

**National Interagency Coordination Center
Incident Management Situation Report
Saturday, June 19, 2010 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (112 new fires)
New large fires:	3 (*)
Large fires contained:	3
Uncontained large fires: **	11
Area Command Teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	5

Nationally, there are 38 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy. **

Department of Interior personnel are assigned to several locations in the Gulf of Mexico to assess and mitigate impacts resulting from the Deepwater Horizon oil spill.

- A total of 495 personnel are assigned to the Fish and Wildlife Service at Delta, Breton and Bon Secour National Wildlife Refuges, as well as Houma, LA and Mobile, AL.

- A total of 179 National Park Service personnel are assigned to Gulf Islands National Seashore, Jean Lafitte Park and Preserve, Everglades National Park, Dry Tortugas, Biscayne National Park, De Soto National Memorial and Big Cypress National Preserve.

Southwest Area (PL 4)

New fires:	15
New large fires:	0
Uncontained large fires:	7
Type 1 IMTs committed:	1
Type 2 IMTs committed:	3

Tecolote, Santa Fe NF. IMT 1 (Van Bruggen). Fifteen miles northwest of Las Vegas, NM. Timber. Moderate fire activity with group tree torching and spotting. Numerous residences threatened.

South Fork, Santa Fe NF. IMT 2 (Templin). Twenty miles west of Espanola, NM. Timber. Extreme fire behavior with long duration runs and spotting. Municipal watershed impacted.

Horseshoe, Coronado NF. IMT 2 (McBratney). Five miles south of Portal, AZ. Timber. Active flanking and backing fire with isolated torching.

Eagle Rock, Kaibab NF. IMT 2 (Nelson). Eleven miles northeast of Williams, AZ. Timber. Smoldering. Structures threatened.

Cutoff, Guadalupe Mountains National Park. Twenty-five miles southwest of Queen, NM. Brush. No further information received.

Aspen, Gila NF. Twenty-six miles northwest of San Lorenzo, NM. Timber. Minimal fire activity.

Ft Bliss 2, Las Cruces Field Office, BLM. Fifteen miles southeast of Las Cruces, NM. Brush and grass. Moderate fire activity.

Alaska Area (PL 3)

New fires: 4
 New large fires: 1
 Uncontained large fires: 2
 Type 2 IMTs committed: 1

Eagle Trail, Tok Area Forestry, Alaska DOF. Transfer of command from IMT 2 (Allen) back to local unit tentatively planned for 6/21. One mile south of Tanacross, AK. Spruce and tundra. Minimal interior smoldering.

Popavich, Fairbanks Area Forestry, Alaska DOF. Seven miles northwest of Healy, AK. Black spruce. Structures threatened. No further information received.

Toklat 2, Tanana Zone, BLM. Limited perimeter control incident. Started on state land 25 miles southwest of Nenana, AK. Black spruce and tundra. Creeping and smoldering. Structures threatened.

Applegate, Tanana Zone, BLM. Limited perimeter control incident. Started on state land 25 miles northeast of Manley Hot Springs, AK. Black spruce and mixed hardwoods. No new information.

Big Mountain, Upper Yukon Zone, BLM. Previously reported limited perimeter control incident. Eighty miles northwest of Eagle, AK. Black spruce, brush and hardwood slash. Smoldering. Last report unless significant activity occurs.

Dempsey Creek, Upper Yukon Zone, BLM. Previously reported confine/contain incident. Eighty miles east of Fort Yukon, AK. Black spruce, tundra and hardwood slash. Smoldering and backing fire with occasional torching. Last report unless significant activity occurs.

Indian Grave Creek, Upper Yukon Zone, BLM. Previously reported confine/contain incident. Forty-nine miles north of Eagle, AK. Black spruce and tundra. Backing fire with group tree torching. Last report unless significant activity occurs.

* **Witch Mountain**, Upper Yukon Zone, BLM. Confine/contain incident. Forty miles northwest of Eagle, AK. Timber. Backing and running fire. Last report unless significant activity occurs.

Predictive Services Discussion: Significant fire potential is forecast for northern Arizona, northwest New Mexico and southwest Colorado today for dry and windy conditions. A low pressure system over the Northwest will increase winds today across much of the southwest quarter of the country. Thunderstorms, some with limited moisture, are possible across New Mexico and eastern Colorado.

**Today's discussion is from the
Motorized Operations Category.**

ATV - How to Properly Ride and Operate

Riding an ATV correctly allows the operator to operate and control the machine more easily, and react more quickly to changes in terrain and environment. Proper riding posture includes:

- ✓ head and eyes up, looking forward;
 - ✓ shoulders relaxed, with elbows bent slightly;
 - ✓ hands on the handlebars; knees in toward the gas tank;
 - ✓ feet on the footrests, toes pointing straight ahead;
 - ✓ back should be straight but not tense
-
- To turn an ATV, keep most of your body weight on the outside foot peg and lean your upper body into the turn. Never lower your foot to the ground for stability—could cause ejection if foot is caught by tire.
 - When climbing hills, shift your body weight forward to keep the front wheel(s) on the ground.
 - If stopped while going uphill, do not apply the rear brake only. Apply equal pressure to both front and rear brakes, but never only to the rear brake. Get off the machine and turn it around to proceed down the hill.
 - When going down hill, keep the engine running and in low gear, apply both front and rear brakes with even pressure and avoid sharp turns. Slide body forward on seat towards gas tank, keeping body weight back by leaning backwards. This will help keep weight on back wheels and lessen potential to flip ATV over forward. Avoid "side hill" situations. When they are unavoidable, lean into the hill.
 - When carrying a load up hill, if possible, place load on the front of the ATV to help keep the front end of the ATV from flipping over. If going down hill, place load on back of ATV to help keep the ATV from flipping over forward. If loads cannot be adjusted, (drip torch mounted on back), try to equalize the load on front and back if possible.
 - Only operate an ATV under the conditions for which you have been trained, qualified for and are experienced in riding.
 - As a last resort to avoid an impending collision, roll off the vehicle and kick yourself free of it.
