

**National Interagency Coordination Center  
Incident Management Situation Report  
Monday, June 15, 2015 – 0530 MT  
National Preparedness Level 2**

**National Fire Activity**

Initial attack activity: Light (107 new fires)  
 New large incidents: 2  
 Large fires contained: 1  
 Uncontained large fires: \*\* 3  
 Area Command Teams committed: 0  
 NIMOs committed: 0  
 Type 1 IMTs committed: 0  
 Type 2 IMTs committed: 2

\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

**Northern California Area (PL 2)**

New fires: 26  
 New large incidents: 0  
 Uncontained large fires: 1  
 Type 2 IMTs 1

**Saddle**, Shasta-Trinity NF. IMT 2 (Johnson). Seven miles northwest of Hyampom, CA. Heavy logging slash, hardwood litter and brush. Moderate fire behavior with isolated torching, short-range spotting and backing. Numerous structures threatened. Evacuations in effect.

Incident Name	Unit	Size		%	Ctn / Comp	Est	Personnel			Resources			Strc Lost	\$\$ CTD	Origin Own
		Acres	Chge				Total	Chge	Crews	Eng	Heli				
Saddle	CA-SHF	1,490	10	40	Ctn	NR	1,157	291	26	65	5	0	3.5M	FS	

**Northwest Area (PL 2)**

New fires: 10  
 New large incidents: 0  
 Uncontained large fires: 1  
 Type 2 IMTs 1

**Buckskin**, Rogue River-Siskiyou NF. IMT 2 (Johnson). Ten miles southwest of Cave Junction, OR. Timber, closed timber litter and brush. Moderate fire behavior with wind driven runs, short-range spotting and backing. Road, area and trail closures in effect.

Incident Name	Unit	Size		%	Ctn / Comp	Est	Personnel			Resources			Strc Lost	\$\$ CTD	Origin Own

**Predictive Services Discussion:** A weak trough will begin moving into the Northwest while a ridge builds over the southern half of the nation. Scattered thunderstorms will continue over the Rockies. Widespread rain and thunderstorms remain over the southern Plains through the Great Lakes region. Temperatures will continue to rise in the Southwest and the Southeast while most of the Rockies and the northern and central Plains remain mild. Some cooler air will sink into northern Alaska but the Interior and South will remain very warm and dry.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

This report contains information derived from the National Fire and Aviation Management Web Applications (FAMWEB) system and other sources to provide relative information about emerging and ongoing incident activity. This information is considered operational in nature, is subject to change, and therefore may not match official year-to-date agency records.

## SAFENET

*Fire Communication Category*

SAFENET is a form and process for front line firefighters that provides a way to be heard and get unsafe situations resolved. SAFENET has been in demand by firefighters themselves. It is a method for prompt reporting and timely resolution of safety and health concerns encountered in wildland fire, all hazard operations, or other related work environments. The information on the form assists in the collection of important, safety-related data at the National Interagency Fire Center, to determine long-term trends and problem areas. Here are some facts about SAFENET and how it works.

- Individuals who observe or who are involved in an unsafe situation shall initiate corrective actions if possible, and then report the occurrence using SAFENET. SAFENET reports should identify unsafe situations in wildland fire, all hazard operations, or other related work environments.
- SAFENETs should be submitted to the first line supervisor, whose responsibility it is to resolve the situation as quickly as possible.
- SAFENETs may also be submitted directly to the SAFENET system via:
  - The internet at [safenet.nifc.gov](http://safenet.nifc.gov) or linking to it through the NIFC website.
  - Telephone at (1-888-670-3938)
  - Direct Mail to SAFENET, P.O. Box 16645, Boise, Idaho, 83715-9750
- SAFENET was originally intended for wildland fire operations, but can be used to report on activities such as training, and all hazard events.
- Submitters are encouraged, but not required, to put your name on the report. You don't have to identify yourself to fill out a SAFENET, you can do it anonymously. All SAFENETs will be sanitized before posting to the web. See [SAFENET Protocols](#) for sanitizing process.
- There is no punishment or penalty for filing a SAFENET, nor is it mandatory.
- SAFENETs related to incidents that have on-going serious accident investigations will not be posted until formal investigation process is completed. These SAFENETs will be sent directly to the serious accident investigation team.
- SAFENETs that do not meet posting criteria (see [SAFENET Protocols](#)) will not be posted to the website.

SAFENET is not the only way to correct a safety-related concern; it does not replace accident reporting or any other official agency reporting method. It's simply an easy, quick way to report a safety concern. It's also a way for front line firefighters to be involved in the daily job of being safe and keeping others safe, by documenting and helping to resolve safety issues.

The NWCG encourages comments and suggestions for improvement of the SAFENET program. Please share your ideas by emailing the [SAFENET\\_Administrator@blm.gov](mailto:SAFENET_Administrator@blm.gov).
