

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, May 13, 2009 – 0530 MDT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Light (146 new fires)
 New large fires: 5 (*)
 Large fires contained: 1
 Uncontained large fires: 12
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 1
 Type 2 IMTs committed: 2

** Uncontained large fires do not include confine/contain incidents. **

Southern Area (PL 2)

New fires: 78
 New large fires: 4
 Uncontained large fires: 9
 Type 2 IMT's committed: 2

2009 Winter Initial Attack, Texas Forest Service. Texas IMT 2 (Bennett). IMT is supporting multiple fires throughout west Texas. Acres reported are a cumulative total. Last report unless significant activity occurs.

Dragon Fly, Florida DOF. Florida IMT 2 (Utley). Ten miles northeast of Chuluota, FL. Southern rough. Moderate fire behavior. Structures threatened.

Bomb, Florida DOF. Twelve miles northeast of Sebring, FL. Southern rough. Moderate fire activity.

International, Florida DOF. Four miles southwest of Christmas, FL. Southern rough. Active fire behavior. Road closures in effect.

Adam's Ranch 2, Texas Forest Service. Fifteen miles south of Sweetwater, TX. Grass. No further information received.

Indian Trail, Florida DOF. Two miles northeast of Indiantown, FL. Southern rough. Minimal fire activity.

Lincoln Park, Florida DOF. Two miles northeast of Indiantown, FL. Southern rough. Minimal fire activity. Significant precipitation occurred over the fire area yesterday.

Green Farm, Florida DOF. Ten miles northeast of Indiantown, FL. Southern rough. Moderate fire behavior. Precipitation occurred over the fire area yesterday.

Belly, Florida DOF. Two miles south of Christmas, FL. Southern rough. Moderate fire activity.

Attempting a Frontal Assault on a Fire

Attempting a frontal assault on a fire is recognized as Watchout Situation #10 and is a potentially dangerous tactic.

- If your tactics include a frontal assault, the following checklist must be adequately addressed before engaging the fire:
 - Has the fire been scouted and sized up? Who will scout and size up a fire and what are they looking for?
 - Is your position defensible? List what makes a firefighter's position defensible. (Anchor points, safety zones, escape routes, etc.)
 - Are escape routes and safety zones adequate? Review what constitutes an adequate safety zone and escape route.
 - Do you have an anchor point? How would you establish an anchor point for a frontal assault on a fire?

- continued...
 - Do you have adequate resources to complete the assault? Discuss things you need to consider; for example, if the frontal assault fails, do you have backup?
 - Are you informed on strategy, tactics, and hazards? Consider what could happen if someone has a different approach than you; i.e., the IC has a burnout operation planned while you are attempting frontal assault.
 - Is the terrain favorable to holding the fire? Discuss ways the terrain will influence where you will make a stand.

- In order to reduce the risks, reassess your tactics, post lookouts, identify situations in which firefighters may be enticed to attempt frontal assault on a fire. Review why this may or may not be a good idea.
