

**National Interagency Coordination Center
Incident Management Situation Report
Friday, October 12, 2007 – 1000 MDT
National Preparedness Level 1**

National Fire Activity (Weekly Total)

Initial attack activity: Light (720 new fires)
 New large fires: 8 (*)
 Large fires contained: 5
 Uncontained large fires: 3
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 2
 Fire Use Teams committed: 0

** Uncontained large fires do not include WFU or confine/contain incidents. **

Southern Area (PL 2)

New fires: 415
 New large fires: 8
 Uncontained large fires: 3
 Type 2 IMTs committed: 2

Eastern District Complex (12 fires), Kentucky DOF. Kentucky IMT 2 (Conley). Eight miles northwest of Pikeville, KY. Hardwood litter. Active fire behavior.

Kentucky River Complex (8 fires), Kentucky DOF. Kentucky IMT 2 (Slone). Started on private land one mile from Hazard, KY. Hardwood litter. Creeping.

Southeastern Complex (8 fires), Kentucky DOF. Started on private land one mile south of Pineville, KY. Timber. Active surface fire with uphill runs. Structures threatened.

FLS – Florida DOF

DBF – Daniel Boone NF

MSS – Mississippi Forestry Commission

TNS – Tennessee DOF

Predictive Services Discussion: Dry and breezy conditions will develop over the Southeast today. Low relative humidity will continue in the Southeast and Mid-Atlantic states into mid-next week. In the West, an active weather pattern spells frequent storm systems for cool weather and increased wind at times.

Unfamiliar With Weather And Local Factors Influencing Fire Behavior

- Can you ask questions of local experts? What kinds of questions would you ask?
- Does the operational period plan give you adequate weather and information? What kinds of weather forecasts can you get? What other weather or local information do you look for in the shift plan?
- Can you get information from resources that have been on the fire? What questions will you ask of the crew that you are replacing?
- Is there any other way to obtain information? List common sources of information on weather and local factors.
- To reduce risks:
 - Base all actions on current and expected fire behavior.
 - Post lookouts.
 - Establish escape routes and safety zones.
 - Take extra caution! Discuss a fire where you relied on information from the local unit (perhaps where your fire knowledge and experience was very different from how they did things—Southeast or Alaska).
