

**National Interagency Coordination Center
Incident Management Situation Report
Sunday, September 26, 2010 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (108 new fires)
 New large fires: 2 (*)
 Large fires contained: 1
 Uncontained large fires: ** 5
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 1

Nationally, there are 78 large fires being managed to achieve multiple objectives.

** Uncontained large fires include only fires being managed under a full suppression strategy.

Predictive Services Discussion: Warm and dry over most of the West today. Southern California will be hot with very low humidity and locally gusty winds in the canyons and passes. Scattered showers and thundershowers are on tap for the Southeast and Mid-Atlantic States.

[Link](#) to Predictive Services Outlook products.

Today's discussion is from the
Fireline Safety Category.

In Country Not Seen in Daylight

Often firefighters arrive on a fire after dark. This is recognized as Watchout Situation #2. Before safely fighting fire in country not seen in daylight, firefighters must be able to answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify whom you might get information from. Can you meet up with the departing overhead/resource leaders?
- Can you observe the area/use scouts? List ways you could observe the area you need to work.
- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone; who would identify them; and in what ways might they be marked.
- Have potential dangers been located; can they be mitigated? What are the dangers associated with Watchout Situation #2? How can they be worked around?
- Reduce the risks by:
 - Posting lookouts.
 - Checking communications.
 - Retreat if you have doubts about your escape routes or safety zones or the situation becomes too complex. Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
 - Identifying prominent geographic features
