

**National Interagency Coordination Center
Incident Management Situation Report
Sunday, July 11, 2010 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (125 new fires)
 New large fires: 4 (*)
 Large fires contained: 2
 Uncontained large fires: ** 3
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 0

Nationally, there are 53 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy. **

[Link](#) to Geographic Area daily reports.

Interagency personnel are assigned to a number of locations in the Gulf of Mexico to assess and mitigate impacts resulting from the Deepwater Horizon oil spill.

- Support to the Fish and Wildlife Service include these areas: Delta, Breton and Bon Secour National Wildlife Refuges, as well as Houma, LA and Mobile, AL.

- Support to the National Park Service include these areas: Gulf Islands National Seashore, Jean Lafitte Park and Preserve, Everglades National Park, Dry Tortugas, Biscayne National Park, De Soto National Memorial and Big Cypress National Preserve.

Alaska Area (PL 2)

New fires: 13
 New large fires: 2
 Uncontained large fires: 1

Louie Creek, Galena Zone, BLM. Confine/contain incident. Started on private land eight miles southwest of Huslia, AK. Black spruce and mixed hardwoods. Running fire with group tree torching. Last report unless significant activity occurs.

Pat Creek, Upper Yukon Zone, BLM. Fifteen miles north of Stevens Village, AK. Black spruce and tundra. Short runs with torching.

No Name Creek, Southwest Area Forestry, Alaska DOF. Confine/contain incident. Fifteen miles northwest of Telida, AK. Spruce. Active crown fire with torching. Last report unless significant activity occurs.

* **Three Sleep**, Upper Yukon Zone, BLM. Confine/contain incident. Thirty miles east of Stevens Village, AK. Grass and tundra. Monitoring by air. No further information received. Last report unless significant activity occurs.

* **Hadweenzic**, Upper Yukon Zone, BLM. Confine/contain incident. Started on Fish and Wildlife Service land 25 miles south of Venetie, AK. Spruce and brush. No further information received. Last report unless significant activity occurs.

Predictive Services Discussion: Thunderstorm development across the West will push eastward today. Thunderstorms are expected across Montana, Wyoming, the Four-Corner states, southern Nevada and the southern Sierra Nevada. Driest storms will be located across the Sierra Nevada and southern Great Basin. Alaska will see cooler temperatures, higher relative humidity and the chance for showers across the interior.

[Link](#) to Predictive Services Outlook products.

Today's discussion is from the
Fireline Safety Category.

INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR

Every firefighter will be giving and receive briefings at some point on the job. Briefings are an effective way to disseminate information that can make the firefighter's job safer and easier. When giving a briefing, it is important to keep the following questions in mind and remain perceptive to how the audience is receiving the information:

- Did you use the National Incident Response Pocket Guide standards briefing checklist?
- Did they ask questions? Talk about what it is like giving a briefing. Do you get empty stares? What feedback are you looking for to ensure they understand you?
- Did they take notes? What kind of information would you like to see people write down?
- Did they repeat information back? What other ways can you identify that your briefing is registering?
- Did you give all the necessary information? How will you ensure that you covered everything necessary?
 - Task
 - Location
 - Communications
 - Hazards
 - Who, when, etc.
- It is also important for the firefighter who is receiving instructions to be mindful of the following during the briefing:
 - Did you really listen? What do you do to make yourself pay attention to everything being said?
 - Did you understand the assignment, location, and the nature and location of hazards? Do you expect to figure it out for yourself when you get out there or do you step forward and ask questions?
- You must know the location of the assignment and:
 - What is to be done?
 - Who you are to report to and how often to report.
 - When you are expected to complete the assignment.
 - Hazards.
 - Communication plan frequencies.
 - Weather and fire behavior.
 - Status of adjoining forces.
