

**National Interagency Coordination Center
Incident Management Situation Report
Monday, May 3, 2021 – 0730 MDT
National Preparedness Level 2**

National Fire Activity (April 30, 2021- May 2, 2021):

Initial attack activity:	Light (428 fires)
New large incidents:	7
Large fires contained:	4
Uncontained large fires: ***	12
Area Command teams committed:	0
NIMOs committed:	0
Type 1 IMTs committed:	1
Type 2 IMTs committed:	1

Nationally, there are 3 fires being managed under a strategy other than full suppression.

***Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

[Link](#) to Understanding the IMSR.

This report will be posted Monday – Friday at 0730 Mountain time unless significant activity occurs.

IMT 2 (NW Team 6) has been assigned in support of Oregon state COVID-19 response operations.

Southwest Area (PL 3)

New fires: 15
New large incidents: 1
Uncontained large fires: 4
Type 1 IMTs committed: 1

Three Rivers, Lincoln NF, USFS. IMT 1 (SW Team 2). Twelve miles northwest of Ruidoso, NM. Short grass and timber. Minimal fire behavior. Numerous residences threatened. Area, road and trail closures in effect.

Flag, Colorado River District, BLM. Transfer of command from IMT 1 (SW Team 1) back to the local unit occurred yesterday. Twelve miles southeast of Kingman, AZ. Chaparral and timber. Minimal fire behavior with creeping and smoldering. Numerous residences threatened. Area and trail closures in effect. Reduction in acreage due to more accurate mapping.

Bonito Rock, Fort Apache Agency, BIA. Fifteen miles southeast of Whiteriver, AZ. Timber and brush. Minimal fire behavior with creeping and smoldering. Road closures in effect. Reduction in acreage due to more accurate mapping.

* **Eskiminzin**, San Carlos Agency, BIA. Eight miles east of Winkelman, AZ. Timber and brush. Minimal fire behavior.

Ten Year Average Acres (2011 – 2020 as of today)	886,712

***Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

***Additional wildfire information is available through the Geographic Areas at <https://gacc.nifc.gov/>

Predictive Services Discussion: Strong northerly winds aloft on the backside of an upper-level trough will continue over California today. Some of these stronger winds will mix to the surface amid a dry airmass with lingering stronger northerly winds continuing over portions of the southern Great Basin and Southwest. Precipitation, including potential heavy snow in the Colorado Rockies, will spread over the central and southern Rockies and into portions of the Southwest. Thunderstorms are also possible over Colorado, northeast Arizona, and much of New Mexico, but colder temperatures and higher relative humidity will accompany these thunderstorms chances. As an upper-level jet moves into the Pacific Northwest, gusty Cascade Gap winds are likely. Severe weather is possible from the southern Plains into the Midwest and eastward into the Mid-Atlantic and parts of the Southeast. Rain is expected over the southern Alaskan coast, but most of the interior will remain dry.

Aircraft and Pilot Carding

Aviation Category

Every aircraft and pilot used in support of a federal wildland fire mission must have a current Aircraft and Pilot Card or letter of authorization. The card must be held in the aircraft or with the pilot and give specific authorization to complete the requested mission. **These missions could be all or any number of missions as follows:**

- Air Attack (Level I, Level II, Level III)
- Reconnaissance
- Fire Surveillance
- Water Delivery (buckets)
- Helitorch
- Cargo
- Longline
- Plastic Sphere Dispenser (PSD) Operations

Every pilot who flies a properly-carded aircraft must possess a current Interagency Airplane or Helicopter Pilot Qualification Card that gives specific authorization to fly the type of mission requested and the specific type of aircraft being used for the mission. **These missions could be all or any number of missions as follows:**

- Air Attack
- Reconnaissance
- Fire Surveillance
- Low-level
- Paracargo
- Mountain/Remote Airstrips
- Smokejumper
- Longline

Before the aircraft and pilot can be used for a specific mission, the aircraft must be listed on a valid and current contract which includes the type of work being performed. A copy of the contract must be onboard the aircraft.

Each user of the aircraft and pilot has the authorization to physically inspect the Aircraft Data Card, the Interagency Airplane or Helicopter Pilot Qualification Card, and the contract. If any one of these three items is not available for inspection, the mission must be canceled or at least postponed until the authorization of the aircraft, pilot, or contract can be determined.

Pilots have very specific and closely monitored duty time and flight time limitations which users must understand and adhere to:

- 14-hour duty day,
- 8 hours flight time per day,
- 2 days off in 14 calendar days, and
- 36 hours cumulative flight time in any 6 consecutive days.
