

**National Interagency Coordination Center  
Incident Management Situation Report  
Friday, May 9, 2014 – 0800 MT  
National Preparedness Level 1**

**National Fire Activity (Weekly Total)**

Initial attack activity: Light (593 new fires)  
 New large fires: 17(\*)  
 Large fires contained: 18  
 Uncontained large fires: \*\* 11  
 Area Command Teams committed: 0  
 NIMOs committed: 0  
 Type 1 IMTs committed: 0  
 Type 2 IMTs committed: 1

\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

**Southern Area (PL 2)**

New fires: 248  
 New large fires: 12  
 Uncontained large fires: 7

\* **Quinlan**, Oklahoma DOF. Three miles east of Moreland, OK. Grass. Active fire behavior.

\* **Woodward**, Oklahoma DOF. Five miles northwest of Woodward, OK. Grass. Active fire behavior.

**Pintail**, Sabine NWR. Twenty-three miles southwest of Lake Charles, LA. Grass. Isolated creeping and interior smoldering.

**Orange Blossom**, Big Cypress NP. Twenty-five miles northeast of Ochopee, FL. Southern rough. Minimal fire behavior.

\* **Guthrie**, Oklahoma DOF. Two miles south of Guthrie, OK. Hardwood slash and brush. Minimal fire behavior.

\* **270**, Concho Agency, BIA. Started on state land one mile south of Seiling, OK. Dormant brush and hardwood slash. Active fire behavior with long-range spotting.

\* **Wild Cat Creek**, Chattahoochee-Oconee NF. Six miles southeast of Macedonia, GA. Hardwood litter. Moderate fire behavior.

**Predictive Services Discussion:** A trough of low pressure and associated moisture will move through the Pacific Northwest into the Great Basin this weekend, with dry and breezy west winds lingering on the southern plains of eastern New Mexico and West Texas. By early next week this trough will amplify over the central U.S. with a cold front that will bring mild and unsettled conditions generally east of the Mississippi. The western U.S. will see a developing ridge of high pressure next week with dry and stable weather.

## DRIVING SAFETY

*Vehicles/Roads Category*

**Driving is one of the most hazardous things we do because we literally perform the task hundreds of times in the course of our daily lives we tend to take it for granted. Based on recent accident trends, vehicle accidents are the source of more deaths and serious injuries to wildland firefighters than any other single cause.**

- To be a safe driver you have to *want* to be one. Take a good hard look at your driving habits. Are you training yourself to do the right things the right way, like fastening your seat belt, checking your mirrors, and maintaining safe following distances?
- Inattentiveness is a major contributing factor in motor vehicle accidents within the wildland firefighting community. Since the average adult attention span is 15-20 minutes we must develop techniques that allow us to refocus our attention on our driving.
- Many things can lure our attention away from our driving such as: fatigue, eating and drinking, reading directions and maps, writing, cell phone and radio use, conversation within the vehicle and music.
  - ✓ Drive only when you are well rested and alert and avoid driving during the hours of 10:00 PM and 6:00 AM. Take a 10 to 15 minute break after every 2 hours.
  - ✓ Practice situational awareness; be aware of what is happening in front, behind, and on both sides of your vehicle.
  - ✓ Never drive when taking medications that make you drowsy.
  - ✓ Delegate navigation and communication to a passenger or pull over.
  - ✓ By constantly moving your vision, checking mirrors and distant road conditions, you can avoid highway hypnosis and daydreaming.
  - ✓ Avoid eating or drinking while driving.
  - ✓ When talking with passengers, keep your eyes on the road and both hands on the steering wheel. Avoid serious or argumentative conversations.
  - ✓ Do not be in a hurry, be patient.
- Safe driving starts with a safe vehicle. Something as simple as under-inflated tires can have serious consequences. Before operating any vehicle, do a walk-around to look for potential problems, make sure the lights and blinkers work, and adjust your seat and mirrors. If it is the first time you have driven the vehicle, make yourself aware of where everything is.
