

**National Interagency Coordination Center
Incident Management Situation Report
Monday July 14, 2014 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (156 new fires)
 New large fires: 3 (*)
 Large fires contained: 2
 Uncontained large fires: ** 6
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 2
 Type 2 IMTs committed: 2

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Northwest Area (PL 2)

New fires: 73
 New large fires: 3
 Uncontained large fires: 4
 Type 1 IMTs committed: 1
 Type 2 IMTs committed: 1

Mills Canyon, Southeast Region, Washington DNR. IMT 1 (Lewis). Two miles southwest of Entiat, WA. Timber, brush and grass. Moderate fire behavior with short-range spotting. Numerous residences threatened. Evacuations and road closures in effect.

* **Moccasin Hill**, Klamath Unit, Oregon DOF. Four miles north of Sprague River, OR. Timber. Active fire behavior with crowning and spotting. Structures threatened. Evacuations in effect.

* **White River**, The Dalles Unit, Oregon DOF. ODF IMT 2 (Buckman). Fifteen miles west of Maupin, OR. Timber. Minimal fire behavior. Structures threatened. Precipitation occurred over the fire area yesterday.

* **Service Creek**, John Day Unit, Oregon DOF. Fifteen miles southeast of Fossil, OR. Timber. Running and spotting. Structures threatened.

Predictive Services Discussion: Strong high pressure over the western U.S. will continue to provide hot temperatures today. Unseasonable low pressure over the eastern half of the U.S. will be accompanied by an extensive cold front stretching from New England through the Southern Plains where showers and thunderstorms will be focused.

INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR

Fireline Safety Category

Every firefighter will be giving and receive briefings at some point on the job. Briefings are an effective way to disseminate information that can make the firefighter's job safer and easier. When giving a briefing, it is important to keep the following questions in mind and remain perceptive to how the audience is receiving the information:

- Did you use the National Incident Response Pocket Guide standards briefing checklist?
- Did they ask questions? Talk about what it is like giving a briefing. Do you get empty stares? What feedback are you looking for to ensure they understand you?
- Did they take notes? What kind of information would you like to see people write down?
- Did they repeat information back? What other ways can you identify that your briefing is registering?
- Did you give all the necessary information? How will you ensure that you covered everything necessary?
 - Task
 - Location
 - Communications
 - Hazards
 - Who, when, etc.
- It is also important for the firefighter who is receiving instructions to be mindful of the following during the briefing:
 - Did you really listen? What do you do to make yourself pay attention to everything being said?
 - Did you understand the assignment, location, and the nature and location of hazards? Do you expect to figure it out for yourself when you get out there or do you step forward and ask questions?
- You must know the location of the assignment and:
 - What is to be done?
 - Who you are to report to and how often to report.
 - When you are expected to complete the assignment.
 - Hazards.
 - Communication plan frequencies.
 - Weather and fire behavior.
 - Status of adjoining forces.
