

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, April 20, 2010 – 0530 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Heavy (384 new fires)
 New large fires: 6 (*)
 Large fires contained: 5
 Uncontained large fires : ** 4
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 1

Nationally, there are 0 large fires being managed with minimal or no resource commitment.

** Uncontained large fires do not include confine/contain and resource benefit incidents.

Southern Area (PL 3)

New fires: 226
 New large fires: 5
 Uncontained large fires: 3
 Type 2 IMTs committed: 1

Stoney Fork, National Forests in North Carolina. IMT 2 (Wilder). IMT is also managing the Bowling Green Fire. Three miles southeast of Barnardsville, NC. Hardwood litter. Short-range spotting.

Bowling Green, National Forests in North Carolina. Five miles southeast of Erwin, TN. Hemlock and hardwood litter. Residences and power transmission lines threatened.

Claylick, Daniel Boone NF. Six miles southwest of Morehead, KY. Hardwood litter. Backing and creeping fire.

**Today's discussion is from the
Fireline Safety Category.**

The 10 Standard Fire Orders

The orders are arranged according to their importance and grouped in logical sequence. Review and consider Standard Fire Orders as a part of every shift.

- Did you receive or request adequate weather briefing, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, local factor?
- Do you have map of the fire? Is topography, type of fuels, direction of the spread defined?
- Fire behavior group deals with what the firefighter will encounter - weather, fire status, fire behavior.
 1. Keep informed on fire weather conditions and forecasts.
 2. Know what your fire is doing at all times.
 3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, size of escape routes and safety zones?
- Discuss the need for lookout, such as extreme fire behavior, fire located out of line-of-sight.
- Discuss importance of the situational awareness.
- Fireline safety group emphasizes personal safety.
 4. Identify escape routes and safety zones and make them known.
 5. Post lookouts when there is possible danger.
 6. Be alert. Keep calm. Think clearly. Act decisively.
- Review importance and means of passing tactical decisions and resource movement.

- Review other factors influencing potential changes in tactics, which could affect control of your forces.
- Organizational Control group is centered around tactical decisions.
 7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
 8. Give clear instructions and insure they are understood.
 9. Maintain control of your forces at all time.
- After you have considered, discussed and acted on the previous nine orders:
 10. Fight fire aggressively, having provided for safety first.
