREPAREDNESS LEVEL 5**

**CURRENT SITUATION:**

Initial attack activity was light nationally with 66 new fires reported. Two new large fires (\*) were reported in the Southern Area. Six large fires were contained, three in the Southern, two in the Northwest and one in the Rocky Mountain Areas. Very high to extreme fire indices were reported in Arizona, California, Idaho, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

Two MAFFS C-130 aircraft and support personnel from the 153<sup>rd</sup> Airlift Wing ANG, Cheyenne, Wyoming are deployed to Klamath Falls, Oregon. Lt. Col. Steve Anderson is the Mission Commander. Two MAFFS C-130 aircraft and support personnel from the 146<sup>th</sup> Airlift Wing ANG, Channel Islands, California are deployed to Boise, Idaho. Maj. Bill Green is the Mission Commander.

The U.S. Army Task Force Blaze, commanded by Maj. Jody Miller, is deployed to the Tripod Complex in Washington.

New Zealand and Australia are providing 92 fire specialists and managers to assist with suppression operations. Canada is providing ten 20-person crews, 12 smokejumpers and 59 fire specialists and managers.

**NORTHWEST AREA INCIDENTS/LARGE FIRES:**

COLUMBIA COMPLEX, Southeast, Washington Department of Natural Resources. A Type 2 Incident Management Team (Jennings) is assigned. This Complex, comprised of six fires, is 15 miles northeast of Walla Walla, WA in grass, brush and mixed conifer. Numerous residences, a watershed and fisheries are threatened. Evacuation orders and area road closures remain in effect. Active fire behavior with running and spotting was reported. The decrease in acreage is due to more accurate mapping.

TRIPOD COMPLEX, Okanogan-Wenatchee National Forest. Two Type 1 Incident Management Teams (Molumby and Whitney) are assigned. A transfer of command from Molumby's Team to a Type 2 Washington Interagency Management Team (Gormley) will occur today. Whitney's Team is also managing the Cedar Creek and Tatoosh Complex fires. This Complex is seven miles northeast of Winthrop, WA in mixed conifer. Numerous residences and other structures remain threatened. Backing fire and occasional torching were observed.

JIM CREEK, Wallowa-Whitman National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This fire is 20 miles southeast of Anatone, WA in grass and timber. Residences are threatened. Steep, remote terrain is impeding containment efforts. Interior burning was reported.

CARBON COPY COMPLEX, South Puget Sound, Washington Department of Natural Resources. A Washington Interagency Type 2 Incident Management Team (LaFave) is assigned. The fires within this complex are eight miles southeast of Carbonado, WA and 15 miles northwest of Hoodspport, WA in timber and heavy dead and down fuels. Inaccessibility, steep, rugged terrain and rolling debris are hampering containment efforts. Fire activity increased due to warmer temperatures and lower humidity.

SHAKE TABLE COMPLEX, Malheur National Forest. An Oregon Department of Forestry Incident Management Team (Hunt) is assigned. This Complex, comprised of Thorn Creek and eight other fires, is 12 miles southeast of Dayville, OR in timber. Heavy fuels and poor accessibility are hampering containment efforts. Area road closures remain in effect. Running, torching and spotting fire behavior was reported.

CASCADE CREST COMPLEX, Deschutes National Forest. A Type 1 Incident Management Team (Wilcock) is assigned. This Complex, comprised of the Lake George, Puzzle and Black Crater fires, is 35 miles northwest of Bend, OR in timber and heavy dead and down fuels. Structures, communication sites and a fish hatchery remain threatened. Torching, flare-ups and short range spotting were observed.

SHARPS RIDGE, Umatilla National Forest. A Type 2 Incident Management Team (Goheen) is assigned. This fire is 15 miles southeast of Dale, OR in mixed conifer and heavy dead and down fuels. Difficult access is impeding containment efforts. Backing and single tree torching were observed.

SOUTH END COMPLEX, Burns District, Bureau of Land Management. A Type 1 Incident Management Team (Opliger) is assigned. This Complex, comprised of the Division E Complex and four other fires, is six miles west of Fields, OR in sagebrush, grass and juniper. Residences, power lines and area campgrounds are threatened. Fire behavior moderated due to lighter winds.

FLICK CREEK, North Cascades National Park. A Fire Use Management Team (Weldon) is assigned. The team is also managing the Tin Pan WFU. This fire is one mile east of Stehekin, WA in lodgepole pine, Douglas fir and spruce. Structures remain threatened. Occasional single tree torching and short uphill runs were reported. The reduction in acreage is due to more accurate mapping.

TIN PAN, Okanogan-Wenatchee National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning seven miles west of Lucerne, WA in timber. Occasional single tree torching and short uphill runs were reported.

MT. HOOD COMPLEX, Mt. Hood National Forest. This complex, comprised of 13 fires, is six miles east of Government Camp, OR in timber and heavy dead and down fuels. Campgrounds, trails and other recreation sites remain closed. Steep terrain and heavy fuel loading are hampering containment efforts. Highway 35 has been opened to traffic. Occasional single tree torching was observed.

PALOUSE RIVER, Washington Fire Service. This fire is three miles northeast of Colfax, WA in grass and timber. Residences and wheat fields are threatened. Moderate fire behavior was observed.

TATOOSH COMPLEX, Okanogan/Wenatchee National Forest. This complex, comprised of six fires, is 24 miles northwest of Mazama, WA in timber. Active fire behavior with group torching was reported.

CEDAR CREEK, Okanogan/Wenatchee National Forest. This fire is eight miles southwest of Mazama, WA in timber. Accessibility and steep terrain are hampering containment efforts. Group tree torching and short runs were observed.

PINE SPRINGS #2, Yakama Agency, Bureau of Indian Affairs. This fire is 28 miles south of Toppenish, WA in timber, grass and sagebrush. Minimal fire activity was reported.

## **EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:**

An Area Command Team (Zimmerman) is assigned to manage fires on the Payette National Forest.

DEVIL'S DEN, Fishlake National Forest. A Unified Command between a Type 1 Incident Management Team (Feser) and a Utah State Department of Natural Resources Division of Forestry Team (Johnson) is in place. This fire is three miles southeast of Oak City, UT in grass and brush. Isolated interior torching was reported.

BATTLE MOUNTAIN, Bridger-Teton National Forest. This fire is 30 miles northeast of Pinedale, WY in timber. Residences, commercial resources and a campground are threatened. Precipitation moderated fire activity.

TRAILHEAD, Sawtooth National Forest. A Type 1 Incident Management Team (Martin) is assigned. This fire is 10 miles southwest of Stanley, ID in lodgepole pine and Douglas fir. Numerous residences remain threatened. Spotting with occasional torching was reported.

RATTLESNAKE COMPLEX, Boise National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This Complex is 13 miles northeast of Garden Valley, ID in subalpine fir and pine. Limited road access is impeding containment efforts. Residences, commercial property and several campgrounds remain threatened. Structure protection is in place. Backing fire, creeping and group tree torching were observed.

SOUTH FORK COMPLEX, Payette National Forest. A Type 2 Incident Management Team (Reed) is assigned. This Complex, comprised of 26 fires, is 13 miles east of McCall, ID in timber. The town of Yellow Pine, Krassel Work Center, lookout towers, power lines and campgrounds remain threatened. Structure protection is in place. Numerous roads in the fire area remain closed. Fire behavior increased due to warmer temperatures and lower humidity.

RED MOUNTAIN, Boise National Forest. A Type 2 Incident Management Team (Raley) is assigned. The Team is also managing the Boundary Complex. This fire is 16 miles northeast of Lowman, ID in subalpine fir and lodgepole pine. Campgrounds, a Forest Service guard station and fisheries habitat remain threatened. Bull Trout campground remains closed. Active surface fire, torching and short range spotting were reported.

MIDDLE FORK COMPLEX, Salmon-Challis National Forest. A Fire Use Incident Management Team (Svalberg) is assigned. A Fire Use Incident Management Team (Perkins) has been ordered. This lightning caused Wildland Fire Use (WFU) Complex is being managed to accomplish resource objectives. The fires are burning 30 miles west of Challis, ID in timber and grass. Residences, campgrounds, and fisheries remain threatened. Smoldering, creeping, and isolated torching were reported. Reduction in acreage is due to more accurate mapping.

MESSENGER, Payette National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This fire is 18 miles southeast of Council, ID in subalpine fir. Lack of road access is impeding containment efforts. Commercial resources are threatened. Minimal fire activity was observed.

HORSE CREEK, Bridger-Teton National Forest. This fire is six miles northeast of Hoback Junction, WY in timber and heavy dead and down fuels. Limited access and steep terrain are hampering containment efforts. Minimal fire activity was observed due to rainfall. The fire is being monitored by air.

TROUT CREEK, Payette National Forest. This fire is 50 miles northeast of McCall, ID in timber and grass. Fisheries habitat remains threatened. Minimal fire behavior was reported.

PAYETTE WFU COMPLEX, Payette National Forest. A Fire Use Management Team (Hall) is assigned. The Team is providing logistical support for the Trout Creek incident. This lightning caused Wildland Fire Use (WFU) incident, comprised of 12 fires, is being managed to accomplish resource objectives. The fires are burning 20 to 50 miles northeast of McCall, ID in timber. Minimal fire activity was reported.

BOUNDARY COMPLEX, Salmon-Challis National Forest. This Complex is 14 miles southeast of Landmark, ID in grass and timber. The Boundary Creek area remains closed to public access. Minimal fire activity was reported.

SAILOR CAP, Twin Falls District, Bureau of Land Management. This fire is 20 miles south of Hammett, ID in grass and sagebrush. Grazing allotments and wildlife habitat remain threatened. No new information was reported.

POTATO, Salmon-Challis National Forest. A transfer of command from a Type 2 Incident Management Team (Raley) back to the local unit will occur on 8/28. This fire is nine miles northeast of Stanley, ID in timber. The Team is also managing the Boundary Complex. Minimal fire activity was observed.

SNAKE COMPLEX, Arizona Strip Field Office, Bureau of Land Management. This fire is 39 miles south of St. George, UT in grass and brush. No further information was received.

CRYSTAL, Idaho Falls District, Bureau of Land Management. This fire is 20 miles northwest of American Falls, ID in grass. Minimal fire activity was observed.

LANDFILL, Wasatch Front Area, Utah Division of Forestry Fire and State Lands. This fire is 30 miles north of Iosepa, UT in grass, brush and timber. No new information was reported.

### NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:

DERBY FIRE, Gallatin National Forest. A Type Incident 2 Management Team (McNitt) is assigned. This fire is 15 miles south of Big Timber, MT in timber, heavy dead and down fuels and grass. Structure protection is in place. No further information was received.

HEAVENS GATE COMPLEX, Nez Perce National Forest. A Type 1 Incident Management Team (Stanich) is assigned. This Complex, comprised of four fires, is 10 miles west of Riggins, ID in grass and timber. Structures, several Forest Service lookouts, campgrounds and a repeater site are threatened. Structure protection is in place for one ranch. Torching, short runs and short range spotting were observed.

HUGHES 32 COMPLEX, Idaho Panhandle National Forest. This Complex, comprised of four fires, is 10 miles north of Nordman, ID in cedar, hemlock and subalpine fir. Power lines and a historic fire lookout are threatened. Steep, rugged terrain is hampering containment efforts. Active fire behavior with increased torching, backing, and uphill runs was reported.

SUN DOG, Flathead National Forest. A Type 2 Incident Management Team (Heintz) is assigned. This fire is 18 miles north of Whitefish, MT in timber. A historical cabin and watershed are threatened. Steep terrain and remote access are hampering containment efforts. Occasional short runs were observed.

ULM PEAK, Idaho Panhandle National Forest. A Type 2 Incident Management Team (Reid) is assigned. This fire is 12 miles southwest of Noxon, MT in subalpine fir and hemlock. A radio repeater site is threatened, and structure protection is in place for a Forest Service lookout. Steep terrain and poor access are hampering containment efforts. Higher temperatures and lower humidity increased fire behavior.

DRAG, Lewistown Field Office, Bureau of Land Management. This fire is 25 miles northeast of Winnett, MT in ponderosa pine, sagebrush, and grass. No further information was received.

GASH CREEK, Bitterroot National Forest. This fire is six miles southwest of Victor, MT in mixed conifer and heavy dead and down fuels. Precipitation reduced fire behavior.

CLARKS CANYON, Central Land Office, Montana Department of Natural Resources and Conservation. This fire is 17 miles south of Dillon, MT in grass and sagebrush. Structure protection is in place. Precipitation reduced fire behavior.

STINKY, Yellowstone National Park. This fire is 37 miles southeast of Gardiner, MT in lodgepole pine. Light rainfall reduced fire activity.

HOLLAND PEAK, Flathead National Forest. This fire is five miles east of Condon, MT in timber. Minimal fire activity was reported.

ASHLEY LAKE, Flathead Agency, Bureau of Indian Affairs. This fire is six miles northeast of St. Ignatius, MT in alpine timber. The fire is being monitored. Group torching and backing were observed.

### NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

ORLEANS COMPLEX, Six Rivers National Forest. A Type 2 Central Sierra Incident Management Team (Johnson) is assigned. This Complex, comprised of the Somes and Buck fires, is east of Orleans, CA in timber and dead and down fuels. Steep, rugged terrain and accessibility are hampering containment efforts. Interior burning with some torching was reported.

BAR COMPLEX, Shasta-Trinity National Forest. A Type 1 Incident Management Team (Dietrich) is assigned. This Complex, comprised of four fires, is northwest of Weaverville, CA in timber and brush. Residences and historic mining sites remain threatened. Difficult access continues to hamper containment efforts. Active surface fire was observed. Burn out operations continue.

UNCLES COMPLEX, Klamath National Forest. A Fire Use Management Team (Hahnenberg) is assigned. This Complex, comprised of the Uncles, and Hancock fires, is 18 miles northeast of Orleans, CA in old growth timber and brush. Structure protection is in place for cabins threatened by the Hancock fire. Backing and short uphill runs were reported.

### SOUTHERN AREA INCIDENTS/LARGE FIRES:

CADDO 2 COMPLEX, Texas Forest Service. A Unified Command between two state Type 2 Incident Management Teams (Hannemann and Hildreth) is in place. This Complex, comprised of the Hart and Kelly fires, is two miles east of Caddo, TX in grass and brush. The Unified Command is also managing the Echo, McNut, Southmayd, Burden Ranch and Vancourt fires. Residences, power lines and oil and gas wells remain threatened. Fire behavior moderated due to rainfall.

BURDEN RANCH, Texas Forest Service. This fire is four miles south of Iredell, TX in oak, mesquite and cedar brush. Several residences are threatened. Extreme fire behavior was observed.

VANCOURT, Texas Forest Service. This fire is four miles east of Christoval, TX in heavy brush, juniper and mesquite. Very active fire behavior with short range spotting was reported.

## OUTLOOK:

**Weather Discussion:** Warmer and drier weather is on tap for much of the West through Monday. The Northwest will see significant fire potential due to hot, dry and unstable conditions Sunday with the elevated fire potential expanding into Idaho on Monday and Tuesday. On Tuesday, a Pacific trough will bring a chance of thunderstorms to eastern Oregon and Idaho with gusty winds over much of the West. Cooler weather is expected around mid-week as the trough moves across the Northwest, Great Basin and Northern Rockies. Elsewhere, a cold front will move into Texas Sunday and Monday with scattered showers and thundershowers.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>Northwest Area</b> Sunny.	Mostly in the 80s and 90s except for higher mountains in the upper 70s.	West of Cascades: 20% to 35% ...locally in the upper teens.  East of Cascades: 10% to 20%.	Variable 5 to 12 mph.
<b>Eastern Great Basin</b> Idaho, Bridger -Teton: Mostly sunny Northern Utah: Mostly sunny with isolated afternoon thunderstorms in the east. Southern Utah, Arizona Strip: Partly cloudy with isolated afternoon showers and thunderstorms in the east.	Idaho, Bridger - Teton: 75 to 85 mountains, 85 to 90 valleys. Northern Utah: 63 to 73 mountains, 73 to 83 valleys. Southern Utah, Arizona Strip: 65 to 80 mountains, 81 to 100 valleys, up to 110 in the lowest valleys.	Idaho, Bridger - Teton: 25 to 33% mountains, 12 to 24% valleys. Northern Utah: 30 to 40% mountains, 17 to 30% valleys. Southern Utah, Arizona Strip: 25 to 35% mountains, 13 to 23% valleys.	Idaho, Bridger - Teton: Upslope/upvalley and light. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, Arizona Strip: North/northwest 10 to 15 mph.
<b>Northern Rockies Area</b> Upper ridge over the Pacific Northwest will build into the western Geographic Area. All locations will be clear to partly cloudy and dry with warmer temperatures and light winds. The warmest temperature readings are expected across Idaho.	West of divide: 80 to 93. East of divide: 76 to 88. North Dakota: 78 to 85.	West of divide: 15 to 25%. East of divide: 22 to 30%. North Dakota: 26 to 38%.	West of divide: Variable 5 to 8 mph. East of divide: Variable 5 to 8 mph. North Dakota: Southwest 5 to 8 mph.

<b>Geographic Area Weather</b>	<b>High Temperatures</b>	<b>Minimum Relative Humidity</b>	<b>Wind</b>
<b>Rocky Mountain Area</b> Scattered to numerous showers and thunderstorms across northern/eastern Colorado, eastern Wyoming, western South Dakota, western Nebraska, and Kansas.	60s to lower 70s (50s mountains), except near 80 in eastern sections of the plains states and southwest Colorado.	Moist with values above 30%.	North to northeast at 5 to 15 mph.
<b>Western Great Basin Area</b> Sunny skies.	N. valleys: 78 to 94. S. valleys: 91 to 106. N. mountains: 70 to 84. S. mountains: 78 to 89.	N. valleys: 6 to 14%. S. valleys: 6 to 11%. N. mountains: 10 to 22%. S. mountains: 7 to 12%.	North to northeast 3 to 8 mph with local afternoon gusts 15 to 20 mph.
<b>Northern California Area</b> Sunny and warm in smoke-free areas inland, with areas of fog along the coast.	Warmest inland valleys in upper 90s to near 106.	Drier inland areas ranging from 6 to 18%.	North to east 4 to 12 mph on upper slopes and ridges in the a.m. hours, otherwise variable under 10 mph inland. Afternoon wind locally northwest 7 to 15 mph along/near the coast.
<b>Southern Area</b> No information reported.			
<b>Southern California Area</b> Morning low clouds and fog into the lower coastal valleys, otherwise mostly sunny.	80 to 95 mountains. 90 to 105 valleys. 100 to 105 upper deserts. 105 to 115 in the lower deserts.	50 to 70% coastal areas. 25 to 40% valleys. 5 to 15% mountains. 5 to 15% deserts.	Variable 5 to 15 mph.
<b>Southwest Area</b> No information reported.
