

**National Interagency Coordination Center  
Incident Management Situation Report  
Friday, July 15, 2016 – 0530 MT  
National Preparedness Level 2**

**National Fire Activity**

Initial attack activity: Light (151) new fires  
 New large incidents: 6  
 Large fires contained: 5  
 Uncontained large fires:\*\* 11  
 Area Command Teams Committed: 0  
 NIMOs committed: 0  
 Type 1 IMTs committed: 0  
 Type 2 IMTs committed: 2  
 \*\*Uncontained large fires include only fires being managed under a full suppression strategy.  
[Link](#) to Geographic Area daily reports.

**Rocky Mountain (PL 3)**

New fires: 4  
 New large incidents: 1  
 Uncontained large fires: 1  
 Type 2 IMTs Committed: 1

**Hayden Pass**, Pike & San Isabel NF. IMT 2 (Esperance). Twenty miles southeast of Salida, CO. Timber, heavy logging slash and chaparral. Active fire behavior with crowning, uphill runs and backing. Numerous structures threatened. Evacuations, road, area and trail closures in effect.

\* **Blair**, White River Field Office, BLM. Thirty miles west of Meeker, CO. Brush and short grass. Active fire behavior with short crown runs and long-range spotting. Last report unless significant activity occurs.

**Hairy**, Fort Carson Army Base. Twenty-one miles southwest of Colorado Springs, CO. Hardwood slash, brush and tall grass. Minimal fire behavior. Area closures in effect.

**Southwest Area (PL 3)**

New fires: 10  
 New large incidents: 3  
 Uncontained large fires: 2  
 Type 2 IMTs committed: 1

**Fuller**, Grand Canyon NP. IMT 2 (Sinclair). Four miles northeast of North Rim, AZ. Timber and medium logging slash. Active fire behavior with uphill runs, torching and spotting. Road, area and trail closures in effect.

\* **Miller**, Gila NF. Nine miles north of Luna, NM. Timber and grass. Minimal fire behavior with flanking, backing and creeping. Last report unless significant activity occurs.

\* **Timber**, Gila NF. Twenty-six miles northeast of Silver City, NM. Timber and grass. Minimal fire behavior. Last report unless significant activity occurs.

**Baca**, Northwest District, Arizona State Forestry. Previously reported incident. Fifty-two miles northwest of Prescott, AZ. Brush and short grass. Moderate fire behavior with flanking, backing and creeping. Last report unless significant activity occurs.

**Pair O' Dice**, Fort Apache Agency, BIA. Twenty-five miles southwest of Alpine, AZ. Timber and grass. No new information.

**School**, Gila NF. Two miles northwest of Snow Lake, NM. Previously reported incident. Timber and tall grass. Minimal fire behavior with backing. Last report unless significant activity occurs.

\* **Puertecito**, Cibola NF. Fifteen miles south of Magdalena, NM. Timber and short grass. Minimal fire behavior. Last report unless significant activity occurs.

**Clavel**, Las Vegas District, New Mexico State Forestry. Twenty miles northeast of Roy, NM. Brush and tall grass. Minimal fire behavior.

**Predictive Services Discussion:** A weak low will move into the Northwest while a strong ridge builds across the Southwest. A broad trough will remain over the eastern U.S. Scattered showers will develop across the far northern Rockies. Scattered showers and thunderstorms will also form across the High Plains and through the Southeast. A few showers will linger over the Great Lakes and New England. Temperatures will cool across the Northwest through the northern Rockies. Mild conditions will persist across the Midwest. Hot weather will continue in the Southwest and the southern Plains while the eastern seaboard remains warm. In Alaska, hot conditions will continue across much of the state. A cold front will move into the northwest, bringing scattered showers and a few thunderstorms. A few thunderstorms will linger over the southern parts of the state.

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

## BASE ALL ACTIONS ON CURRENT AND EXPECTED FIRE BEHAVIOR

*Weather / Fire Behavior Category*

- Can the resources you are replacing give you a thorough briefing? What information will you want to get from resources you are replacing?
- Can you observe the area or use scouts? What information are the scouts looking for?
- Have escape routes and safety zones been thoroughly scouted? List some ways your crew will scout out an area before you begin working
- Are escape routes and safety zones marked for night use? How do you adjust marking safety zones and escape routes for night use?
- Have potential dangers been located and can they be dealt with? List some dangerous fire behavior you may encounter and how you would deal with it.
- Do you have access to weather and fire behavior forecasts? What is your unit's procedure for obtaining forecasts?
- To reduce risk, initiate the following:
  - Post lookouts.
  - Check communications.
  - Retreat if you have doubts about your escape routes or safety zones or if the situation becomes too complex. Discuss fires where you have adjusted your actions based on current and expected fire behavior.

How would you judge the fire season? (Above normal, below, or average.)
