

**National Interagency Coordination Center
Incident Management Situation Report
Tuesday, May 28, 2013 – 0530 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Light (89 new fires)
 New large fires: 1 (*)
 Large fires contained: 0
 Uncontained large fires: ** 3
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 1

** Uncontained large fires include only fires being managed under a full suppression strategy.

Southern California Area (PL 2)

New fires: 24
 New large fires: 1
 Uncontained large fires: 2
 Type 2 IMTs committed: 1

* **White**, Los Padres NF. IMT 2 (Nunez). Six miles northwest of Santa Barbara, CA. Chaparral. Active fire behavior with long-range spotting. Numerous structures and high-voltage power lines threatened. Evacuations and area closures in effect.

General, Monte Vista Unit, Cal Fire. Four miles east of Julian, CA. Chaparral. Active fire behavior with spotting.

Predictive Services Discussion: A deepening trough in the West will produce critical fire weather conditions with low relative humidity and strong winds over much of the Southwest. Scattered showers and a few thunderstorms will develop over the Northwest, the northern Rockies and the northern Great Basin. Showers and thunderstorms will again form over the northern Plains, the Upper Midwest and the Ohio Valley. Gusty southerly flow from the Gulf of Mexico will keep the South warm and humid.

LOOKOUTS

LCES (Lookouts, Communication, Escape Routes, and Safety Zones)
Category

Lookouts are often better situated to notice the cumulative changes of fire behavior.

- Fire Order #5 says “Post lookouts when there is possible danger.” Should you utilize lookouts at all times?
 - Lookouts should be posted at all times.
- What are you looking for when you are selecting a lookout location?
 - Choose a good vantage point, preferably with a good overview of the entire area where firefighters are located, including escape routes and safety zones.
 - Never rely exclusively on aircraft as your lookout.
- What are the desired qualities, capabilities, knowledge, and responsibilities of a lookout person?
 - Experienced firefighter.
 - Solid knowledge of fire behavior and ability to recognize and monitor other environmental hazards.
 - Knowledge of crew locations, escape and safety locations and trigger points.
 - Good communicator--keeps the crew advised of fire behavior changes, tracks weather trends and relays the information, informs crew of work progress and updates from the latest strategy and tactical briefings.
 - Monitors and accounts for all individuals within his/her assigned area at all times, and will notify others if breaks are needed.
- What is the necessary equipment for a lookout?
 - PPE, radio with extra batteries, compass, binoculars, belt weather kit, IAP, map, food, water and watch.
