

**National Interagency Coordination Center  
Incident Management Situation Report  
Saturday June 7, 2014 – 0530 MT  
National Preparedness Level 1**

**National Fire Activity**

Initial attack activity: Light (69 new fires)  
 New large fires: 1 (\*)  
 Large fires contained: 1  
 Uncontained large fires: \*\* 1  
 Area Command Teams committed: 0  
 NIMOs committed: 0  
 Type 1 IMTs committed: 0  
 Type 2 IMTs committed: 0

\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

**Southwest Area (PL 3)**

New fires: 4  
 New large fires: 0  
 Uncontained large fires: 1

**Black River Tank**, Fort Apache Agency, BIA. Twenty-one miles southeast of Whiteriver, AZ. Pinyon pine, juniper and brush. Moderate fire behavior with single tree torching and short-range spotting.

Incident Name	St	Unit	Size	Size Chge 24 Hrs	% Ctn	Est Ctn	Totl Pers	Pers Chge 24 Hrs	Crw	Eng	Heli	Strc Lost	\$\$ CTD	Origin Own

Total	1	9,397	8	0	2	239

**Predictive Services Discussion:** Isolated thunderstorms are possible over the higher terrain of Western Nevada but overall conditions in the West will remain warm and dry. Showers and thunderstorms are expected for the Great Lakes and Mid-Mississippi Valley with a cold front sagging southward. Another cold frontal boundary from Oklahoma to Florida will be a focus for showers and thunderstorms there.

## AVIATION MISHAP RESPONSE

*Aviation Category*

Having a written mishap response action posted and accessible to all employees is an important first step. Having a list of actions to follow will ensure that nothing is missed in a stressful, time-critical period. Response plans have to be briefed to all on the crew.

Immediate, positive action is necessary. Any delay may affect someone's chances of survival.

Conduct rescue operations keeping the following priorities in mind:

- Preserve life. Rescuers first!!!
- Do whatever is necessary to extricate injured occupants and to extinguish fires, keeping in mind the necessity of protecting and preserving evidence.
- Document and/or photograph the location of any debris that must be disturbed in order to carry out rescues and/or fire suppression activities.
- Secure the area. Treat the crash site as a crime scene. Arrange for security at the accident scene if necessary. Determine if hazardous materials were on the aircraft. Deny access except to credentialed officials and escorted media.

Be aware that crash sites can be dangerous due to hazardous cargo, flammable and toxic fluids, sharp objects, disease, adverse terrain, hot/cold weather conditions, and fire.

Exercise good judgment, utilize available protective devices and clothing, and use extreme caution when working near the wreckage site.

Do not exceed your physical limitations.

**Activity:** *Review your unit's mishap response plan with the crew. Consider practicing with a crash rescue drill or scenario.*
