

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, June 24, 2015 - 0530 MT
National Preparedness Level 3**

National Fire Activity

Initial attack activity:	Light (170 new fires)
New large incidents:	7
Large fires contained:	0
Uncontained large fires: **	23
Area Command Teams committed:	0
NIMOs committed:	1
Type 1 IMTs committed:	1
Type 2 IMTs committed:	10

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Alaska Area (PL 5)

New fires:	55
New large incidents:	5
Uncontained large fires:	13
Type 1 IMTs committed:	1
Type 2 IMTs committed:	6

Rex Complex (two fires), Fairbanks Area Forestry, DOF. IMT2 (Sheldon). Started on private land southeast of Clear, AK. Timber, brush and tall grass. Moderate fire behavior with short-range spotting and flanking. Structures threatened. Evacuations, road and trail closures in effect.

* **Anaconda Creek**, Fairbanks Area Forestry, DOF. IMT2 (Allen). Twenty-four miles northeast of North Pole, AK. Hardwood litter. Active fire behavior.

* **Nulato**, Galena Zone, BLM. Started on native corporation land in Nulato, AK. Timber, brush and short grass. Extreme fire behavior with running, crowning, and short-range spotting. Numerous structures threatened. Evacuations in effect.

Spicer Creek, Tanana Zone, BLM. IMT2 (Staats). IMT is also managing the Hay Slough and Moose Point fires. Started on native corporation land seven miles northeast of Tanana, AK. Timber. No new information.

Hay Slough, Tanana Zone, BLM. Fourteen miles southeast of Tanana, AK. Timber. No new information.

Moose Point, Tanana Zone, BLM. Started on state land 50 miles west of Tanana, AK. Timber. No new information.

Long Lake, Tok Area Forestry, DOF. Two miles east of Northway, AK. Timber. Active fire behavior with running and torching. Structures threatened.

* **Ruby Slough**, Galena Zone, BLM. IMT2 (Hutton). Started on state land five miles southwest of Ruby, AK. Timber, brush and short grass. Extreme fire behavior with running, torching and backing.

Card Street, Kenai-Kodiak Area Forestry, DOF. IMT2 (Allbee). Started on native corporation land five miles southeast of Sterling, AK. Timber. Active fire behavior with isolated torching, smoldering and creeping. Numerous structures threatened. Road, area and trail closures in effect. Reduction in acreage due to more accurate mapping.

Stetson Creek, Chugach NF. IMT2 (Goff). IMT is also managing the Juneau Lake fire. Two miles southwest of Cooper Landing, AK. Timber. Minimal fire behavior with creeping, smoldering and backing. Area and trail closures in effect.

Juneau Lake, Chugach NF. Five miles north of Cooper Landing, AK. Timber and brush. Minimal fire behavior with creeping and backing. Trail closures in effect.

Whitefish Lake 1, Southwest Area, DOF. Started on FWS 20 miles southwest of Kalskag, AK. Short Grass. Minimal fire behavior. Structures threatened.

Tanana Slough, Tok Area Forestry, DOF. Started on native corporation land four miles north of Dot Lake, AK. Timber. Moderate fire behavior. Structures threatened.

Nenana Ridge, Fairbanks Area Forestry, DOF. Twelve miles east of Four Mile Rd, AK. Hardwood Litter. Moderate fire behavior.

La Grande, Military Zone, BLM. Started on DOD land 30 miles west of Healy, AK. Timber. Moderate fire behavior with smoldering. Structures threatened. Reduction in acreage due to more accurate mapping.

Sockeye, Mat-Su Area Forestry, DOF. IMT1 (Kurth). Started on private land six miles north of Willow, AK. Timber. Minimal fire behavior with smoldering. Numerous structures threatened.

Iditarod River, Southwest Area Forestry, DOF. Started on state land three miles north of Iditarod, AK. Chaparral and tall grass. Active fire behavior. Structures threatened. Last report unless significant activity occurs.

* **Tetlin Hills**, Tok Area Forestry, DOF. Eight miles southeast of Tok, AK. Timber. Moderate fire behavior with wind-driven runs, flanking and backing. Last report unless significant activity occurs.

* **Old Woman**, Galena Zone, BLM. Twenty-eight miles northeast of Unalakleet, AK. Timber, brush and short grass. Extreme fire behavior with running, torching and backing. Structures threatened. Last report unless significant activity occurs.

[Predictive Services Discussion](#) High pressure over the southern U.S. will continue to bring hot and dry conditions to the Desert Southwest with isolated to scattered thunderstorms associated with moisture over the southern and central Rockies. Warming and drying with breezy winds is expected across the remainder of the Intermountain West and also over the high Plains region. The northern half of the Nation will see westerly flow aloft with an embedded disturbance over the northern and high Plains. Showers and thunderstorms will produce heavy rain in the central Plains north of a frontal boundary. An approaching trough of low pressure will bring gusty winds to northern Alaska. Further south there will continue to be a threat of isolated to scattered thunderstorms.

MEDICAL INCIDENT REPORT

Fire Communication Category

The new Medical Incident Report (MIR) form can be found at all of the following: pages 108-09 of the IRPG, Medical Plan ICS-206 WF form and in many Incident Action Plans (IAPs). The MIR evolved from, and has replaced, the "9 Line Form" and "Pink Sticker."

The MIR is not always tasked to the EMT or Paramedic in "Patient Care." The intent of the form is to:

- 1) establish control of the incident, whether routine or life-threatening, by initiating a new Incident Command System,
 - 2) have a systematic, standard process for reporting medical incidents/injuries, similar to a fire size-up form for initial attack, and
 - 3) have any firefighter be able to fill it out and transmit with prior training and direction.
- Treat it like any incident. If the incident is overwhelming, ask for a more qualified IC to assume command and expand/contract the organization's size depending on the needs of the incident.
 - Fill this form out completely prior to transmitting the report to dispatch/communications. If there is a life threat, do not let documentation delay patient care.
 - When transmitting the report, state the number and title of each section and say "break" and pause between the sections (e.g., "Dispatch, TFLD Jones, Stand by for Priority Medical Incident Report. All other radio traffic please hold **BREAK** (pause/wait for response.) **2. Incident Status:** Nature of Illness is chest pain. Incident Name is Tank Medical. IC will be TFLD Jones. Patient Care will be Paramedic Smith. **BREAK. 3. Initial Patient Assessment** is...").
 - When using the MIR during a Multi-Casualty Incident (MCI) state the number injured and their severity (Section 3), (e.g., "**3. Initial Patient Assessment**, I have 5 patients. 3 Reds, 1 Yellow and 1 Green. Mechanism of Injury is...").
 - Use the terms Paramedic or EMT with the provider's last name in "Patient Care." Do not use EMT to describe a Paramedic or the ambiguous term, "Medic." All those roles need to be clearly identified to understand the level of care and treatment the patient(s) will receive.
 - Enact more than one transport plan and clear more than one frequency if needed for Sections 5 and 6.
 - Always be ready for the first plan to fail and be flexible enough to move into an alternate plan. Use the acronym PACE (**P**rimary, **A**lternate, **C**ontingency, and **E**mergency) for planning purposes.

Action Items:

- Consider developing medical emergency tabletop scenarios as part of morning briefings or field scenarios on project work to become familiar with the process. The more comfortable with the MIR you are, the more it will be second nature under stress.
- Ensure dispatchers and radio operators are aware of their roles and responsibilities pertaining to the Medical Incident Report.
- Review your local units' Emergency Plans.
