Incident Management Situation Report
Tuesday July 9, 2013 – 0530 MT
National Preparedness Level 3**

National Fire Activity

Initial attack activity: Light (165 new fires)
 New large fires: 5 (*)
 Large fires contained: 2
 Uncontained large fires: ** 21
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 5
 Type 2 IMTs committed: 6

** Uncontained large fires include only fires being managed under a full suppression strategy.

Predictive Services Discussion: Scattered thunderstorms will form over the Southwest with isolated thunderstorms forming over higher terrain in the eastern Great Basin and central Rockies. In the East, scattered showers and thunderstorms will develop from the Upper Midwest to the Gulf and Atlantic coasts. Temperatures will be hot across the West and the southern and central Plains. The northern Plains and the East will be mild to warm. In Alaska, scattered showers and a few thunderstorms will develop over most of the state. Temperatures will be cool.

IN COUNTRY NOT SEEN IN DAYLIGHT

Fireline Safety Category

Often firefighters arrive on a fire after dark. This is recognized as Watchout Situation #2. Before safely fighting fire in country not seen in daylight, firefighters must be able to answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify whom you might get information from. Can you meet up with the departing overhead/resource leaders?
- Can you observe the area/use scouts? List ways you could observe the area you need to work.
- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone; who would identify them; and in what ways might they be marked.
- Have potential dangers been located; can they be mitigated? What are the dangers associated with Watchout Situation #2? How can they be worked around?
- Reduce the risks by:
 - Posting lookouts.
 - Checking communications.
 - Retreat if you have doubts about your escape routes or safety zones or the situation becomes too complex. Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
 - Identifying prominent geographic features
