Incident Management Situation Report
Tuesday, June 5, 2007 - 0530 MDT
National Preparedness Level 2**

National Fire Activity

| | |
|-------------------------------|--------------------------|
| Initial attack activity: | Moderate (272 new fires) |
| New large fires: | 2 (*) |
| Large fires contained: | 3 |
| Uncontained large fires: | 12 |
| Area Command Teams committed: | |
| NIMOs committed: | 1 |
| Type 1 IMTs committed: | 2 |
| Type 2 IMTs committed: | 2 |
| Fire Use Teams committed: | |

** Uncontained large fires do not include WFU or confine/contain incidents. **

Southern Area (PL 4)

| | |
|--------------------------|----|
| New fires: | 85 |
| New large fires: | 0 |
| Uncontained large fires: | 8 |
| Type 1 IMTs committed: | 2 |
| Type 2 IMTs committed: | 1 |

Big Turnaround Complex, Okefenokee NWR. IMT 1 (Ruggiero). Ten miles southeast of Waycross, GA. Southern rough and timber. Minimal fire activity. Numerous structures, historic sites and recreation facilities remain threatened. Several advisory evacuations have been lifted.

Sweat Farm Road, Georgia Forestry Commission. North Carolina IMT 2 (Hildreth). IMT also managing the Bugaboo Scrub 2 fire. Started on private land 10 miles west of Waycross, GA. Southern rough and timber. Minimal fire activity.

BICY Complex (four fires), Big Cypress National Preserve. Transfer of command from IMT 1 (Whitney) back to the local unit today. Fifty-one miles west of Ft. Lauderdale, FL. Southern rough. Minimal fire activity.

Bugaboo Scrub 2, Georgia Forestry Commission. Started on private land four miles east of Fargo, GA. Southern rough and timber. Minimal fire activity.

Okeechobee Complex (three fires), Florida DOF. Eight miles southwest of Okeechobee, FL. Grass. Residences remain threatened. No further information received.

Deland Complex (seven fires), Florida DOF. Six miles west of Ormond Beach. Southern rough. Active interior burning. Residences remain threatened.

Dairy Road, Florida DOF. Seven miles northwest of Keystone Heights, FL. Southern rough. Increased interior burning. Numerous structures remain threatened.

Middle of Nowhere, Florida DOF. Fifteen miles northeast of Ft. Myers, FL. Southern rough. No further information received.

Predictive Services Discussion: An upper storm system will move across the Northwest today with dry and windy conditions for the Great Basin, Southwest, southern California, and the western Rocky Mountain Area. Cooler and wetter conditions will move in behind the cold front over the northwest quarter of the country. Warm and windy conditions will continue over the interior and northeast. Light precipitation is expected in the Southeast.

UNINFORMED ON STRATEGY, TACTICS OR HAZARDS

Firefighters who are uninformed on strategy, tactics or hazards are in conflict with Watchout Situation #5. Before going to the fireline, it is imperative that firefighters obtain information about strategies, tactics or hazards by asking themselves the following questions:

- Can communications be established to find out strategy, tactics or hazards? Discuss ways you might establish communications; for example, contacting someone who is already on the fire and asking them what tactics and strategies are working or not working, what hazards they have witnessed, etc.
- Can scouting safely identify potential hazards? Talk about different methods of scouting a fire (e.g., using a lookout from your crew or sending a line scout ahead, utilizing air attack or the spotter on a smokejumper airplane). Discuss what types of hazards you might come across and ways you would mitigate them. For example, arriving at a fire after dark and a being instructed to dig line downhill with the fire below. How could you make this a safe situation?
- Have strategy, tactics or hazards changed since last informed? Discuss situations that might alter the way you are fighting a fire (e.g., wind shifts, resources you expected don't arrive, etc.). Also, think about what new hazards can develop while you are on the fireline (e.g., roots burning out and trees coming down, winds shifting direction and speed, etc.)
- Can you get a briefing from your supervisor? Talk about the importance of constant communications and ensuring firefighters are on the same page with strategies and tactics. For example, if one crew decides to do a burnout, but doesn't let the crew at the other end of the line know what they are doing, then what can happen?
- To reduce the risks:
 - Post lookouts.
 - Determine escape routes and establish safety zones.
 - Consider retreating until you are informed.
 - Don't leave a staging area or operational briefing until you have all the pertinent information. Emphasize ways to inform firefighters about strategies, tactics and hazards. Tell a story about when you were uninformed and what you did to correct the situation so that you were safe.
