

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, August 2, 2012 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity:	Light (193 new fires)
New large fires:	10 (*)
Large fires contained:	5
Uncontained large fires: **	29
Area Command Teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	1
Type 2 IMTs committed:	5

** Uncontained large fires include only fires being managed under a full suppression strategy.

Two MAFFS C-130 aircraft and support personnel from the 146th Airlift Wing, Channel Islands (California Air National Guard) are supporting wildland fire suppression operations out of Boise, ID.

Northern Rockies Area (PL 3)

New fires:	25
New large fires:	6
Uncontained large fires:	15
Type 2 IMTs committed:	3

* **East Sarpy**, Crow Agency, BIA. IMT2 (Fry). Fifteen miles east of Hardin, MT. Timber. Active fire behavior. Structures threatened and road closures in effect.

Goblin Gulch, Lewis & Clark NF. Seven miles southwest of Monarch, MT. Timber. Active fire behavior with group tree torching and long-range spotting. Residences threatened.

Elbow Pass Complex (3 fires), Lewis & Clark NF. IMT 2 (Hall). Twenty-five miles southwest of Augusta, MT. Timber. Active fire behavior. Structures threatened.

Butler, Lolo NF. IMT2 (Kusicko). Twenty-seven miles northwest of Frenchtown, MT. Timber. Active fire behavior with torching. Reduction in acreage due to more accurate mapping.

Wells, Charles M. Russell NWR. Thirty-five miles southeast of Zortman, MT. Timber, brush and grass. Torching and running.

Chain Buttes, Lewistown Field Office, BLM. Thirty-five miles northeast of Winnett, MT. Brush and grass. Creeping and smoldering.

* **South Chain**, Lewistown Field Office, BLM. Twenty-five miles northeast of Winnett, MT. Timber and grass. Active fire behavior.

Chrandal Creek, Bitterroot NF. Thirty-two miles south of Darby, MT. Timber. Creeping and smoldering. Road closure in effect.

Prisoner Lake, Flathead NF. Twenty-five miles east of Condon, MT. Timber. Creeping. Trail closures in effect.

* **Chalky**, Miles City Field Office, BLM. Sixty miles southwest of Miles City, MT. Timber. No further information received.

* **West Tullock**, Crow Agency, BIA. Fifteen miles east of Hardin, MT. Timber. Active fire behavior. Structures threatened.

* **Dawes**, Crow Agency, BIA. Fifteen miles east of Hardin, MT. Timber. Active fire behavior. Residences threatened.

* **Castle Rock 2**, Crow Agency, BIA. Fifteen miles east of Hardin, MT. Timber. Active fire behavior. Structures threatened.

This table does not include fires reported in the large fire section of this report. Updated weekly.

Predictive Services Discussion: Scattered thunderstorms will develop again over the far Southwest, eastern Great Basin, and the central Rockies. Some storms could produce very heavy rain. A cold front will move through the northern Rockies, bringing slightly cooler but windy conditions to the region. Otherwise, temperatures will remain very warm across much of the West. In the East, showers and thunderstorms will stretch along a front from the Great Lakes to the central and northern Plains. Hot and humid conditions will continue in the Southeast where afternoon thunderstorms will develop from the mid-Atlantic coast to the central Gulf Coast.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.html>

**Today's discussion is from the
Weather / Fire Behavior Category.**

FREQUENT SPOT FIRES ACROSS THE LINE

There are few watch-out situations that state more clearly how much potential your fire has for rapid, uncontrolled growth. Consider the following questions if you are getting spot fires across your line:

- Can you handle increased spotting? List some ways you can keep ahead of spot fires (gridding the green, lookouts, etc.)
- What is your probability of ignition doing? Is it increasing or decreasing?
- Do you have a plan for long-range spotting? In what fuel type and under what conditions will you likely have long-range spotting? What types of plans can you think of for handling long-range spotting?
- Is help available if necessary? What kinds of resources will you have in place or order to handle spot fires?
- If fire behavior increases, is your position still defensible? Discuss what type of action you might take if a spot fire takes off.
- Do you have more than one safety zone in case one gets cut off? Describe how you might have multiple safety zones.
- Do the primary lookouts have a good view of the situation? Discuss who might be acting as a lookout (e.g., crew member, air resources, etc.) and how you will get good information from that person. (Are you relying on an air attack that is busy with air tankers?)
- Where are you in the burning period? Talk about how your tactics may vary from finding spot fires early in the day to later into the evening. Review Probability of Ignition (PIG) and what it can tell you about spotting potential.
- To reduce the risk, be ready to retreat. Keep your guard up even if spotting has not occurred for a few hours. Review fires where you have had frequent spot fires and what you learned about controlling them.
