

**National Interagency Coordination Center  
Incident Management Situation Report  
Monday, September 28, 2015 - 0530 MT  
National Preparedness Level 2**

**National Fire Activity**

Initial attack activity: Light (54 new fires)  
 New large incidents: 0  
 Large fires contained: 2  
 Uncontained large fires: \*\* 4  
 Area Command Teams committed: 0  
 NIMOs committed: 0  
 Type 1 IMTs committed: 1  
 Type 2 IMTs committed: 1

\*\* Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

**Northern California Area (PL 3)**

New fires: 16  
 New large incidents: 0  
 Uncontained large fires: 3  
 Type 1 IMTs committed: 1

**Butte**, Amador-El Dorado Unit, Cal Fire. Cal Fire IMT 1 (Gouvea). One mile north of Mokelumne Hill, CA. Timber, chaparral and tall grass. Minimal fire behavior with smoldering.

**Valley**, Sonoma-Lake Napa Unit, Cal Fire. One mile south of Glenbrook, CA. Timber. Minimal fire behavior. Numerous structures threatened.

**River Complex**, Shasta-Trinity NF. Three miles southwest of Denny, CA. Timber. No new information. Last report unless new information is received.

Incident Name	Unit	Size		%	Ctn / Comp	Est	Personnel		Resources			Strc Lost	\$\$ CTD	Origin Own
		Acres	Chge				Total	Chge	Crews	Eng	Heli			
Butte	CA-AEU	70,868	0	95	Ctn	10/01	1,344	-178	23	68	0	818	70.5M	ST

\*\*\* Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments. \*\*\*

Additional wildfire information is available through the Geographic Areas at <http://gacc.nifc.gov/>

**Predictive Services Discussion**: High pressure over central Canada will drop into the northern U.S. Plains, bringing cooler weather to most of the northern third of the country. A few showers will develop from the northern Rockies to the Great Lakes. Warm and dry weather will continue over much of the southwestern U.S. High pressure will keep mild conditions in place across much of the East with warming taking place in the southern and central Plains. Scattered showers and thunderstorms will stretch from the Texas coastal plain to the Mid-Atlantic states.

## DRIVING SAFETY

*Vehicles/Roads Category*

**Driving is one of the most hazardous things we do because we literally perform the task hundreds of times in the course of our daily lives we tend to take it for granted. Based on recent accident trends, vehicle accidents are the source of more deaths and serious injuries to wildland firefighters than any other single cause.**

- To be a safe driver you have to *want* to be one. Take a good hard look at your driving habits. Are you training yourself to do the right things the right way, like fastening your seat belt, checking your mirrors, and maintaining safe following distances?
- Inattentiveness is a major contributing factor in motor vehicle accidents within the wildland firefighting community. Since the average adult attention span is 15-20 minutes we must develop techniques that allow us to refocus our attention on our driving.
- Many things can lure our attention away from our driving such as: fatigue, eating and drinking, reading directions and maps, writing, cell phone and radio use, conversation within the vehicle and music.
  - ✓ Drive only when you are well rested and alert and avoid driving during the hours of 10:00 PM and 6:00 AM. Take a 10 to 15 minute break after every 2 hours.
  - ✓ Practice situational awareness; be aware of what is happening in front, behind, and on both sides of your vehicle.
  - ✓ Never drive when taking medications that make you drowsy.
  - ✓ Delegate navigation and communication to a passenger or pull over.
  - ✓ By constantly moving your vision, checking mirrors and distant road conditions, you can avoid highway hypnosis and daydreaming.
  - ✓ Avoid eating or drinking while driving.
  - ✓ When talking with passengers, keep your eyes on the road and both hands on the steering wheel. Avoid serious or argumentative conversations.
  - ✓ Do not be in a hurry, be patient.
- Safe driving starts with a safe vehicle. Something as simple as under-inflated tires can have serious consequences. Before operating any vehicle, do a walk-around to look for potential problems, make sure the lights and blinkers work, and adjust your seat and mirrors. If it is the first time you have driven the vehicle, make yourself aware of where everything is.
